To be successful, you need to understand them. See them in detail in ways not possible with other methods. It's like a microscope looking at pond water, a telescope tilted to the sky, sonar scanning the bottom of the ocean. Hypernomics lets you see into markets in ways you can't with the unaided eye. Sailors never navigate without a map. You shouldn't either, since your ship could wind up on the rocks. Hypernomics gives you the means to create market maps that show you where they have openings and how to fill them by giving customers what they want, don't have, and can afford. It finds their thresholds and limits and responses to every possible feature in any product you can offer. The interactions Hypernomics describes have been with us since the dawn of humanity. Now you can finally see them and enjoy the advantages your competitors do not have. Validated by 13 published papers, multiple awards, a patent, and customers such as NASA, Lockheed Martin, Virgin Galactic, and a restaurant down the street, only Hypernomics gives you the ability to solve problems as varied as How could a restaurant increase revenue by 25% by rearranging seating? How do you find, describe, and capitalize on open spaces in your market? What happens when an NFL player decreases his forty-yard dash time by a quarter of a second? "The Child's Play VW Polo" explains, step by step, with a picture for each, how to do the service of your VW Polo. It is based on the certainty that everyone can do it, if clearly explicated and shown. Because it is very simple. Make sure your Polo is from 2001 to 2009 and has an engine 1.4 TDI 51, 55 or 59 kw. These are the engines covered by this VW Polo service manual. It contains an accurate list of the tools you need, a detailed procedure to do your service, but also to check and replace your front brakes (pads and discs). You will see an example of the service book you should keep up to date, and the scheduled maintenance for all the tasks that have to be done to keep your car in the best conditions. The main goal is to save money. For each maintenance, it will cost you from 35e to 50e maximum, while it costs more than 200e at your car dealer. You save at least 150e per service. More than money, you save time here ! We assure you that after the first learning, you will not need more than 30 minutes! Better than go to the car dealer and wait for two hours. The Child's Play Maintenance manuals have the goal to allow anyone to do its car service himself. We think that your mechanic charge far too much for what it is, and we want you to avoid this useless expense.
