Urban Myths About Learning And Education

Urban Myths about Learning and Education Pedro De Bruyckere, Paul A. Kirschner, Casper D. Hulshof, 2015-03-06
Many things people commonly believe to be true about education are not supported by scientific evidence Urban Myths about Learning and Education examines commonly held incorrect beliefs and then provides the truth of what research has shown Each chapter examines a different myth with sections on learning the brain technology and educational policy A final section discusses why these myths are so persistent Written in an engaging style the book separates fact from fiction regarding learning and education Recognize any of these myths People have different styles of learning Boys are naturally better at mathematics than girls We only use 10% of our brains The left half of the brain is analytical the right half is creative Men have a different kind of brain from women We can learn while we are asleep Babies become smarter if they listen to classical music These myths and more are systematically debunked with useful correct information about the topic in question Debunks common myths about learning and education Provides empirical research on the facts relating to the myths Utilizes light hearted approachable language for easy reading [More Urban Myths About Learning and Education](#) Pedro De Bruyckere, Paul A. Kirschner, Casper Hulshof, 2019-10-18 More Urban Myths About Learning and Education Challenging Eduquacks Extraordinary Claims and Alternative Facts examines common beliefs about education and learning that are not supported by scientific evidence before using research to reveal the truth about each topic The book comprises sections on educational approaches curriculum educational psychology and educational policy concluding with a critical look at evidence based education itself Does playing chess improve intelligence Should tablets and keyboards replace handwriting Is there any truth to the 10 000 hour rule for expertise In an engaging conversational style authors Pedro De Bruyckere Paul A Kirschner and Casper Hulshof tackle a set of pervasive myths effectively separating fact from fiction in learning and education [Ratchetdemic](#) Christopher Emdin, 2021-08-10 A revolutionary new educational model that encourages educators to provide spaces for students to display their academic brilliance without sacrificing their identities Building on the ideas introduced in his New York Times best selling book For White Folks Who Teach in the Hood Christopher Emdin introduces an alternative educational model that will help students and teachers celebrate ratchet identity in the classroom Ratchetdemic advocates for a new kind of student identity one that bridges the seemingly disparate worlds of the ivory tower and the urban classroom Because modern schooling often centers whiteness Emdin argues it dismisses ratchet identity the embodying of negative characteristics associated with lowbrow culture often thought to be possessed by people of a particular ethnic racial or socioeconomic status as anti intellectual and punishes young people for straying from these alleged academic norms leaving young people in classrooms frustrated and uninspired These deviations Emdin explains include so called disruptive behavior and a celebration of hip hop music and culture Emdin argues that being ratchetdemic or both

ratchet and academic like having rap battles about science for example can empower students to embrace themselves their backgrounds and their education as parts of a whole not disparate identities This means celebrating protest disrupting the status quo and reclaiming the genius of youth in the classroom

50 Myths and Lies That Threaten America's Public Schools David C. Berliner, Gene V. Glass, 2014-03-07 This book is guaranteed to spark lively debates and critical thinking in any classroom Two of the most respected voices in education identify 50 myths and lies that threaten America's public schools Berliner and Glass argue that many citizens' conception of K12 public education in the United States is more myth than reality Warped opinions about our nation's public schools include they are inferior to private schools they are among the worst in the world in math and science teachers should be fired if their students don't score at the national average and on and on With more than a little humor Berliner and Glass separate fact from fiction in this comprehensive look at modern education reform They explain how the mythical failure of public education has been created and perpetuated in large part by political and economic interests who stand to gain from its destruction They expose a rapidly expanding variety of organizations and media that intentionally misrepresent facts Where appropriate they name the promoters of the hoax and point out how their interests are served by encouraging false beliefs Their method of debunking these falsehoods is to argue against their logic criticize the data supporting them and present more credible contradictory data This dynamic book features short essays on important topics to provide every teacher administrator school board member and concerned parent with reliable knowledge from authoritative sources

The Ingredients for Great Teaching Pedro De Bruyckere, 2018-02-26 Teaching would be easy if there were clear recipes you could follow every time The Ingredients for Great Teaching explains why this is impossible and why a one size fits all approach doesn't work Instead of recipes this book examines the basic ingredients of teaching and learning so you can use them wisely in your own classroom in order to become a better and more effective teacher Taking an approach that is both evidence based and practical author Pedro de Bruyckere explores ten crucial aspects of teaching the research behind them and why they work like they do combined with everyday classroom examples describing both good and bad practice Key topics include Teacher subject knowledge Evaluation and feedback The importance of practice Metacognition Making students think This is essential reading for teachers everywhere

