A Simon & Schuster eBook. Simon & Schuster has a great book for every reader. A deep dive into the murders and minds of John Wayne Gacy, Kenneth Bianchi, William Heirens, John Cannan, and Patricia Wright from the bestselling author. In *Talking with Serial Killers: World's Most Evil*, bestselling author and criminologist Christopher Berry-Dee delves deeper into the gloomy underworld of killers and their crimes. He examines, with shocking detail and clarity, the lives and lies of people who have killed and shines a light on the motives behind their horrific crimes. Through interviews with the killers, the police, and key members of the prosecution, alongside careful analysis of the cases themselves, the reader is given unprecedented insight into the most diabolical minds that humanity has to offer. Extending from lonesome outsiders to upstanding members of the community, *Talking with Serial Killers: World's Most Evil* shows that the world's most monstrous killers may be far closer than you think. *The Terrifying Story of the Most Monstrous Serial Killers through History*. Serial Killers are the most notorious and disturbing of all criminals, representing the very darkest side of humanity. Yet they endlessly fascinate and continue to capture the public's attention with their strange charisma and deadly deeds. From Jack the Ripper to Ted Bundy and the Moors Murderers Ian Brady and Myra Hindley, these killers transfix us with their ability to commit utterly savage acts of cruelty and depravity. Only with modern police detection methods and psychological profiling, have these figures that have existed throughout human history finally been identified in the deadliest category: serial killers. These methods, the killers' characters and their crimes are described here in fascinating and terrifyingly gripping detail. The whole history of serial killers is brought to life in 50 chapters, including: Herman Webster Mudgett, Devil in the White City John Christie, 10 Rillington Place murders Zodiac Killer Ian Brady and Myra Hindley, The Moors Murderers Ted Bundy Fred and Rosemary West Jeffrey Dahmer Aileen Wuornos Harold Shipman, Dr Death After twenty-five years of investigating, analyzing, and interviewing serial killers, their family members, neighbors, and even surviving victims, Jack Levin has become one of the world's most respected experts on the motivations and modus operandi of dangerous criminals. In this gripping book, he taps his wealth of experience with the criminal mind to offer lessons for law enforcement and the general public about how serial killers think, as well as the conditions under which hideous murders typically occur. These lessons, he hopes, will lead to more effective ways to thwart such crimes in the future. Levin's face-to-face meetings and correspondence with such notorious murderers as the Hillside strangler (Kenneth Bianchi) and Orville Lynn Majors (the male nurse who was convicted of killing numerous patients in his charge) reveal that these types of killers are not motivated by money, revenge, or rage. In fact, the only motivation seems to be a sadistic craving for power and a need to feel in control. Levin also, for the first time, lets down his guard and reveals what it feels like to be seated so close to such cold-blooded killers. Many killers, as Levin points out, are meticulous planners. Levin has found that even in situations that appear spontaneous, for instance a workplace shooting by a disgruntled employee, the deed is carefully thought out and prepared for in advance. Another factor that consistently emerges in conversations with killers who have committed the most heinous of acts is the total absence of remorse or any notion of moral responsibility. Murder appears to be easy for these criminals and they kill with a feeling of complete impunity. Levin also notes the skillfully deceptive facades that such murderers are able to affect. They are extremely adept liars (he admits to having been fooled!), who enjoy playing mind games, even though outwardly they seem above suspicion. This is one reason they are so dangerous and difficult for investigators to track down and prosecute. This chilling glimpse into the minds of some of the worst criminals makes a valuable contribution to criminology and is a must-read for both true-crime buffs and law enforcement professionals. Attempts to understand serial murder tend to be focused on individual cases rather than the social context in which they occurred. This book departs from that approach, taking up the case of nineteenth-century serial killer Mary Ann Cotton and setting it in its full social context. Drawing from records of Cotton's court appearances, local histories, and newspaper articles, it shows how institutions such as the family, economy, and religion shaped the environment she inhabited. While not denying the singularity of individuals who commit serial murder, the authors nonetheless make a powerful case for the influence and effects of society on

