All the Cool Kids Are Reading: Reading Review Book Overview Journal Tracker This reading review journal is the perfect novel tracker to use for those who love to read. Great gift idea for students and teachers alike, keep a list of all your reading material, your rating and the time it took to read and note down all your thoughts and feelings about the book you just read. A handy and convenient journal and a great present for all book lovers and readers around the world! Specifications: perfect-bound, softcover 6"x9" compact size is perfect for stowing in your nightstand, desk drawer, purse or backpack 108 pages (106 pages for book entry information!) prompts to fill out for each book Order your copy, today! A new, hilarious picture book for kids from the #1 New York Times bestselling authors of P IS FOR PTERODACTYL! What makes this picture book for kids be THE WORST read aloud book ever? Try reading these sentences aloud: The mummy prepared farro for dinner. The mummy prepared pharaoh for dinner. Sounds the same, right? But they're totally different! Kids will laugh at the irreverent, super silly humor and witty illustrations that provide context clues and help explain the outrageous sentences. While kids are cracking up at you repeating yourself, they also will be learning about homonyms and homophones! There's also a glossary to help explain the sound-alike words. This hysterical book for kids is sure to delight parents, teachers, and anyone who loves to laugh at the absurdity of the English language. "Those who love wordplay are the natural constituency for No Reading Allowed: The Worst Read-Aloud Book Ever, a picture book that's bright with comic scenes... [and] brilliant pairings of picture and word (and word with word)."—The Wall Street Journal "If you're a logophile (=word nerd), grammar geek, or a bookworm, and especially, if you're a teacher or homeschooler, snag a copy of No Reading Allowed for yourself and a friend. This will be a hot holiday gift for us word nerd folks!"—Imagination Soup Reports of the death of reading are greatly exaggerated Do you worry that you've lost patience for anything longer than a tweet? If so, you're not alone. Digital-age pundits warn that as our appetite for books dwindles, so too do the virtues in which printed, bound objects once trained us: the willpower to focus on a sustained argument, the curiosity to look beyond the day's news, the willingness to be alone. The shelves of the world's great libraries, though, tell a more complicated story. Examining the wear and tear on the books that they contain, English professor Leah Price finds scant evidence that a golden age of reading ever existed. From the dawn of mass literacy to the invention of the paperback, most readers already skimmed and multitasked. Print-era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions. The evidence that books are dying proves even scarcer. In encounters with librarians, booksellers and activists who are reinventing old ways of reading, Price offers fresh hope to bibliophiles and literature lovers alike. Winner of the Phi Beta Kappa Christian Gauss Award, 2020 This glorious book not only brilliantly showcases one man's love affair with all the beauties that can flow from the bottle, it definitively makes the case for the wines that are the most superbly suited to be served with food. In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer Adler's classic How to Read a Book (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written, with equal measures of wit and erudition, The Pleasures of Reading in an Age of Distraction will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children. In this important book, acclaimed author Mark Edmundson reconceives the value and promise of reading. He enjoins educators to stop offering up literature as facile entertainment and instead teach students to read in a way that can change their lives for the better. At once controversial and inspiring, this is a groundbreaking book written with the elegance and power to change the way we teach and read. Why Read was a PSLA Young Adult Top 40 non-fiction title 2004 Jo is a much happier teenager when she moves to the USA and becomes very popular at her new school. However, when her dream boy, Jake, picks her for the kissing game she does not feel as blissful as she imagined she would. She finds herself in a dilemma - should she keep on with Jake and remain popular or warn him off and risk losing her new friends? She feels split in half at this point. Will she ever be whole again? A gorgeously unique, fully illustrated exploration into the phenomenology of reading—how we visualize images from reading works of literature, from one of our very best book jacket designers, himself a passionate reader. “A playful, illustrated treatise on how words give rise to mental images.” —The New York Times What do we see when we read? Did Tolstoy really describe Anna Karenina? Did Melville ever really tell us what, exactly, Ishmael looked like? The collection of fragmented images on a page—a graceful ear there, a stray curl, a hat positioned just so—and other clues and signifiers helps us to create an image of a character. But in fact our sense that we know a character intimately has little to do with our ability