The Immortal Life of Henrietta Lacks Jan 29 2023 #1 NEW YORK TIMES BESTSELLER • “The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly.”—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE “MOST INFLUENTIAL” (CNN), “DEFINING” (LITHUB), AND “BEST” (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE’S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Secular Steeples 2nd Edition Sep 05 2023 The Scandinavian [Nordic] countries of Denmark, Norway, Sweden, and Finland experienced the effects of the German invasion in April 1940 in very different ways. Collaboration, resistance, and co-belligerency were only some of the short-term consequences. Each country's historiography has undergone enormous changes in the seventy years since the invasion, and this collection by leading historians examines the immediate effects of Hitler's aggression as well as the long-term legacies for each country's self-image and national identity. The Scandinavian countries' war experience fundamentally changed how each nation functioned in the post-war world by altering political structures, the dynamics of their societies, the inter-relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats. Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them. In the post-war period, this has caused problems of interpretation for political and cultural historians alike. Drawing on the latest research, this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War.

Perspectives on the Holocaust Jun 02 2023 The number of books and articles dealing with various aspects of World War II has increased at a phenomenal rate since the end of the hostilities. Perhaps no other chapter in this bloodiest of all wars has received as much attention as the Holocaust. The Nazis' program for the "Final Solution of the Jewish Question" - this ideologically conceived, diabolical plan for the physical liquidation of European Jewry - has emerged as a subject of agonizing and intense interest to laypersons and scholars alike. The centrality of the Holocaust in the study of the Third Reich and the Nazi phenomenon is almost universally recognized. The source materials for many of the books published during the immediate postwar period were the notes and diaries kept by many camp and ghetto dwellers, who were sustained during their unbelievable ordeal by the unusual drive to bear witness. These were supplemented after the liberation by a large number of personal narratives collected from survivors all over Europe. Understandably, the books published shortly after the war ended were mainly martyrological and lachrymological, reflecting the trauma of the Holocaust at the personal, individual level. These were soon followed by a considerable number of books dealing with the moral and religious questions revolving around the role of the lay and spiritual leaders of the doomed Jewish communities, especially those involved in the Jewish Councils, as well as God's responsibility toward the "chosen people."

Movies and Midrash Oct 06 2023 Brings popular cinema and Jewish religious texts into a meaningful dialogue. Movies and Midrash uses cinema as a springboard to discuss central Jewish texts and matters of belief. A number of books have drawn on films to explicate Christian theology and belief, but Wendy I. Zierler is the first to do so from a Jewish perspective, exploring what Jewish tradition, text, and theology have to say about the lessons and themes arising from influential and compelling films. The book uses the method of "inverted midrash": while classical rabbinical midrash begins with exegesis of a verse and then introduces a mashal (parable) as a means of further explication, Zierler turns that process around, beginning with the culturally familiar cinematic parable and then analyzing related Jewish texts. Each chapter connects a secular film to a different central theme in classical Jewish sources or modern Jewish thought. Films covered include The Truman Show (truth), Memento (memory), Crimes and Misdemeanors (sin), Magnolia (confession and redemption), The Descendants (birthright), Forrest Gump (cleverness and simplicity), and The Hunger Games (creation of humanity in God's image), among others. "This is a groundbreaking work of originality, insight, and high quality. It will be of great importance not only for Jewish readers but also for non-Jewish readers who long for a non-Christian perspective on popular film. I loved this book!" Eric Michael Mazur, editor, Encyclopedia of Religion and Film

North to the Night Dec 28 2022 In June 1994 Alvah Simon and his wife, Diana, set off in their 36-foot sailboat to explore the hauntingly beautiful world of icebergs, tundra, and fjords lying high above the Arctic Circle. Four months later, unexpected events would trap Simon alone on his boat, frozen in ice 100 miles from the nearest settlement, with the long polar night stretching into darkness for months to come. With his world circumscribed by screaming blizzards and marauding polar bears and his only companion a kitten named Halifax, Simon withstands months of crushing loneliness, sudden blindness, and private demons. Trapped in a boat buried beneath the drifting snow, he struggles through the perpetual darkness toward a spiritual awakening and an understanding of the forces that conspired to bring him there. He emerges five months later a transformed man. Until Our Last Breath Apr 19 2022 "This is a powerful tale of the triumph of love under extremely difficult conditions. " - Publishers Weekly At Leizer Bart's funeral, one of the mourners told his son Michael that the gravestone should include a reference to the Freedom Fighters of Nekamah, to honor his late father's involvement in the Jewish resistance movement in Vilna (now Vilnius), Lithuania, at the end of World War II. Michael had never heard his parents referenced as Freedom Fighters. Following his father's death, and with his mother in failing health, Michael embarked on a ten-year research project to find out more details about his parents' time in the Vilna ghetto, where they met, fell in love, and married, and about their activities as members of the Jewish resistance. Until Our Last Breath is the culmination of his research, and his parents' story of love and survival is seamlessly tied into the collective story of the Vilna ghetto, the partisans of Vilna, and the wider themes of world history. Zenia, Bart's mother, was born and raised in Vilna. Leizer fled there to escape the Nazi invasion of his hometown of Hrubieshov in Poland. They were married by one of the last remaining rabbis ninety days before the liquidation of the ghetto. Leizer was friends with Zionist leader Abba Kovner and became a member of the Vilna ghetto underground. Shortly before the total liquidation of the ghetto, Zenia and Leizer, along with about 120 members of the underground, were able to escape to the Rudnicki forest, about 25 miles away. They became part of the Jewish partisan fighting group led by Abba Kovner—known as the Avengers—which carried out sabotage missions against the Nazi army and eventually participated in the liberation of Vilna. Until Our Last Breath is intensely personal and painstakingly researched, a lasting memorial to the Jews of Vilna, including the resistance fighters and the author's family.