their actions. An investigative criminologist, Christopher Berry-Dee is a man who talks to serial killers. Their pursuit of horror and violence is described in their own words, transcribed from audio and videotape interviews conducted deep inside some of the toughest prisons in the world. Berry-Dee describes the circumstances of his meetings with some of the world's most evil men and reproduces, verbatim, their very words as they describe their crimes and discuss their remorse -- or lack of it. This work offers a penetrating insight into the workings of the criminal mind. The FBI estimate that there are between 25 and 50 serial killers at large in the USA at any given time. But the truth is few people kill. We occasionally say we could kill someone, but that is usually hyperbole. Most of us can imagine what it might be like to be driven to a senseless act of violence in an unendurable situation. To kill once is one thing; to kill over and over again is quite another. What drives these people who kill and kill again? Are they evil or are they mad? Serial killing is a worldwide phenomenon and no two killers are alike. Each one comes with a grisly though compelling tale that takes the reader to the darkest reaches of the human psyche. There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers. Through extensive research and interviews with five notorious serial killers, author Joel Norris demonstrates that serial killers have specific biological and genetic makeups that can be identified as early as five years of age. A compelling read for both the curious layman and the concerned professional. There are few people alive who are so cruel, so heartless and so undeniably evil that they will kill again and again. Yet at any one time, there are between 25 and 50 active serial killers in the USA, and their chilling crimes have fascinated us since the days of Jack the Ripper. Here you will discover how these heartless killers committed their gruesome deeds, what motivated them to kill and how, eventually, they were caught. This collection features more than 50 compelling stories, including: • Ed Kemper, who dismembered the bodies of his victims once he had finished with them; • Ted Bundy, who abducted, raped and brutally killed more than 30 women; • Charles Manson, who led a cult of mayhem and murder; • Jeffrey Dahmer, who stored a human head in his freezer; • Randy Kraft, who was pulled over for drunk driving with a body in the trunk of his car; • Alexander Pichushkin, who aimed to kill a person for every square on the chessboard. Whether it be Jack the Ripper in nineteenth-century England or Ted Bundy in 1970s America, the public has always been fascinated by the criminal offender type known as the serial killer. Professionals continue to speculate and develop new theories about their identity decades after their crimes ended. But what is it that causes such evilness in individuals that causes them to take an innocent life, not once but multiples times, and for no apparent reason beyond their own perverse psychological gratification? This fascinating book explores this question by looking at the psychosocial determinants of criminal behavior, including serial murder. The role of such internal processes as attachment, moral development, and identity formation in the development of a person's predisposition to various forms of deviance, including physical and sexual aggression, is reviewed. This information is then applied to actual serial killers, including David Berkowitz (The Son of Sam), Charles Manson, Eric Rudolph (God's Crusader), Ted Bundy (The Face of Evil), Edmund Kemper (The Co-ed Killer), and the Zodiac Killer, in an effort to construct a psychosocial profile of each and to attempt to pinpoint the various developmental factors that contributed to their eventual criminality. Finally, early intervention strategies are explored that can potentially redirect a child's developmental trajectory away from crime and deviance, and toward a more adaptive and socially acceptable behavioral repertoire. This book will be an insightful resource to all law enforcement professionals, policymakers, police academics, psychologists, psychiatrists, and many others in the helping professions as well. There are many cultural myths about serial killers, often propagated even by mental health professionals. Many assume there is a profile of a serial killer, that serial killers always go for the same victim type or always use the same MO, that they are more clever than ordinary people, and that they are inevitably charming and attractive. The truth is not as simple as that. There are different types of serial killers, and while there are many books that discuss the serial killer phenomenon especially in relationship to victim types or context, researchers have not yet been able to come up with a definition, or type, that covers the broad spectrum of serial killers and their complex psychological dynamics. Ramsland