to concretely picture our beloved—or reviled—literary figures. In this remarkable work of nonfiction, Knopf’s Associate Art Director Peter Mendelsund combines his profession, as an award-winning designer; his first career, as a classically trained pianist; and his first love, literature—he considers himself first and foremost as a reader—into what is sure to be one of the most provocative and unusual investigations into how we understand the act of reading. In this hilarious and thought-provoking contemporary teen standalone that’s perfect for fans of Moxie, a bookworm finds a way to fight back when her school bans dozens of classic and meaningful books. Clara Evans is horrified when she discovers her principal’s “prohibited media” hit list. The iconic books on the list have been pulled from the library and aren’t allowed anywhere on the school’s premises. Students caught with the contraband will be sternly punished. Many of these stories have changed Clara’s life, so she’s not going to sit back and watch while her draconian principal

abuses his power. She’s going to strike back. So Clara starts an underground library in her locker, doing a shady trade in titles like *Speak* and *The Chocolate War*. But when one of the books she loves most is connected to a tragedy she never saw coming, Clara’s forced to face her role in it. Will she be able to make peace with her conflicting feelings, or is fighting for this noble cause too tough for her to bear? “Suggested Reading is a beautiful reminder that there is nothing simple about loving a book.” —David Arnold, New York Times bestselling author of *Mosquitoland* This cheerful little road novel, published in 1919, is about Claire Boltwood, who, in the early days of the 20th century, travels by automobile from New York City to the Pacific Northwest, where she falls in love with a nice, down-to-earth young man and gives up her snobbish Estate. From a critical perspective, *Free Air* is consistent with Sinclair Lewis’s lean towards egalitarian politics, which he displays in his other works (most notably in *It Can’t Happen Here*). Examples of his politics in *Free Air* are found in Lewis’s emphasis on the heroic role played by the book’s protagonist, Milt Dagget, a working class everyman type. Conversely, Lewis presents nearly every upper-class character in Claire Boltwood’s world (including her railroad-mogul father) as being snobby elitists. The story also champions the democratic nature of the automobile, versus the more aristocratic railroad travel. In this brilliant collection, the follow-up to her New York Times bestseller *Reading Like a Writer*, the distinguished novelist, literary critic, and essayist celebrates the pleasures of reading and pays homage to the works and writers she admires above all others, from Jane Austen and Charles Dickens to Jennifer Egan and Roberto Bolaño. In an age defined by hyper-connectivity and constant stimulation, Francine Prose makes a compelling case for the solitary act of reading and the great enjoyment it brings. Inspiring and illuminating, *What to Read and Why* includes selections culled from Prose’s previous essays, reviews, and introductions, combined with new, never-before-published pieces that focus on her favorite works of fiction and nonfiction, on works by masters of the short story, and even on books by photographers like Diane Arbus. Prose considers why the works of literary masters such as Mary Shelley, Charles Dickens, George Eliot, and Jane Austen have endured, and shares intriguing insights about modern authors whose words stimulate our minds and enlarge our lives, including Roberto Bolaño, Karl Ove Knausgaard, Jennifer Egan, and Mohsin Hamid. Prose implores us to read Mavis Gallant for her marvelously rich and compact sentences, and her meticulously rendered characters who reveal our flawed and complex human nature; Edward St. Aubyn for his elegance and sophisticated humor; and Mark Strand for his gift for depicting unlikely transformations. Here, too, are original pieces in which Prose explores the craft of writing: “On Clarity” and “What Makes a Short Story.” Written with her sharp critical analysis, wit, and enthusiasm, *What to Read and Why* is a celebration of literature that will give readers a new appreciation for the power and beauty of the written word. Rachel hates her life. So when her boyfriend David goes to a music festival in England she decides to surprise him - but she gets a nasty shock of her own. David is kissing their friend Jo. Lovely, perfect Jo. Hurt and angry, Rachel makes a wish- and finds herself in Jo’s shoes! Can she keep the swap a secret? Over the course of a very weird weekend, Rachel puts herself in someone else’s shoes and finds that her own maybe weren’t as uncomfortable as she’d always thought. But can she ever be herself again? Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can’t turn into a reader. No matter how far behind Miller’s students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller’s unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you’ll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they’ve finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer includes a dynamite list of recommended “kid lit” that helps parents and teachers find the books that students really like to read. What we can learn about human nature from the informative, manipulative, confusing, and amusing messages at the bottom of the web. Online comment can be informative or misleading, entertaining or maddening. Haters and manipulators often seem to monopolize the conversation. Some comments are off-topic, or even topic-less. In this book, Joseph Reagle urges us to read the comments. Conversations “on the bottom half of the Internet,” he argues, can tell us much about human nature and social behavior. Reagle visits communities of Amazon reviewers, fan fiction authors, online learners, scammers, freethinkers, and mean kids. He shows how comment can inform us (through reviews), improve us (through feedback), manipulate us (through fakery), alienate us (through hate), shape us (through social comparison), and perplex us. He finds pre-Internet historical antecedents of online comment in Michelin stars, professional criticism, and the wisdom of crowds. He discusses the techniques of online fakery (distinguishing makers, fakers, and takers), describes the emotional work of receiving and giving feedback, and examines the culture of trolls and haters, bullying, and misogyny. He considers the way comment—a nonstop stream of social quantification and ranking—affects our self-esteem and well-being. And he examines how comment is puzzling—short and asynchronous, these messages can be slap-dash, confusing, amusing, revealing, and weird, shedding context in their passage through the Internet, prompting readers to comment in turn, “WTF?!” The author of the acclaimed *Proust and the Squid* follows up with a lively, ambitious, and deeply informative book that considers the future of the reading brain and our capacity for critical thinking, empathy, and reflection as we become increasingly dependent on digital technologies. A decade ago, Maryanne Wolf’s *Proust and the Squid* revealed what we know about how the brain learns to read and how reading changes the way we think and feel. Since then, the ways we process written language have changed dramatically with many concerned about both their own changes and that of children. New research on the reading brain chronicles these changes in the brains of children and adults as they learn to read while immersed in a digitally dominated medium. Drawing deeply on this research, this book comprises a series of letters Wolf writes to us—her beloved readers—to describe her concerns and her hopes about what is happening to the reading brain as it unavoidably changes to adapt to digital mediums. Wolf raises difficult questions, including: Will children learn to incorporate the full range of “deep reading” processes that are at the core of the expert reading brain? Will the mix of a seemingly infinite set of distractions for children’s attention and their quick access to immediate, voluminous information alter their ability to think for themselves? With information at their fingertips, will the next generation learn to build their own storehouse of knowledge, which could impede the ability to make analogies and draw inferences from what they know? Will all these influences change the formation in children and the use in adults of “slower” cognitive processes like critical thinking, personal reflection, imagination, and empathy that comprise deep reading and that influence both how we think and how we live our lives? How can we preserve deep reading processes in future iterations of the reading brain? Concerns about attention span, critical reasoning, and over-reliance on technology are never just about children—Wolf herself has found that, though she is a reading expert, her ability to read deeply has been impacted as she has become increasingly dependent on screens. Wolf draws on neuroscience, literature, education, and philosophy and blends historical, literary, and scientific facts with down-to-earth examples and warm anecdotes to illuminate complex ideas that culminate in a proposal for a biliterate reading brain. Provocative and intriguing, *Reader, Come Home* is a roadmap that provides a cautionary but hopeful perspective on the impact of technology on our brains and our most essential intellectual capacities—and what this could mean for our future. “One of the best fantasies of the year.” - Buzzfeed “Riveting, passionate, and full of high stakes danger.” —Tamora Pierce, #1 New York Times bestselling author Emily Thiede’s exciting fantasy debut, *This Vicious Grace*, the first in *The Last Finestra* duology, will keep readers turning the pages until the devastating conclusion and leave them primed for more! Three weddings. Three funerals. Alessa’s gift from the gods is supposed to magnify a partner’s magic, not kill every suitor she touches. Now, with only weeks left until a hungry swarm of demons devours everything on her island home, Alessa is running out of time to find a partner and stop the invasion. When a powerful priest convinces the faithful that killing Alessa is the island’s only hope, her own soldiers try to assassinate her. Desperate to survive, Alessa hires Dante, a cynical outcast marked as a killer, to become her personal bodyguard. But as rebellion explodes outside the gates, Dante’s dark secrets may be the biggest betrayal. He