Clashing Over Commerce Mar 25 2022 A Foreign Affairs Best Book of the Year:

“Tells the history of American trade policy . . . [A] grand narrative [that] also debunks

trade-policy myths.” —Economist Should the United States be open to commerce with other countries, or should it protect domestic industries from foreign competition? This question has been the source of bitter political conflict throughout American history. Such conflict was inevitable, James Madison argued in the Federalist Papers, because trade policy involves clashing economic interests. The struggle between the winners and losers from trade has always been fierce because dollars and jobs are at stake: depending on what policy is chosen, some industries, farmers, and workers will prosper, while others will suffer. Douglas A. Irwin’s *Clashing over Commerce* is the most authoritative and comprehensive history of US trade policy to date, offering a clear picture of the various economic and political forces that have shaped it. From the start, trade policy divided the nation—first when Thomas Jefferson declared an embargo on all foreign trade and then when South Carolina threatened to secede from the Union over excessive taxes on imports. The Civil War saw a shift toward protectionism, which then came under constant political attack. Then, controversy over the Smoot-Hawley tariff during the Great Depression led to a policy shift toward freer trade, involving trade agreements that eventually produced the World Trade Organization. Irwin makes sense of this turbulent history by showing how different economic interests tend to be grouped geographically, meaning that every proposed policy change found ready champions and opponents in Congress. Deeply researched and rich with insight and detail, *Clashing over Commerce* provides valuable and enduring insights into US trade policy past and present. “Combines scholarly analysis with a historian’s eye for trends and colorful details . . . readable and illuminating, for the trade expert and for all Americans wanting a deeper understanding of America’s evolving role in the global economy.” —National Review “Magisterial.” —Foreign Affairs

The Cambridge History of Magic and Witchcraft in the West Aug 18 2021 This book presents twenty chapters by experts in their fields, providing a thorough and interdisciplinary overview of the theory and practice of magic in the West. Its chronological scope extends from the Ancient Near East to twenty-first-century North America; its objects of analysis range from Persian curse tablets to US neo-paganism. For comparative purposes, the volume includes chapters on developments in the Jewish and Muslim worlds, evaluated not simply for what they contributed at various points to European notions of magic, but also as models of alternative development in ancient Mediterranean legacy. Similarly, the volume highlights the transformative and challenging encounters of Europeans with non-Europeans, regarding the practice of magic in both early modern colonization and more recent decolonization.

A People's History of the United States Apr 06 2023 Since its original landmark publication in 1980, *A People's History of the United States* has been chronicling American history from the bottom up, throwing out the official version of history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the workplace. Known for its lively, clear prose as well as its scholarly research, *A People's History* is the only volume to tell America's story from the point of view of -- and in the words of -- America's women, factory workers, African-Americans,

Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, *A People's History of the United States*, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new afterword by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Toward "thorough, Accurate, and Reliable" May 07 2023 *Toward "Thorough, Accurate, and Reliable"* explores the evolution of the Foreign Relations of the United States documentary history series from its antecedents in the early republic through the early 21st century implementation of its current mandate, the 1991 Foreign Relations statute. This book traces how policymakers and an expanding array of stakeholders translated values like "security," "legitimacy," and "transparency" into practice as they debated how

to balance the government's obligation to protect sensitive information with its commitment to openness. Determining the "people's right to know" has fueled lively discussion for over two centuries, and this work provides important, historically informed perspectives valuable to policymakers and engaged citizens as that conversation continues. Policymakers, citizens, especially political science researchers, political scientists, academic, high school, public librarians and students performing research for foreign policy issues will be most interested in this volume. A Different Mirror for Young People Feb 21 2022 A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

Public History Nov 20 2021 *Public History: A Textbook of Practice* is a guide to the many challenges historians face while teaching, learning, and practicing public history. Historians can play a dynamic and essential role in contributing to public understanding of the past, and those who work in historic preservation, in museums and archives, in government agencies, as consultants, as oral historians, or who manage crowdsourcing projects need very specific skills. This book links theory and practice and provides students and practitioners with the tools to do public history in a wide range of settings. The text engages throughout with key issues such as public participation, digital tools and media, and the internationalization of public history. Part One focuses on public history

sources, and offers an overview of the creation, collection, management, and preservation of public history materials (archives, material culture, oral materials, or digital sources). Chapters cover sites and institutions such as archival repositories and museums, historic buildings and structures, and different practices such as collection management, preservation (archives, objects, sounds, moving images, buildings, sites, and landscape), oral history, and genealogy. Part Two deals with the different ways in which public historians can produce historical narratives through different media (including exhibitions, film, writing, and digital tools). The last part explores the challenges and ethical issues that public historians will encounter when working with different communities and institutions. Either in public history methods courses or as a resource for practicing public historians, this book lays the groundwork for making meaningful connections between historical sources and popular audiences.

The Cambridge History of War: Volume 2, War and the Medieval World Apr 13 2021 Volume II of The Cambridge History of War covers what in Europe is commonly called 'the Middle Ages'. It includes all of the well-known themes of European warfare, from the migrations of the Germanic peoples and the Vikings through the Reconquista, the Crusades and the age of chivalry, to the development of state-controlled gunpowder-wielding armies and the urban militias of the later middle ages; yet its scope is world-wide, ranging across Eurasia and the Americas to trace the interregional connections formed by the great Arab conquests and the expansion of Islam, the migrations of horse nomads such as the Avars and the Turks, the formation of the vast Mongol Empire, and the spread of new technologies – including gunpowder and the earliest firearms – by land and sea.

Things Fall Apart Aug 10 2023 “A true classic of world literature . . . A masterpiece that has inspired generations of writers in Nigeria, across Africa, and around the world.”

—Barack Obama “African literature is incomplete and unthinkable without the works of Chinua Achebe.” —Toni Morrison Nominated as one of America’s best-loved novels by PBS’s The Great American Read Things Fall Apart is the first of three novels in Chinua Achebe's critically acclaimed African Trilogy. It is a classic narrative about Africa's cataclysmic encounter with Europe as it establishes a colonial presence on the continent. Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African experience. Achebe does not only capture life in a pre-colonial African village, he conveys the tragedy of the loss of that world while broadening our understanding of our contemporary realities.

A. W. H. Phillips: Collected Works in Contemporary Perspective Mar 13 2021 Virtually all of contemporary macroeconomics is underpinned by a Phillips curve of one variety or another; yet most of this literature displays a curious neglect of the theoretical dynamic stabilisation perspective provided by A. W. H. Phillips. This 2000 volume collected for

the first time the major work of one of the great economists, integrating Phillips's empirical work with his theoretical contribution. In addition to twelve substantive chapters, twenty-nine economists including Lawrence Klein, James Meade, Thomas Sargent, Peter Phillips, David Hendry, William Baumol, Richard Lipsey and Geoffrey Harcourt highlight and interpret Phillips's ongoing influence. This volume also contains six of Phillips's previously unpublished essays, four of which were thought to have been lost. The fifth such essay (Phillips's second empirical Phillips curve) was previously an informal working paper of which few copies circulated, and the sixth essay is a forerunner of the Lucas Critique written by Phillips shortly before his death.

Hoosiers and the American Story May 27 2022 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.