looks at the variety of serial killer types, illustrating that it is difficult to accurately depict these elusive, intriguing, and dangerous killers. There are many cultural myths about serial killers, often propagated even by mental health professionals. Many assume there is a profile of a serial killer, that serial killers always go for the same victim type or always use the same MO, that they are more clever than ordinary people, and that they are inevitably charming and attractive. The truth is not as simple as that. There are different types of serial killers and while there are many books that discuss the serial killer phenomenon especially in relationship to victim types or context, researchers have not yet been able to come up with a definition, or type, that covers the broad spectrum of serial killers and their complex psychological dynamics. Ramsland looks at serial killer types, illustrating that it is difficult to accurately depict these elusive, intriguing, and dangerous killers. This book examines a variety of serial killers, from sexual predators to psychotic killers, from murder teams to odd eccentric stalkers, in order to present the distinct psychological dynamics that set serial killers apart from other violent murderers. Among the motives addressed are lust, control, glory, profit, thrill, delusions, rage, the desire for company, the need to please a partner, and even murder as an intellectual exercise. Serial killers live double lives, hiding their violence even from those who live with them, so along with a study of motives are chapters devoted to how close associates have described killers,

including parents, siblings, co-workers, lovers, and survivors. There is no profile of a serial killer, and this book establishes that in vivid and frightening detail. Few criminals provoke the fear, revulsion and fascination of the serial killer. What makes them do it? Were they born that way? How do they elude law enforcement and how do the police track them down? Now, TIME-LIFE explores history's most famous cases from Ted Bundy and John Wayne Gacy to Son of Sam and Ariel Castro. In the pages of *The Professional Serial Killer and the Career of Ted Bundy*, you will find yourself eerily intrigued as the serial killer introduces himself to you. Say hello to your neighbor, partner, son, or daughter-whose dual identity now includes the facade of Politician, Clergyman, Lawyer, Contractor, or Compliance Officer. Your imagination will spark as you slowly but gradually become enamored to the serial killer's ingenuity, as an entrepreneur in the art of murder. Now that you are chillingly mesmerized by his charm, the serial killer takes great pleasure in his sting operation. Thrilled as he passionately and addictively perfects his art, the killer creatively refines his ruse for capturing his victims. In order to inflict the highest level of horror and pain each scene is designed to give the killer an ultimate high of sadistic pleasure. As you reel back and forth, from the disdain you feel for the killer, a sudden and unsuspecting sinking feeling erupts through your very being. The sensation that this is not a horror movie, illuminates your mind, and grasps your fascination with the question: How did this happen? A more intriguing question may be: When did this start? You may want to ask three-year old Ted Bundy. Bestselling true-crime writer Harold Schechter, a leading authority on serial killers, and coauthor David Everitt offer a guided tour through the bizarre and blood-chilling world of serial murder. Through hundreds of detailed entries that span the entire spectrum -- the shocking crimes, the infamous perpetrators, and much more -- they examine all angles of a gruesome cultural phenomenon that grips our imagination. From Art (both by and about serial killers) to Zeitgeist (how killers past and present embody their times)...from Groupies (even the most sadistic killer can claim devoted fans) to Marriage (the perfect domestic disguise for demented killers)...from Homebodies (psychos who slay in the comfort of their homes) to Plumbing (how clogged drains have undone the most discreet killer), **THE A TO Z ENCYCLOPEDIA OF SERIAL KILLERS** is the ultimate reference for anyone compelled by the personalities and pathologies behind the most disturbing of crimes. *World Serial Killers* investigates the fiendish crimes of butchers like Fritz Haarman selling human meat on the streets of Hanover, Germany, Edinburgh body-snatchers Burke and Hare and Alberto De Salvo, the notorious Boston Strangler. Read the accounts of deranged real-life monsters such as Charles Manson, Ted Bundy and Jack the Ripper as well as the stories of many other serial killers from around the world. Contents: Europe – Burke and Hare, Jack the Ripper, Henri Landru, Fritz Haarmann, Marcel Petiot, Peter Kürten, Peter Manuel, Joachim Kroll, Ian Brady and Myra Hindley, Fred and Rosemary West, Harold Shipman. North America – H.H.Holmes, Albert Fish, The