My belief about myself as a learner when I entered the class was a positive one. I attended a college prep school for high school and went to Oregon State University last year. I had plenty of practice with different learning techniques and found what works well for me. I believe I'm more of a visual learner than an auditory learner. It is easier to see a powerpoint and retain the knowledge than listen to a lecture and have the same retention. Entering the class I thought I liked working in groups more than working individually on projects, but that has since changed. I think it is more beneficial to me to work alone because I can get more done. When I entered the class I believed that reading the material closer to the due date was a better idea because I may not remember what I had read if I didn't.

What I have discovered about myself, as a learner over the term is vast. I learned that I can read the material way in advance and just briefly skim over the text and remember just about everything, where as I thought reading closer was more beneficial. I also learned that working in groups really isn't my specialty. I prefer working by myself because I'm able to get a lot more done and not have to worry about other people forgetting their part of the project. I don't like having to worry about other people not following through. I also learned that looking at the daily record in advanced helped me

Kristine Kowalchuk argues that receipt books served as a form of folk writing where knowledge was shared and passed between generations. These texts played an important role in the history of women's writing and literacy and contributed greatly to issues of authorship, authority, and book history. Kowalchuk's revelatory interdisciplinary study offers unique insights into early modern women's writings and the original sharing economy **More Than a Hobby** David Green, 2010-07-26 The retail industry has undergone enormous changes during the last thirty years. But there is one retailer that not only has remained consistent in the fluctuating, even tenuous market but also has grown in the process. *More Than a Hobby* takes you inside the story of David Green, the man who built the phenomenal success of Hobby Lobby. Green went beyond surviving in a competitive retail market to thriving, ultimately expanding his 600 start-up company into a 1.3 billion per year enterprise. Green's incredible accomplishments were based not on business school theory but on his grassroots experiences as a store manager and his creative application of cutting-edge ideas including: Allow managers to spend no more than thirty minutes per day on paperwork. Instead of paying a middleman, assemble as much of the product as possible in-house. Give buyers the freedom to purchase without restraint but within the realm of common sense. Keep God and family first. *More Than a Hobby* is a practical field manual filled with revolutionary ideas for all those who dream of success in the world of retail business *The Master Plan* Chris Wilson, Bret Witter, 2019-02-05 The inspiring, instructive, and ultimately triumphant memoir of a man who used hard work and a Master Plan to turn a life sentence into a second chance. Growing up in a tough Washington D.C. neighborhood, Chris Wilson was so afraid for his life he wouldn't leave the house without a gun. One night defending himself, he killed a man. At eighteen, he was sentenced to life in prison with no hope of parole. But what should have been the end of his story became the beginning. Deciding to make something of his life, Chris embarked on a journey of self-improvement: reading, working out, learning languages, even starting a business. He wrote his Master Plan, a list of all he expected to accomplish or acquire. He worked his plan every day for years, and in his mid-thirties, he did the impossible: he convinced a judge to reduce his sentence and became a free man. Today, Chris is a successful social entrepreneur who employs returning citizens, a mentor, and a public speaker. He is the embodiment of second chances, and this is his unforgettable story **Twenty-One Genres and How to Write Them** Brock Dethier, 2013-04-15 In this classroom-tested approach to writing, Brock Dethier teaches readers how to analyze and write twenty-one genres that