holds the key to her survival and her heart, but is he the one person who can help her master her gift or destroy her once and for all? Don’t miss the thrilling conclusion to *The Last Finestra* duology, *This Cursed Light*— out now wherever books are sold! An irresistible, nostalgic, insightful—and totally original—ramble through classic children’s literature from *Vanity Fair* contributing editor (and father) Bruce Handy. “Consistently intelligent and funny...The book succeeds wonderfully.” —The New York Times Book Review “A delightful excursion...Engaging and full of genuine feeling.” —The Wall Street Journal “Pure pleasure.” —Vanity Fair “Witty and engaging...Deeply satisfying.” —Christian Science Monitor In 1690, the dour *New England Primer*, thought to be the first American children’s book, was published in Boston. Offering children gems of advice such as “Strive to learn” and “Be not a dunce,” it was no fun at all. So how did we get from there to “Let the wild rumpus start”? And now that we’re living in a golden age of children’s literature, what can adults get out of reading *Where the Wild Things Are* and *Goodnight Moon*, or *Charlotte’s Web* and *Little House on the Prairie*? In *Wild Things*, Bruce Handy revisits the classics of American childhood, from fairy tales to *The Very Hungry Caterpillar*, and explores the backstories of their creators, using context and biography to understand how some of the most insightful, creative, and witty authors and illustrators of their times created their often deeply personal masterpieces. Along the way, Handy learns what *The Cat in the Hat* says about anarchy and absentee parenting, which themes link *The Runaway Bunny* and *Portnoy’s Complaint*, and why Ramona Quimby is as true an American icon as Tom Sawyer or Jay Gatsby. It’s a profound, eye-opening experience to reencounter books that you once treasured after decades apart. A clear-eyed love letter to the greatest children’s books and authors, from Louisa May Alcott and L. Frank Baum to Eric Carle, Dr. Seuss, Mildred D. Taylor, and E.B. White, *Wild Things* will bring back fond memories for readers of all ages, along with a few surprises. In this delightfully witty, provocative book, literature professor and psychoanalyst Pierre Bayard argues that not having read a book need not be an impediment to having an interesting conversation about it. (In fact, he says, in certain situations reading the book is the worst thing you could do.) Using examples from such writers as Graham Greene, Oscar Wilde, Montaigne, and Umberto Eco, he describes the varieties of “non-reading”-from books that you’ve never heard of to books that you’ve read and forgotten-and offers advice on how to turn a sticky social situation into an occasion for creative brilliance. Practical, funny, and thought-provoking, *How to Talk About Books You Haven’t Read*-which became a favorite of readers everywhere in the hardcover edition-is in the end a love letter to books, offering a whole new perspective on how we read and absorb them. In this much anticipated follow-up to their groundbreaking book, *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom*, authors Jan Burkins and Kari Yates, together with co-author Katie Cunningham, extend the conversation in *Shifting the Balance 3-5: 6 Ways to Bring the Science of Reading into the Upper Elementary Classroom*. This new text is built in mind specifically for grades 3-5 teachers around best practices for the intermediate classroom. *Shifting the Balance 3-5* introduces six more shifts across individual chapters that: Zoom in on a common (but not-as helpful-as-we-had-hoped) practice to reconsider Untangle a number of “misunderstandings” that have likely contributed to the use of the common practice Propose a more science-aligned shift to the current practice Provide solid scientific research to support the revised practice Offer a collection of high-leverage, easy-to-implement instructional routines to support the shift to more brain-friendly instruction The authors offer a refreshing approach that is respectful, accessible, and practical - grounded in an earnest commitment to building a bridge between research and classroom practice. As with the first *Shifting the Balance*, they aim to keep students at the forefront of reading instruction. A special 25th anniversary edition of the extraordinary international bestseller, including a new Foreword by Paulo Coelho. Combining magic, mysticism, wisdom and wonder into an inspiring tale of self-discovery, *The Alchemist* has become a modern classic, selling millions of copies around the world and transforming the lives of countless readers across generations. Paulo Coelho’s masterpiece tells the mystical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure. His quest will lead him to riches far different—and far more satisfying—than he ever imagined. Santiago’s journey teaches us about the essential wisdom of listening to our hearts, of recognizing opportunity and learning to read the omens strewn along life’s path, and, most importantly, to follow our dreams. A plain-English guide to teaching phonics. Every parent can teach reading—no experts need apply! Too many parents watch their children struggle with early reading skills—and don’t know