Zeig mal: Gesten Sabine Handschuck, Albert Kapfhammer, 2017-06-14 Mangel gemeinsamer Sprache unterhalten wir uns oft mit Händen und Füßern. Körpersprache ist eine besondere Form der Kommunikation. In der interkulturellen Kommunikation sind es Gesten und Handzeichen, die Verständigung erleichtern, aber manchmal auch Verwirrung stiften. Die Gestik mit Händen ist das Thema dieses Buches. Es geht um die Verbindung von verbaler und nonverbaler Kommunikation, es geht um Verständigung und Missverständnisse, es geht um Gesten der Macht und um Gesten der Alltagskommunikation. Ergützt werden diese Informationen um Aktivitäten, Spiele und Übungen sowie um ein Karten-Set mit 32 Bildkarten, die für den Einsatz in Weiterbildungen mit Schulklassen oder in der Jugendarbeit geeignet sind. Das Buch richtet sich an Weiterbildnerinnen und Trainer, an Lehrerinnen und Sozialpädagogen, an Mitarbeiterinnen und Mitarbeiter sozialer und Gesundheitsdienste sowie der Verwaltung.

Shaping Sexual Knowledge Lutz Sauerteig, Roger Davidson, 2009-01-13 The history of sex education enables us to gain valuable insights into the cultural constructions of what different societies have defined as normal sexuality and sexual health. Yet the history of sex education has only recently attracted the full attention of historians of modern sexuality. *Shaping Sexual Knowledge: A Cultural History of Sex Education in Twentieth Century Europe* makes a considerable contribution not only to the cultural history of sexual enlightenment and identity in modern Europe but also to the history of childhood and adolescence. The essays collected in this volume treat sex education in the broadest sense, incorporating all aspects of the formal and informal shaping of sexual knowledge and awareness of the young. The volume therefore not only addresses officially sanctioned and regulated sex education delivered within the school system and regulated by the State and in some cases the Church, but also the content, iconography and experience of sexual enlightenment within the private sphere of the family and as portrayed through the media.

Female Sexualization Frigga Haug, 1999-10-17 Taking as their theme the sexualization of the body in particular women's sexualization and the construction of gender, Frigga Haug and the other authors of this book make a contribution to these debates by taking their own bodies as objects of study.

Conversational Routine Florian Coulmas, 2011-07-13 This collection of essays addresses the notion of conversational routine and explores the characteristics of some of the more prepatterned, formulaic and conventionalized aspects of conversational activity from a variety of perspectives. In his preface, Coulmas claims conversational interaction has its own rules, different from a linguist's notion of rule, and that conversational rules and routines purport to structure and make possible both the predictable and the non-predictable aspects of conversation. Hence the importance of this relatively unexplored side of conversational patterning. Of the thirteen papers included here, three have been previously published in academic journals, the rest are new. Half the authors are European, half are North American, and their disciplines range through linguistics, English, educational linguistics, language teaching, sociology and psycholinguistics. AntiFascism and Memory in East Germany Josie McLellan,2004-10-07 AntiFascism and Memory in East Germany is a book about remembering and about forgetting about war and about the peace which eventually followed In the unlikely setting of the German Democratic Republic GDR the Spanish Civil War became the subject of a debate which both predated and outlasted the Cold War involving historians veterans politicians censors artists writers and Church activists Examining these multiple memories and interpretations of Spain casts new and unexpected light on the legacy of the Spanish Civil War and the relationship between history and memory under state socialism The ruling Socialist Unity Party made full use of the antifascist legacy as legitimation for a non democratic state But despite dogged attempts at control and censorship the state was unable to silence competing voices All over East Germany International Brigade veterans preserved their version of events in letters to each other in communications with the party in discussions with friends and family around the kitchen table and in memoirs written for the desk drawer For younger East Germans the war retained an undeniably romantic aura From their perspective Spain was a far away land to which they were forbidden to travel the stuff of camp fire singalongs and fantasies of adventure This book dissects the relationship between state sponsored history the lobbying of veterans cultural interpretations of war and the memory traces left behind by marginalised or politically oppositional groups and individuals It is a cultural history of memory under state socialism a social history of veteran groups and their relationship with the state and a political history of communist culture Above all it is the story of how post war Europeans came to terms with the heavy burden of their pre war past

The Child's View of the Third Reich in German Literature Debbie Pinfold,2001-08-23 This book examines the ways in which German authors have used the child's perspective to present the Third Reich It considers how children at this time were brought up and educated to accept unquestioningly National Socialist ideology and thus questions the possibility of a traditional naive perspective on these events Authors as diverse as Günter Grass Siegfried Lenz and Christa Wolf together with many less well known writers have all used this perspective and this raises the question as to why it is such a popular means of confronting the enormity of the Third Reich This study asks whether this perspective is an evasive strategy a means of gaining new insights into the period or a means of discovering a new language which had not been tainted by Nazism This raises and addresses issues central to a post war aesthetic in German writing
