Understanding Early Years Policy Jul 10 2023 Lecturers, why waste time waiting for the post to arrive? Request your e-inspection copy today! 'Baldock et al is a core text for undergraduates and postgraduates interested in the complex and broad implications of Early Years policy and policy-making. This new edition offers insights into domestic and international perspectives on Early Years, and opportunities to increase understandings of how policy is shaped and applied through case studies and reflective exercises.' - Dr. Richard Race, Department of Education, University of Roehampton Fully updated to include all the latest developments in early years policy such as the revised Early Years Foundation Stage (EYFS), this book explores how policy is made, implemented, analysed and developed over time. There is a complete overview of early years policy, and an evaluation of its ongoing impact on practice. Case studies, points for reflection and activities encourage discussion and critical thinking. This Third Edition has been significantly updated to include: - a new chapter on international early years policy - discussion of the impact of the recession and the Coalition Government's policies - material on how ordinary practitioners can influence policy - a revised timeline of early years legislation. This text is an essential read for early years students at all levels, and early years practitioners. Peter Baldock worked extensively in Early Years education and was chair of the executive committees of two children's charities based in Sheffield. Damien Fitzgerald and Janet Kay are both Principal Lecturers in Childhood Studies at Sheffield Hallam University.

End-to-End Quality of Service Mar 06 2023 A modern communication network can be described as a large, complex, distributed system composed by higher interoperating, smaller sub-systems. Today, the proliferation and convergence of different types of wired, wireless, and mobile networks are crucial for the success of the next generation networking. However, these networks can hardly meet the requirements of future integrated-service networks, and are expected to carry multimedia traffic with various Quality of Experience (QoE) and Quality of Service (QoS) requirements. Providing all relevant QoS/QoE issues in these heterogeneous networks is then an important challenge for telecommunication operators, manufacturers, and companies. The impressive emergence and the important demand of the rising generation of real-time Multi-service (such as Data, Voice VoD, Video-Conference, etc.) over communication heterogeneous networks, require scalability while considering a continuous QoS. This book presents and explains all the techniques in new generation networks which integrate efficient global control mechanisms in two directions: (1) maintain QoS requirements in order to maximize network resources utilization, and minimize operational costs on all the types of wired-wireless-mobile networks used to transport traffic, and (2) mix the QoS associated with home, access, and core networks in order to provide Quality of Service/Quality of Experience expected by users of new services.

Probation Oct 21 2021 This volume poses a series of key questions about the practice of probation as an integral part of the European criminal justice system. The contributors are established experts in their respective fields of study and together their questions address the legitimacy, and perhaps continued existence, of probation. The book offers analyses of why people offend and stop offending, and the wide ranging impacts of probation. This includes the impact on offenders' social reintegration, as a form of reparation for victims and communities, on public desire for justice and punishment, and on probationers themselves. The contributors further assess the state of probation and its adaptation to the current state of penalty and society, the role of probation officers in pre-sentencing decision-making and the promotion of community sanctions and measures. By providing important recommendations and suggestions for application to practice, the book will be of great interest to academics, students, policy makers and practitioners alike.

Children's Services Feb 17 2024 *Children's Services: Working Together* brings together contributions from a number of authors in the field. The emphasis on working collaboratively with other professionals, where appropriate, and the holistic approach to children make this a valuable resource to anyone working with children today.

Biometrics and Kansei Engineering Feb 22 2022 *Biometrics and Kansei Engineering* is the first book to bring together the principles and applications of each discipline. The future of biometrics is in need of new technologies that can depend on people's emotions and the prediction of their intention to take an action. Behavioral biometrics studies the way people walk, talk, and express their emotions, and Kansei Engineering focuses on interactions between users, products/services and product psychology. They are becoming quite complementary. This book also introduces biometric applications in our environment, which further illustrates the close relationship between Biometrics and Kansei Engineering. Examples and case studies are provided throughout this book. *Biometrics and Kansei Engineering* is designed as a reference book for professionals working in these related fields. Advanced-level students and researchers studying computer science and engineering will find this book useful as a reference or secondary text book as well.

Delivering Efficiently Aug 19 2021 This joint report by the National Audit Office and the Audit Commission examines the different ways in which public services are delivered, the nature of the links between partners in public service delivery chains, and how these can be made more efficient and effective. The report draws its conclusions in part from analysis of reports regarding three major Public Service Agreement (PSA) targets relating to affordable housing, increasing bus use, and halting the rise in child obesity. It recommends that government departments and their delivery partners use a self-assessment list of 12 strategic questions to help them understand their capacity to deliver efficient and effective public services, covering issues such as risk management, strategic funding plans and the need for a robust evidence base.

Handbook of Probation Sep 12 2023 This Handbook provides a comprehensive, authoritative and up-to-date source of information and analysis about all aspects of the work of the Probation Service. It takes full account of the many changes that the Probation Service has undergone over the last few years, and is currently undergoing as probation becomes part of the broader National Offender Management Service. Contributors to the book are drawn from leading academics and practitioners in the field, drawing upon the best expertise available. Running through the book is a

concern with a range of key current issues such as addressing the diversity of offenders and creating effective links with other criminal justice agencies, and it includes perspectives from both probation service staff and from offenders and victims. This book is an essential text for practitioners, trainees and students of probation and those studying it as part of a wider criminology or criminal justice course.