Lonely Hearts Killers, The Boston Strangler, Charles Manson, Ed Kemper, Ted Bundy, Son of Sam, The Hillside Stranglers, Clifford Olson, Henry Lee Lucas and Ottis Toole, Tommy Lynn Sells, Cary Stayner. South America – Pedro Alonso López, Luis Alfredo Garavito Cubillos, Adolfo de Jesús Constanzo, Juana Barraza. Australia – Eric Edgar Cooke, William the Mutilator Macdonald, Paul Charles Denyer, Ivan Milat, The Snowtown Murderers, John Wayne Glover, Peter Dupas, Catherine and David Birnie. For those looking to delve into the sick and psychotic minds of serial killers, *Psychopedia* is an extensive encyclopaedia of serial killers and murders. A popular Apple iTunes app from inception, this title is now available in eBook format. *Psychopedia Satisfies A Strange Curiosity* - App Advice An insightful and interesting read into the minds and lives of psychopaths (which can become quite addictive) - Appscovery From the Axeman of New Orleans to the Zodiac Killer, this publication presents readers with a compendium of the world's most prolific and notorious serial killers and the most captivating unsolved serial murder cases. The articles are written from an objective factual approach and make no attempt to glorify the murderers. With over 400 profiles spanning hundreds of pages it is a useful guide for students of criminology, sociology, or abnormal psychology. The content is derived from Wikipedia articles and most entries contain extensive details of the killer's early life, crimes, capture, and conviction. Genre screenwriters, novelists, fans of true crime literature and anyone with an interest in the macabre will find plenty of fascinating and grisly details of the world's most infamous and intriguing killers, and their horrendous crimes. All gruesome details can be discovered within its pages. *The Killer Book of Serial Killers* is the ultimate resource (and gift) for any true crime fan and student of the bizarre world of serial killers. Filled with stories, trivia, quizzes, quotes, photos, and odd facts about the world's most notorious murderers, this is the perfect bathroom reader for anyone fascinated with serial killers. The stories and trivia cover such killers as: John Wayne Gacy Ted Bundy The BTK Killer Jack the Ripper The Green River Killer Serial killers around the world And many more Bathroom readers have enjoyed considerable success as a format, selling millions of copies. The *Killer Book* series brings this format to the rabid true crime audience. Including more than 40 black & white photos, this is a must for true crime fans. A comprehensive reference guide to male and female serial killers from throughout world history. *The World Encyclopedia of Serial Killers* is the most comprehensive set of its kind in the history of true crime publishing. Written and compiled by Susan Hall, the four-volume set has more than 1600 entries of male and female serial killers from around the world. Defined by the FBI as a person who murders 3 or more people over a period of time with a hiatus of weeks or months between murders, serial killers have walked among us from the dawn of time as these books will demonstrate. While the entries to these volumes will continue to grow—the FBI estimates that there are at least fifty serial killers operating in the United States at any given time—*The World Encyclopedia of Serial Killers* is as complete as possible through the end of 2017. The series continues with Volume Three, M-S. The entries include the Machete Murderer Juan Vallejo Corona, Maranhão Boy Mutilator Francisco das Chagas, Night Stalker Richard Ramirez, Rostov Ripper Andrei Romanovych Chikatilo, and Genesee River Killer Arthur John Shawcross. You will find these killers and approximately 475 others in this third book in the series of *The World Encyclopedia of Serial Killers*. This is Christopher back to his original and best - exploring the downright creepy correspondence with murderers, serial killers and psychopaths behind bars, with exclusive scans of letters and eerily-designed envelopes. A must-have for fans of the series. This bestselling book has become a staple of every serious true crime book collector's library. One of the most reliable concise sources of information available about serial killers and their crimes, this book offers a psychological and sociological analysis of this most frightening yet

