#### Short Answer

1. The five types are fire-based, third-party services, hospital-based, police systems and private systems.
2. State emergency medical services (EMS) agencies are responsible for the overall planning, coordination and regulation of the EMS system within the state as well as licensing or certifying EMS providers. Their responsibilities may include leading statewide trauma systems, developing and enforcing statewide protocols for EMS personnel in addition to the national requirements, administering or coordinating regional EMS programs, operating or coordinating statewide communications systems, coordinating and distributing federal and state grants and planning and coordinating disaster and mass casualty responses, as well as homeland security medical initiatives.
3. The purpose of the *National EMS Education and Practice Blueprint* is to establish nationally recognized levels of EMS providers and scopes of practice. It provides a framework for future curriculum development projects and a standardized way for states to handle legal recognition and reciprocity.
4. The four nationally recognized levels of training are emergency medical responder (EMR), emergency

medical technician (EMT), advanced emergency medical technician (AEMT) and paramedic.

5. Licensure is an acknowledgment that the board has permission to practice in the state granting the licensure, has the highest level of public protection granted by the state and is the final authority for public protection.

### CASE STUDY

#### Scenario A

1. Primary responsibilities include ensuring the safety of yourself and the bystanders, gaining access to the patient, determining any threats to the patient's life, summoning more advanced medical personnel as needed, providing medical care for patients and assisting more advanced medical personnel.
2. Indirect medical control involves the use of standing orders, which allows EMS personnel to provide certain types of care or treatment without speaking to the physician.
3. Secondary responsibilities would include summoning additional help and directing bystanders or asking them for help; taking additional steps if necessary to protect bystanders from danger; recording what you saw, heard or did at the scene; and reassuring the patient's family and friends.

#### Scenario B

1. **b.** The EMT takes over the case from EMRs and works on stabilizing and preparing the patient for