Veteran Care and Services Oct 13 2023 □ **The public services and care being provided to our veteran citizens are rapidly changing due to the increasing number of veterans that live in our cities. There are more veteran citizens now living in America than ever before, and the veteran population is becoming ever more diverse. For this reason, cities throughout our nation are expanding their public services in scope and scale, as well as enhancing the quality of existing services. This volume documents these rapid developments in order to help our veteran citizens and supporting communities understand the evolving, dynamic, and innovative services and care that are increasingly available to them.**

Libraries and Graduate Students Jan 16 2024 **This book gathers together a variety of perspectives and approaches toward building relationships between academic libraries and a unique scholarly population with specific needs—graduate students. This valuable resource shows efforts on specific programs and strategies to enhance and enrich the graduate student experience. Contributions to this volume include a wide variety approaches though case studies, an extensive literature review on academic integrity, an initiative for program development in the context of a broader education initiative, and a chapter on graduate fellowships for manuscripts and special collections. Many of the approaches integrate tried and true information literacy strategies, but they also put unique ‘spins’ on these approaches. This book’s scope includes large and small colleges and universities, public and private, and specialized and general. Subjects include stand alone courses and workshops, program development, assessment, distance education, online environments, instructional design, and collaborations. This book is a valuable resource for public service librarians, information literacy/instruction librarians, library science professors, graduate program coordinators, special collections librarians, and subject specialist librarians in all areas. This book was published as a special issue of Public Services Quarterly.**

Managing Complexity in the Public Services Jun 28 2022 **The application of complexity theory to management and the social sciences has been a key development in theory and practice over the last decade. This approach questions the possibility of finding universal methods of practice, and proposes a pragmatic and humanistic management style that evolves out of a reflective method. The focus is on practitioners observing patterns of similarity and being adaptable in decision-making. Bringing complexity theory into management reveals the importance of organizational culture and effective communication because people, their values and their objectives are at the heart of this method. Information technology provides a framework for complex communication and knowledge use, but it cannot replace highly developed professional negotiations and cooperation. This book argues that the complexity of the public service world limits the usefulness of classical and rational scientific management approaches such as New Public Management. Excessive marketization threatens a collaborative approach and overly rigid approaches to performance management and strategic management can be dysfunctional. Managing Complexity in the Public Services 2nd Edition advances a method of management practice that copes with the stark realities of the complex and unpredictable public policy world. It develops pragmatic management practices from action research that will be valuable to both academics and practitioners. The result is a new value-based practice for the post-crisis public service world.**

The future role of the third sector in social and economic regeneration Feb 05 2023 The third sector is defined as non-governmental organisations that are value driven and reinvest their surpluses to further social, environmental, or cultural objectives. They include voluntary and community organisations; social enterprises; and cooperatives and mutuals. The four major areas of common interest between the sector and Government are: enabling greater voice and campaigning; strengthening communities; transforming public services; and encouraging social enterprise. These areas form the basis of the Government's proposed framework for partnership over the next ten years.

Developments in Social Work with Offenders Dec 15 2023 Developments in Social Work with Offenders explains the organisational and legislative changes that have occurred in social work and probation across the UK in the past 10 years, in the context of the accumulating body of knowledge about what constitutes effective practice in the assessment, supervision and management of offenders in the community. Three different aspects of working with offenders are covered: developments in policy; assessment, supervision and intervention; and issues and needs. Contributions from experts in the field discuss issues such as community 'punishment', case management, accreditation and resettlement. The continuing concern with promoting evidence-based solutions to crime is addressed, and this book will assist professionals working with offenders with making focused interventions supported by research. This book will be essential reading for students of social work and probation and criminology, probation officers and social workers.

Clay's Handbook of Environmental Health May 28 2022 This classic, definitive reference work for all those involved in environmental health is now available in its 19th edition. Significant changes include those made to chapters on food safety and hygiene, environmental protection, the organisation and management of environmental health in the UK, port health, and waste management. New chapters have been added on health development, an introduction to health and housing, contaminated land, and environmental health in emergency planning, as well as a new glossary of abbreviations and acronyms. New material on training and standards, IT, practical risk assessment, and investigatory powers is also included. Each chapter reflects the wider background against which the subjects must be studied and the new concepts and approaches that have

emerged over the past few years.

Water ecosystem services Aug 31 2022 "This comprehensive volume describes how ecosystem services-based approaches can assist in addressing major global and regional water challenges, such as climate change, biodiversity loss, and water security in the developing world, by integrating scientific knowledge from different disciplines, such as hydrological modelling, environmental economics, psychology and international law. Empirical assessments at the national, catchment and regional levels are used to critically appraise this systemic approach, and the merits and potential limitations are presented. The practicalities of this approach with regard to water resources management, nature conservation, and sustainable business practices are discussed, and the role of society in underpinning the concept of ecosystem services is explored. Presenting new insights and perspectives on how to shape future strategies, this contributory volume is a valuable reference for researchers, academics, students and policy makers, in environmental studies, hydrology, water resource management, ecology, environmental law, policy and economics, and conservation biology." -- Provided by publisher.

The Oxford Handbook of Criminology Dec 03 2022 The approach of the year 2000 has made the study of apocalyptic movements trendy. But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os.