fascinating criminal. Psychologist David Lester, recognized worldwide as a leading authority on death-both in the fields of suicide and homicide-offers a much-needed assessment of whether or not there is a dependable and useable psychological profile of the serial killer. Separating the facts from the myths by combining documented case histories of notable serial killers with behavioral research, *Serial Killers: The Insatiable Passion* has been welcomed and applauded as an important addition to the literature on serial killers by criminologists, psychologists, sociologists, law enforcement and true crime buffs alike. A superbly targeted resource for those learning about serial killings. *Serial Killers and the Phenomenon of Serial Murder* examines and analyses some of the best known (as well as lesser) cases from English criminal history, ancient and modern. It looks at the lifestyles, backgrounds and activities of those who become serial killers and identifies clear categories of individuals into which most serial killers fall. Led by Professor David Wilson the authors are all experts and teachers concerning the ever-intriguing subject of serial killing: why, when and how it happens and whether it can be predicted. Taking some of the leading cases from English law and abroad they demonstrate the patterns that emerge in the lives and backgrounds of those who kill a number of times over a period. The book is designed for those studying the topic at advanced level, whether as an academic discipline on one of the many courses now run by universities and colleges or as a private quest for understanding. It contains notes on key terms and explanations of topics such as co-activation, Munchausen syndrome, cooling-off period, psychopathy checklist, social construction, case linkage, family annihilation, activity space, rational choice theory, medicalisation and rendezvous discipline. As the first textbook of its kind it will be an invaluable resource for teachers and students of serious crime. From ancient times to the present, serial killers have terrorized the public, claiming their victims with a variety of methods, including poisoning, stabbing, and shooting. Modern law enforcement agents have developed sophisticated techniques, such as DNA analysis and psychological profiling, to track and identify these killers. Covering key historical and contemporary cases, *Serial Killers* is a concise, objective introduction to this field of criminal investigation. This book includes such chapters as: *Murder by Numbers; Monsters Among Us; Lethal Ladies; Still at Large;* and, *The Mind hunters*. Cases covered include: Erzsebet Bathory; the Beltway Snipers; David Berkowitz, a.k.a. 'Son of Sam'; John Wayne Gacy; Micajah and Wiley Harpe; Jack the Ripper; Herman Webster Mudgett, aka 'H.H. Holmes'; Gary Leon Ridgway, a.k.a. 'The Green River Killer'; and, Aileen Wuornos. Have you watched horror stories with serial killers? The night is filled with fear as a serial killer could attack randomly. The extreme thirst for a horrific deed may turn into a nightmarish act. Having an encounter with a serial killer would be the scariest experience ever. A serial killer murders more than two people, not just by shooting a gun or stabbing with a knife. There are different techniques that are used by serial killers in carrying out their evil plots to their targets. There are many documented serial killers in the United States, but some of them have indeed left everyone much in fear and terror with their horrifying way of killing their victims. In this document, let's take a closer look on 14 of the most notorious serial killers in the United States. The world has always been fascinated with serial killers. But most of us only know about men who have been involved in serial killing. Does that mean that only men turn into serial killers and woman don't? Absolutely wrong! The truth is that human history has also witnessed a few serial killers who have been women. You will be surprised to know that the list of women serial killers is also not small. We will probably need hundreds of pages to describe the crimes of all female serial killers. Here, we have just picked a few of the women and described how they made it to the worst serial killers list. Without wasting anymore time, let's get started with our list! A Simon & Schuster eBook. Simon & Schuster has a great book for every reader. Bestselling true crime writer and criminologist Christopher Berry-Dee turns his attention to a new kind of victim: the wives and partners of serial murderers who remained unaware of exactly who they had fallen for until after their other half's arrest or, in some cases, conviction. Only upon Peter's arrest did Sonia Sutcliffe first discover that her husband was leading a secret existence as the Yorkshire Ripper. The wife of the Hillside Strangler only learned of her husband's crimes when state police smashed down her door in search of him. When finding out the truth, these innocents have to face the grim reality of betrayal and deceit and often experience guilt for not having recognized the killer in their home. Christopher Berry-Dee speaks directly with killers and their oblivious loved ones to get inside the minds of the men and women who fall for murderers. The best of the best. The most interesting serial killer cases of all time presented chapter by chapter. A Thorough, Comprehensive Guide to Serial Killers for True-Crime Fans Equal parts fascinating and horrifying, the stories of serial killers like Ted Bundy and Jeffrey Dahmer have taken on a new cultural prominence with