Suspect Race Jack Glaser,2015 In *Suspect Race* social psychologist and public policy expert Jack Glaser leverages a century s worth of social psychological research to provide a clear understanding of how stereotypes even those operating outside of conscious awareness or control can cause police to make discriminatory judgments and decisions about who to suspect stop question search use force on and arrest Glaser argues that stereotyping even nonconscious stereotyping is a completely normal human mental process but that it leads to undesirable discriminatory outcomes Additionally he finds evidence that racial profiling can actually increase crime and he considers the implications for racial profiling in counterterrorism *Suspect Race* brings to bear the vast scientific literature on intergroup stereotyping to offer the first in depth and accessible understanding of the primary cause of racial profiling and to explore implications for policy

Racial Profiling Karen S. Glover,2009-08-16 Karen S Glover investigates the social science practices of racial profiling inquiry examining their key influence in shaping public understandings of race law and law enforcement Commonly manifesting in the traffic stop the association with racial minority status and criminality challenges the fundamental principle of equal justice under the law as described in the U S Constitution Communities of color have long voiced resistance to racialized law and law enforcement yet the body of knowledge about racial profiling rarely engages these voices Applying a critical race framework Glover provides

in depth interview data and analysis that demonstrate the broad social and legal realms of citizenship that are inherent to the racial profiling phenomenon To demonstrate the often subtle workings of race and the law in the post Civil Rights era the book includes examination of the 1996 U S Supreme Court s Whren decision a judicial pronouncement that allows pretextual action by law enforcement and thus widens law enforcement powers in decisions concerning when and against whom law is applied

Racial Profiling Michael L. Birzer, 2012-11-14 Many racial minority communities claim profiling occurs frequently in their neighborhoods Police authorities for the most part deny that they engage in racially biased police tactics A handful of books have been published on the topic but they tend to offer only anecdotal reports offering little reliable insight Few use a qualitative methodological lens to provide the context of how minority citizens experience racial profiling

Racial Profiling They Stopped Me Because I m places minority citizens who believe they have been racially profiled by police authorities at the center of the data Using primary empirical studies and extensive in depth interviews the book draws on nearly two years of field research into how minorities experience racial profiling by police authorities The author interviewed more than 100 racial and ethnic minority citizens Citing 87 of these cases the book examines each individual case and employs a rigorous qualitative phenomenological method to develop dominant themes and determine their associated meaning Through an exploration of these themes we can learn What racial profiling is its historical context and how formal legal codes and public policy generally define it The best methods of data collection and the advantages of collecting racial profiling data How certain challenges can prevent data collection from properly identifying racial profiling or bias based policing practices Data analysis and methods of determining the validity of the data The impact of pretextual stops and the effect of Whren v United States A compelling account of how minority citizens experience racial profiling and how they ascribe and give meaning to these experiences the book provides a candid discussion of what the findings of the research mean for the police racial minority citizens and future racial profiling research