Introduction to Jewish-Christian Relations Jan 17 2022 In recent decades Christians and Jews are beginning to ask questions about one another's traditions, to break down centuries-old barriers of prejudice, and to explore not only our differences, but our similarities of faith as well. This book walks the reader through rich but controversial terrain--the Bible, the Holocaust, the state of Israel, anti-Judaism, theology, Christology, intermarriage, feminism, and approaches to education. In each area the reader is asked to listen, to be open, to stretch, and to wrestle with the deeply felt beliefs that unite as well as divide us. The authors, representing Jewish, Protestant, and Catholic traditions, introduce the reader to the terms, content, and intricacies of inter-religious dialogue, the quest for better relations among all those who worship the God of Abraham and Sarah.

Philosophical and Theological Papers, 1965-1980 Aug 12 2021 A companion to *Philosophical and Theological Papers 1958-1964* (Volume 6 in the *Collected Works of Bernard Lonergan* series), this anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life, 1965-1980. These papers document his development in the discipline during the years leading up to the publication of *Method in Theology*, and beyond to 1980 when he was more engaged in his writings and seminars on macroeconomics. *Philosophical and Theological Papers 1965-1980* is divided into five sections, forming units on the basis of dates. The three central sections are each a set of lectures respectively given at the Massachusetts Institute of Technology, Gonzaga University in Spokane, and Trinity College (University of Toronto). Although there is some repetition amongst the lecture sets and in relation to other more familiar works, this repetition displays occasional new turns of phrase that the careful reader will note. In at least one instance, familiar material suddenly opens out onto expressions not to be found anywhere else in Lonergan's work. Other very interesting developments regard the movement from speaking of the immutability of dogmas to their permanence of meaning and the permutations among 'real self-transcendence,' 'performative self-transcendence,' and 'moral self-transcendence.'

Stanley Kubrick Jan 09 2024 Stanley Kubrick is generally acknowledged as one of the world's great directors. Yet few critics or scholars have considered how he emerged from a unique and vibrant cultural milieu: the New York Jewish intelligentsia. Stanley Kubrick reexamines the director's work in context of his ethnic and cultural origins. Focusing on several of Kubrick's key themes—including masculinity, ethical responsibility, and the nature of evil—it demonstrates how his films were in conversation with contemporary New York Jewish intellectuals who grappled with the same concerns. At the same time, it explores Kubrick's fraught relationship with his Jewish identity and his reluctance to be pegged as an ethnic director, manifest in his removal of Jewish references and characters from stories he adapted. As he digs deep into rare Kubrick archives to reveal insights about the director's life and times, film scholar Nathan Abrams also provides a nuanced account of Kubrick's cinematic artistry. Each chapter offers a detailed analysis of one of Kubrick's major films, including *Lolita*, *Dr. Strangelove*, *2001, A Clockwork Orange*, *Barry Lyndon*, *The Shining*, *Full Metal Jacket*, and *Eyes Wide Shut*. Stanley Kubrick thus presents an illuminating look at one of the twentieth century's most renowned and yet misunderstood directors.

Microhistories of the Holocaust Mar 07 2021 How does scale affect our understanding of the Holocaust? In the vastness of its implementation and the sheer amount of death and suffering it produced, the genocide of Europe's Jews presents special challenges for historians, who have responded with work ranging in scope from the world-historical to the intimate. In particular, recent scholarship has demonstrated a willingness to study the Holocaust at scales as focused as a single neighborhood, family, or perpetrator. This volume brings together an international cast of scholars to reflect on the ongoing microhistorical turn in Holocaust studies, assessing its historiographical pitfalls as well as the distinctive opportunities it affords researchers.

Imagining the Unimaginable Mar 19 2022 *Imagining the Unimaginable* examines popular fiction's treatment of the Holocaust in the dystopian and alternate history genres of speculative fiction, analyzing the effectiveness of the genre's major works as a lens through which to view the most prominent historical trauma of the 20th century. It surveys a range of British and American authors, from science fiction pulp to Pulitzer Prize winners, building on scholarship across disciplines, including Holocaust studies, trauma studies, and science fiction studies. The conventional discourse around the Holocaust is one of the unapproachable, unknowable, and the unimaginable. The Holocaust has been compared to an earthquake, another planet, another universe, a void. It has been said to be beyond language, or else have its own incomprehensible language, beyond art, and beyond thought. The 'othering' of the event has spurred the phenomenon of non-realist Holocaust literature, engaging with speculative fiction and its history of the uncanny, the grotesque, and the inhuman. This book examines the most common forms of nonmimetic Holocaust fiction, the dystopia and the alternate history, while firmly positioning these forms within a broader pattern of non-realist

engagements with the Holocaust.