the rise of the true-crime genre. Now, The Wikipedia Encyclopedia of Serial Killers offers murder fans and curious readers a new opportunity to learn about the lives and histories of these infamous criminals in greater depth and detail than ever before. Featuring extensive information about the backgrounds, crimes and aftermaths, victims, arrests and trials, and current lives of serial killers across the globe, as well as a variety of supplemental information—mug shots and crime-scene photos, letters from murderers, and information on victims and survivors—this book is an essential guide for all true-crime fans or any reader who wants an insight into the dark minds of the most notorious criminals in the world. Included in The Wikipedia Encyclopedia of Serial Killers, among many others, are: Ted Bundy The Zodiac Killer John Wayne Gacy Aileen Wuornos Son of Sam Jeffrey Dahmer The BTK Killer Gary Ridgway Samuel Little Karla Homolka and Paul Bernardo With nearly six million English-language articles covering essentially any topic imaginable, Wikipedia is one of the most visited websites on the internet and an important resource for anyone curious to learn about the world. This curated selection of content has been carefully selected and compiled by our editors to be the definitive book on the subject. A comprehensive examination into the frightening true crime history of serial homicide—including information on America's most prolific serial killers such as: Jeffrey Dahmer • Ted Bundy • “Co-ed Killer” Ed Kemper • The BTK Killer • “Highway Stalker” Henry Lee Lucas • Monte Ralph Rissell • “Shoe Fetish Slayer” Jerry Brudos • “Night Stalker” Richard Ramirez • “Unabomber” Ted Kaczynski • Ed Gein “The Butcher of Plainfield” • “Killer Clown” John Wayne Gacy • Andrew Cunanan • And more... In this unique book, Peter Vronsky documents the psychological, investigative, and cultural aspects of serial murder, beginning with its first recorded instance in Ancient Rome through fifteenth-century France on to such notorious contemporary cases as cannibal/necrophile Ed Kemper, the BTK killer, Henry Lee Lucas, Monte Ralph Rissell, Jerry Brudos,

Richard Ramirez, “Unabomber” Ted Kaczynski, Ed Gein, John Wayne Gacy, Ted Bundy, Jeffrey Dahmer, and the emergence of what he classifies as the “serial rampage killer” such as Andrew Cunanan, who murdered fashion designer Gianni Versace. Vronsky not only offers sound theories on what makes a serial killer but also makes concrete suggestions on how to survive an encounter with one—from recognizing verbal warning signs to physical confrontational resistance. Exhaustively researched with transcripts of interviews with killers, and featuring up-to-date information on the apprehension and conviction of the Green River killer and the Beltway Snipers, Vronsky’s one-of-a-kind book covers every conceivable aspect of an endlessly riveting true crime phenomenon. INCLUDES PHOTOGRAPHS The depraved crimes of both real and imagined serial killers and mass murderers have long transfixed us in newspapers and books, but perhaps nowhere more so than on the big screen. Films such as *Silence of the Lambs*, *Psycho* and *Henry: Portrait of a Serial Killer* have not only reached huge audiences but also allowed us into the minds of society’s most disturbed individuals. Bestselling author, Christopher Berry-Dee, talks to the serial killers whose wicked stories have most thrilled and fascinated us at the movies and, through far-ranging and disturbing interviews, he tells the stories of the mass murderers who provided the inspiration for some of cinema’s most shocking films. *Serial Killers at the Movies* takes the reader on an uncomfortable and truly dark journey into a lurid world of murder and deviancy. This volume examines the significant increase in representations of serial killers as central characters in popular television over the last two decades. Via critical analyses of the philosophical and existential themes presented to viewers and their place in the cultural landscape of contemporary America, the authors ask: What is it about serial killers that incited such a boom in these types of narratives in popular television post-9/11? Looking past the serial format of television programming as uniquely suited for the presentation of the serial killer’s actions, the chapters delve into deeper reasons as to why TV has proven to be such a fertile ground for serial killer narratives in contemporary popular culture. An international team of authors question: What is it about serial killers that makes these characters deeply enlightening representations of the human condition that, although horrifically deviant, reflect complex elements of the human psyche? Why are serial killers intellectually fascinating to audiences? How do these characters so deeply affect us? Shedding new light on a contemporary phenomenon, this book will be a fascinating read for all those at the intersection of television studies, film