The American Yawp Joseph L. Locke, Ben Wright, 2019-01-22 I too am not a bit tamed I too am untranslatable I sound my barbaric yawp over the roofs of the world Walt Whitman Song of Myself Leaves of Grass The American Yawp is a free online collaboratively built American history textbook Over 300 historians joined together to create the book they wanted for their own students an accessible synthetic narrative that reflects the best of recent historical scholarship and provides a jumping off point for discussions in the U S history classroom and beyond Long before Whitman and long after Americans have sung something collectively amid the deafening roar of their many individual voices The Yawp highlights the dynamism and conflict inherent in the history of the United States while also looking for the common threads that help us make sense of the past Without losing sight of politics and power The American Yawp incorporates transnational perspectives integrates diverse voices recovers narratives of resistance and explores the complex process of cultural creation It looks for America in crowded slave cabins bustling markets congested tenements and marbled halls It navigates between maternity wards prisons streets bars and boardrooms The fully peer reviewed edition of The American Yawp will be available in two print volumes designed for the U S history survey Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans Europeans and Africans The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery the American Revolution and the new nation s development and rebirth through the Civil War and Reconstruction Rather than asserting a fixed narrative of American progress The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today
