The only NCLEX review book on the market with a focus on prioritization, delegation, and patient assignment ? just like the

current NCLEX Examination itself! Using a unique simple-to-complex approach, *Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination, 3rd Edition* establishes your foundational knowledge in management of care, then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills.

"..certainly a great resource for use in any healthcare setting."
Reviewed by Anne Duell on behalf of *Nursing Times*, September 2015
UNIQUE! Emphasis on the NCLEX Examination's management-of-care focus addresses the heavy emphasis on prioritization, delegation, and patient assignment in the current NCLEX Examination (17–23% of the 2013 NCLEX–RN Exam). UNIQUE! Three-part organization establishes foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. Answer key at the back of the book offers a detailed rationale and an indication of the focus of the question to encourage formative assessment. Introduction chapter by delegation expert Ruth Hansten provides guidelines for prioritization, delegation, and patient assignment decisions as well as a concise, practical foundation on which Parts 2 and 3 build. Part 2: *Prioritization, Delegation, and Assignment in Common Health Scenarios* give you practice in applying the principles from Part 1 with straightforward NCLEX-style multiple-choice, multiple-select, ordering, and short-answer questions to help you develop and build confidence in prioritization, delegation, and patient assignment skills while working within the confines of relatively simple health scenarios. Part 3: *Prioritization, Delegation, and Assignment in Complex Health Scenarios* utilizes unfolding cases that build on the skills learned in Part 2 to equip you to make sound decisions in realistic, complex health scenarios involving complicated health problems and/or challenging patient assignment decisions and help you learn to "think like nurses" by developing what Benner (2010) calls "clinical imagination." NEW! Fully interactive question functionality features optional online answer submission with automated scoring. NEW! The all-important QSEN initiative is addressed by: Introducing the QSEN initiative and QSEN competencies in Part I Including a new chapter focused primarily on safety and other "nursing fundamentals" issues Identifying corresponding QSEN competencies and Concepts for each question in the Answer Key in the Evolve Instructor Resources NEW! Faculty-only Unfolding Cases and Suggested Uses resource on Evolve facilitate classroom discussion, development of clinical reasoning skills, and learner evaluation, as well as tips for teaching with the book throughout the nursing curriculum. NEW! Safety and Infection Control chapter features an increased number of questions specific to the QSEN safety competency. NEW! Separate Diabetes Mellitus and Other Endocrine Problems chapters give greater emphasis

to diabetes as requested in feedback on the previous edition. **NEW!** Pediatric Problems and Psychiatric-Mental Health Problems chapters expand on content formerly integrated into body systems chapters to provide you with a more thorough understanding of these key clinical areas. **NEW!** NCLEX chart-format questions include six patient "charts" in Case Study 6 (Home Health) to reflect the NCLEX Exam's chart-format questions. **NEW!** Design and navigation enhancements include page cross-references at the bottom of each page, quick-reference tabs on the answer key, and a new two-color design. **NEW!** Additional questions address the newborn, immunization, catheter-related infection, and ventilator-related infection. **SGN.** The eBook FCI Manager (Technical) Exam Agriculture Subject Covers Objective Questions From Various Competitive Exams With Answers. Summer Bridge Explorations prepares your third-grade graduate for fourth grade through progressive lessons and project-based learning. This dynamic workbook strengthens cross-curricular skills with a focus on arithmetic, grammar, and comprehension. Summer Bridge Explorations keeps the learning going. --With this dynamic series, students entering grades 1 to 4 prepare for the new year through project-based learning. Grade-level workbooks are divided into three progressive sections, one for each month of summer, and each of these sections is built around a theme-based activity that connects real-world learning with summer fun. Your child will keep learning alive by applying new skills in fun ways, all while enjoying everything summer has to offer. Lessons and activities span the curriculum, supporting growth in math, reading, writing, social studies, science, and the arts. The 180 Days of Problem Solving e-Book for Grade 5 offers daily problem solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly e-Book provides thematic units that connect to a standards-based skill that fifth grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types

of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards. Ideal for review courses, *The Paramedic Review* is a must-have tool for students preparing for either State or National Certification Exams. It includes over 2000 multiple choice style questions based on the revised DOT EMT-Paramedic curriculum objectives and content. The exam questions are written in a style similar to those found on State and National Exams and are easy to read. To ensure adequate practice, the more complex content chapters have more questions to ensure students are truly prepared. Delmar's *Why-Driven EMS Enrichment*, is the companion text that explains the rationale for answers to the exam review questions. This is an indispensable tool for all paramedic students preparing for their certification exam. This classroom resource encourages fourth grade students to reinforce their knowledge of mathematical and language arts grade-level skills. Focusing on specific Common Core Standards, this resource is designed to be robust and relevant to the real world, helping students prepare themselves for life beyond their educational careers. Students will gain regular practice through the quick activities found in each book. Perfect for additional practice in the classroom or at home! The book contains a Teacher Resource CD with PDFs of the activity pages. 208pp.

Acing the New SAT I Math is a test prep guide for the math sections of the new SAT I. The book takes a learning fundamentals approach that sets it apart from other SAT materials. Written by a test prep teacher of ten years, *Acing* focuses on solid teaching and practice, to help students master all the skills they need for the SAT I math. The book covers all the math topics found on the new SAT I, organized by subject into twenty chapters. Each chapter contains a tutorial, exercise set, and solutions. Three full-length practice tests are provided at the end of the book. Because *Acing's* emphasis is learning and mastering math concepts, the book includes 500+ practice problems (not including example problems or practice tests) more than are found in other test prep books. It also includes the most detailed solutions guides on the market, taking students step-by-step through each problem to help them identify their mistakes and hone their skills. *Acing* also seeks to eliminate the wordiness found in most other test prep books, employing a 2-column format in the tutorials. Key terms and illustrations in the left-hand column present the math concepts as clearly and concisely as possible. Example problems in the right-hand column enable students to simultaneously learn the application of these concepts. In all areas, *Acing* is designed with an emphasis on clear and direct teaching, and with the belief that practice is the best preparation for any exam, including a standardized test like the SAT. Skipping the tricks and gimmicks, *Acing* stands apart from all the other test prep guides on the market. The book is also written to be a stand-alone resource, so

students can prepare for the SAT and PSAT on their own, independent of outside instruction. This exciting book explores how orcas in orca pods work as a team. The book describes how pod members care for each other, communicate together, and hunt as a team. The 180 Days of Problem Solving for Grade 4 offers daily problem-solving practice geared towards developing the critical thinking skills needed to approach complex problems. This teacher-friendly resource provides thematic units that connect to a standards-based skill that fourth grade students are expected to know to advance to the next level. Lesson plans offer guidance and support for every day of the week, outlining strategies and activities that dig deeper than routine word problems. Each week students will use visual representations and analyze different types of word problems (including non-routine, multi-step, higher thinking problems). This comprehensive resource builds critical thinking skills and connects to national and state standards. Make math matter to students in grades 3-4 using Fact Mastery: Multiplication and Division!