studies, psychology, popular culture, media studies, philosophy, genre studies, and horror studies. What is it like to learn that your ordinary, loving father is a serial killer? In 2005, Kerri Rawson opened the door of her apartment to greet an FBI agent who shared the shocking news that her father had been arrested for murdering ten people, including two children. That’s also when she first learned that her father was the notorious serial killer known as BTK, a name he’d given himself that described the horrific way he committed his crimes: bind, torture, kill. As news of his capture spread, the city of Wichita celebrated the end of a thirty-one-year nightmare. For Kerri Rawson, another was just beginning. In the weeks and years that followed, Kerri was plunged into a black hole of horror and disbelief. The same man who had been a loving father, a devoted husband, church president, Boy Scout leader, and a public servant had been using their family as a cover for his heinous crimes since before she was born. Everything she had believed about her life had been a lie. Written with candor and extraordinary courage, *A Serial Killer’s Daughter* is an unflinching exploration of life with one of America’s most infamous killers and an astonishing tale of personal and spiritual transformation. For all who suffer from: unhealed wounds, the crippling effects of violence, betrayal, or anger, Kerri Rawson’s story offers the hope of reclaiming sanity in the midst of madness, rebuilding a life in the shadow of death, and learning to forgive the unforgivable. 'To me it was like hunting. Hunting people down.' - Anatoly Onoprienko From perverse acts of cannibalism and dark sexual fantasies to vicious acts motivated by greed and a simple lust for blood, this book reveals the methods and motivations of some of the world's most notorious serial killers, including Juan Corona, Ian Brady & Myra Hindley, Pee Wee Gaskins and Ivan Milat. Discover the true stories behind celebrity murderers whose names have become legend, including Jeffrey Dahmer, Charles Manson, Leonard Lake and Charles Ng, as well as the chilling truth about psychopaths such as Anatoly Onoprienko, whose urge to murder whole families was suppressed by the USSR and has only recently come to light. Whatever the personal stories that emerge from this line-up of twisted individuals, *Serial Killers* is a compelling testament, and warning, of the potential of human behaviour for true horror and pure evil. For decades now, serial killers have taken center stage in the news and entertainment media. The coverage of real-life murderers such as Ted Bundy and Jeffrey Dahmer has transformed them into ghoulish celebrities. Similarly, the popularity of fictional characters such as Hannibal “The Cannibal” Lecter or Dexter demonstrates just how eager the public is to be frightened by these human predators. But why is this so? Could it be that some of us have a gruesome fascination with serial killers for the same reasons we might morbidly stare at a catastrophic automobile accident? Or it is something more? In *Why We Love Serial Killers*, criminology professor Dr. Scott Bonn explores our powerful appetite for the macabre, while also providing new and unique insights into the world of the serial killer, including those he has gained from his correspondence with two of the world’s most notorious examples, David Berkowitz (“Son of Sam”) and Dennis Rader (“Bind, Torture, Kill”). In addition, Bonn examines the criminal profiling techniques used by law enforcement professionals to identify and apprehend serial predators, he discusses the various behaviors—such as the charisma of the sociopath—that manifest themselves in serial killers, and he explains how and why these killers often become popular cultural figures. Groundbreaking in its approach, *Why We Love Serial Killers* is a compelling look at how the media, law enforcement agencies, and public perception itself shapes and feeds the “monsters” in our midst. From the author of *Serial Killers: The Method and Madness of Monsters* comes an in-depth examination of sexual serial killers throughout human history, how they evolved, and why we are drawn to their horrifying crimes. Before the term was coined in 1981, there were no “serial killers.” There were only “monsters”—killers society first understood as werewolves, vampires, ghouls and witches or, later, Hitchcockian psychos. In *Sons of Cain*--a book that fills the gap between dry academic studies and sensationalized true crime--investigative historian Peter Vronsky examines our understanding of serial killing from its prehistoric anthropological evolutionary dimensions in the pre-civilization era (c. 15,000 BC) to today. Delving further back into human history and deeper into the human psyche than *Serial Killers*--Vronsky's 2004 book, which has been called the definitive history of serial murder--he focuses strictly on sexual serial killers: thrill killers