Culturally Responsive Teaching and The Brain Zaretta Hammond, 2014-11-13 A bold brain based teaching approach to culturally responsive instruction To close the achievement gap diverse classrooms need a proven framework for optimizing student engagement Culturally responsive instruction has shown promise but many teachers have struggled with its implementation until now In this book Zaretta Hammond draws on cutting edge neuroscience research to offer an innovative approach for designing and implementing brain compatible culturally responsive instruction The book includes information on how one's culture programs the brain to process data and affects learning relationships Ten key moves to build students' learner operating systems and prepare them to become independent learners Prompts for action and

valuable self reflection **For White Folks Who Teach in the Hood... and the Rest of Y'all Too** Christopher Emdin, 2017-01-03 A New York Times Best Seller Essential reading for all adults who work with black and brown young people Filled with exceptional intellectual sophistication and necessary wisdom for the future of education Imani Perry National Book Award Winner author of *South To America* An award winning educator offers a much needed antidote to traditional top down pedagogy and promises to radically reframe the landscape of urban education for the better Drawing on his own experience of feeling undervalued and invisible in classrooms as a young man of color Dr Christopher Emdin has merged his experiences with more than a decade of teaching and researching in urban America He takes to task the perception of urban youth of color as unteachable and he challenges educators to embrace and respect each student s culture and to reimagine the classroom as a site where roles are reversed and students become the experts in their own learning Putting forth his theory of Reality Pedagogy Emdin provides practical tools to unleash the brilliance and eagerness of youth and educators alike both of whom have been typecast and stymied by outdated modes of thinking about urban education With this fresh and engaging new pedagogical vision Emdin demonstrates the importance of creating a family structure and building communities within the classroom using culturally relevant strategies like hip hop music and call and response and connecting the experiences of urban youth to indigenous populations globally Merging real stories with theory research and practice Emdin demonstrates how by implementing the Seven Cs of reality pedagogy in their own classrooms urban youth of color benefit from truly transformative education **A Different View of Urban Schools** Kitty Kelly Epstein, 2006 Textbook **How Learning Happens** Paul A. Kirschner, Carl Hendrick, 2020 How Learning Happens introduces 28 giants of educational research and their findings on how we learn and what we need to learn effectively efficiently and enjoyably Many of these works have inspired researchers and teachers all around the world and have left a mark on how we teach today *The Smartest Kids in the World* Amanda Ripley, 2014-07-29 Following three teenagers who chose to spend one school year living in Finland South Korea and Poland a literary journalist recounts how attitudes parenting and rigorous teaching have revolutionized these countries education results **Black Education Myths and Tragedies** Thomas Sowell, 1970 *Understanding the Brain: The Birth of a Learning Science* OECD, 2007-06-12 This book provides new insights about learning by synthesising existing and emerging findings from cognitive and brain science **Seven Myths About Education** Daisy Christodoulou, 2014-03-14 In this controversial new book Daisy Christodoulou offers a thought provoking critique of educational orthodoxy Drawing on her recent experience of teaching in challenging schools she shows through a wide range of examples and case studies just how much classroom practice contradicts basic scientific principles She examines seven widely held beliefs which are holding back pupils and teachers Facts prevent understanding Teacher led instruction is passive The 21st century fundamentally changes everything You can always just look it up We should teach transferable skills Projects and activities are the best way to learn Teaching knowledge is

indoctrination In each accessible and engaging chapter Christodoulou sets out the theory of each myth considers its practical implications and shows the worrying prevalence of such practice Then she explains exactly why it is a myth with reference to the principles of modern cognitive science She builds a powerful case explaining how governments and educational organisations around the world have let down teachers and pupils by promoting and even mandating evidence less theory and bad practice This blisteringly incisive and urgent text is essential reading for all teachers teacher training students policy makers head teachers researchers and academics around the world

Educational Research and Innovation Education in the Digital Age Healthy and Happy Children OECD,2020-10-15 The COVID 19 pandemic was a forceful reminder that education plays an important role in delivering not just academic learning but also in supporting physical and emotional well being Balancing traditional book learning with broader social and personal development means new roles for schools and education more generally

Educating All God's Children Nicole Baker Fulgham,2013-04-01 Children living in poverty have the same God given potential as children in wealthier communities but on average they achieve at significantly lower levels Kids who both live in poverty and read below grade level by third grade are three times as likely not to graduate from high school as students who have never been poor By the time children in low income communities are in fourth grade they re already three grade levels behind their peers in wealthier communities More than half won t graduate from high school and many that do graduate only perform at an eighth grade level Only one in ten will go on to graduate from college These students have severely diminished opportunities for personal prosperity and professional success It is clear that America s public schools do not provide a high quality public education for the sixteen million children growing up in poverty Education expert Nicole Baker Fulgham explores what Christians can and should do to champion urgently needed reform and help improve our public schools The book provides concrete action steps for working to ensure that all of God s children get the quality public education they deserve It also features personal narratives from the author and other Christian public school teachers that demonstrate how the achievement gap in public education can be solved

Education in Popular Culture Roy Fisher,Ann Harris,Christine Jarvis,2008-05-06 Education in Popular Culture explores what makes schools colleges teachers and students an enduring focus for a wide range of contemporary media What is it about the school experience that makes us wish to relive it again and again The book provides an overview of education as it is represented in popular culture together with a framework through which educators can interpret these representations in relation to their own professional values and development The analyses are contextualised within contemporary historical and ideological frameworks and make connections between popular representations and professional and political discourses about education Through its examination of film television popular lyrics and fiction this book tackles educational themes that recur in popular culture and demonstrates how they intersect with debates concerning teacher performance the curriculum and young people s behaviour and morality Chapters explore how experiences of education are both reflected and constructed in ways that

sometimes reinforce official and professional educational perspectives and sometimes resist and oppose them Education in Popular Culture will stimulate critical reflection on the popular myths and professional discourses that surround teachers and teaching It will serve to deepen analyses of teaching and learning and their associated institutional and societal contexts in a creative and challenging way