who engage in murder, rape, torture, cannibalism and necrophilia, as opposed to for-profit serial killers, including hit men, or "political" serial killers, like terrorists or genocidal murderers. These sexual serial killers differ from all other serial killers in their motives and their foundations. They are uniquely human and--as popular culture has demonstrated--uniquely fascinating. Serial Killers - Philosophy for Everyone investigates our profound intrigue with mass-murderers. Exploring existential, ethical and political questions through an examination of real and fictional serial killers, philosophy comes alive via an exploration of grisly death. Presents new philosophical theories about serial killing, and relates new research in cognitive science to the minds of serial killers Includes a philosophical look at real serial killers such as Ian Brady, Ted Bundy, John Wayne Gacy, Jeffrey Dahmer and the Zodiac killer, as well as fictional serial killers such as Dexter and Hannibal Lecter Offers a new phenomenological examination of the writings of the Zodiac Killer Contains an account of the disappearance of one of Ted Bundy's victims submitted by the organization Families and Friends of Missing Persons and Violent Crime Victims Integrates the insights of philosophers, academics, crime writers and police officers The Man Who Talks to Serial Killers World-renowned investigative criminologist Christopher Berry-Dee has gained the trust of infamous serial killers throughout the world, entering their prison cells to discuss their horrific crimes and alarming lack of remorse. With over twenty-five years and hundreds of hours of audio and video interviews, he collects ten chilling true crime stories from the murderers themselves, describing some of the worst crimes known. Within these pages, hear from the most notorious murderers such as American serial killer Harvey Louis Carignan, who murdered two women in the early 1970s, and Mary Bundy "The Sunset Slayer" who was convicted of killing several young prostitutes and runaways in Los Angeles in the 1980s. Berry-Dee not only shares their stories in their words but also describes how to investigate their criminal minds. It's time to step into the visitation room, turn on your inquisitive mind, and delve into Talking with Serial Killers, the beginning of Berry-Dee's bestselling true crime series. erial Killer Collection Deal for ONLY \$17.99. Instead of \$39.96 for all Four books individually. Petrifying. Bone-chilling. Depraved. Their acts made headlines. Their names live in infamy in the darkest recesses of the internet, but for those who are left behind, these heartless monsters are always there, looming over their every move. This true crime four-book set exposes their inner secrets, details their heinous crimes, and pulls the curtain on the long, hard-fought investigations. This set includes the stories of: Paul Bernardo and Karla Homolka, dubbed the Ken and Barbie Killers, a couple who turned their storybook house into a living nightmare. Coldhearted murderer Mary Flora Bell, an eleven-year-old girl, who brutally murdered two young boys. Doug Clark and Carol Bundy, the Sunset Strip Slayers--one a sadomasochist; the other, a deviant nurse Prophet, madman, evil incarnate, Marcus Wesson, a monster you'll not soon forget Peek behind their sadistic masks and read about their vicious and sadistic crimes. Meet the monsters. What Amazon readers are saying: ????? "Grisly but fascinating to read" ????? "Very good box set of killers who you hope never live next door." ????? "I know that when I read one of Ryan's books, I'm going to learn a lot about what makes people "tick". As humans we are always shocked normal seeming people can be so evil." ????? "It's amazing how many serial killers are out there that no one knows anything about, these books will help to fill in those blanks." Scroll up, click "Add to Cart", and delve into their dark stories. These true crime accounts aren't for the faint of heart. Read them if you dare. One of Cosmopolitan's Best Romance Novels Ever Turns out that reading nothing but true crime isn't exactly conducive to modern dating—and one woman is going to have to learn how to give love a chance when she's used to suspecting the worst. PhD candidate Phoebe Walsh has always been obsessed with true crime. She's even analyzing the genre in her dissertation—if she can manage to finish writing it. It's hard to find the time while she spends the summer in Florida, cleaning out her childhood home, dealing with her obnoxiously good-natured younger brother, and grappling with the complicated feelings of mourning a father she hadn't had a relationship with for years. It doesn't help that she's low-key convinced that her new neighbor, Sam Dennings, is a serial killer (he may dress business casual by day, but at night he's clearly up to something). It's not long before Phoebe realizes that Sam might be something much scarier—a genuinely nice guy who can pierce her armor to reach her vulnerable heart.