how to help. Phonics programs are too often complicated, overpriced, gimmicky, and filled with obscure educationese. The *Ordinary Parent’s Guide to Teaching Reading* cuts through the confusion, giving parents a simple, direct, scripted guide to teaching reading—from short vowels through supercalifragilisticexpialidocious. This one book supplies parents with all the tools they need. Over the years of her teaching career, Jessie Wise has seen good reading instruction fall prey to trendy philosophies and political infighting. Now she has teamed with dynamic coauthor Sara Buffington to supply parents with a clear, direct phonics program—a program that gives them the know-how and confidence to take matters into their own hands. \*Now a major motion picture starring Saoirse Ronan and Paul Mescal\* A taut, psychological thriller from Iain Reid, “one of the most talented purveyors of weird, dark narratives in contemporary fiction” (*Los Angeles Review of Books*). Severe climate change has ravaged the country, leaving behind a charred wasteland. Junior and Henrietta live a comfortable if solitary life on one of the last remaining farms. Their private existence is disturbed the day a stranger comes to the door with alarming news. Junior has been randomly selected to travel far away from the farm, but the most unusual part is that arrangements have already been made so that when he leaves, Henrietta won’t have a chance to miss him. She won’t be left alone—not even for a moment. Henrietta will have company. Familiar company. Told in Iain Reid’s sparse, biting style, *Foe* is a “mind-bending and genre-defying work of genius” (Liz Nugent, author of *Unraveling Oliver*) that will stay with you long after you turn the final page. A book for book lovers by a true lover of books! At one magical instant in your early childhood, the page of a book—that string of confused, alien ciphers—shivered into meaning, and at that moment, whole universes opened. You became, irrevocably, a reader. Noted essayist and editor Alberto Manguel moves from this essential moment to explore the six-thousand-year-old conversation between words and that hero without whom the book would be a lifeless object: the reader. Manguel brilliantly covers reading as seduction, as rebellion, and as obsession and goes on to trace the quirky and fascinating history of the reader’s progress from clay tablet to scroll, codex to digital. A “fast, fun” cozy mystery series “full of Sherlockian lore”—set at a Cape Cod bookshop run by a “charming, intelligent heroine as observant as the Great Detective himself” (Carolyn Hart, New York Times–bestselling author) When murder pays a visit to *Sherlock Holmes Bookshop and Emporium*, Gemma Doyle must use the powers of deduction to find the killer—and clear her own name. Gemma Doyle, a transplanted Englishwoman, has returned to the quaint town of West London on Cape Cod to manage her

Great Uncle Arthur’s Sherlock Holmes Bookshop and Emporium. The shop—located at 222 Baker Street—specializes in the Holmes canon and pastiche, and is also home to Moriarty the cat. When Gemma finds a rare and potentially valuable magazine containing the first Sherlock Homes story hidden in the bookshop, she and her friend Jayne (who runs the adjoining Mrs. Hudson’s Tea Room) set off to find the owner, only to stumble upon a dead body. Gemma is the police’s first suspect, so she puts her consummate powers of deduction to work to clear her name, investigating a handsome rare books expert, the dead woman’s suspiciously unmoved son, and a whole family of greedy characters desperate to cash in on their inheritance. But when Gemma and Jayne accidentally place themselves at a second murder scene, it’s a race to uncover the truth before the detectives lock them up for good. ? Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue, says acclaimed author Karen Swallow Prior. In this book, she takes readers on a guided tour through works of great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O'Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. The book includes end-of-chapter reflection questions geared toward book club discussions, original artwork throughout, and a foreword by Leland Ryken. The hardcover edition was named a Best Book of 2018 in Religion by Publishers Weekly. "[A] lively treatise on building character through books."--Publishers Weekly (starred review) In Reading the Room, renowned systems psychologist and family therapist David Kantor applies his theory of structural dynamics to help leaders and coaches understand and improve communication within their teams. He helps readers understand how and why they and their teams communicate differently when faced with low-stakes or high-stakes situations, and he provides a framework to help improve leadership behavior in high-stakes situations. Acknowledging that early personal history and adult relationships have an impact on individual leadership and communication, the author discusses how leaders’ awareness of their personal histories can help them become more effective in their leadership teams. Armed with the information outlined in this groundbreaking book, coaches and leaders will be able to: intervene effectively to produce positive change in both the group’s dynamics and its outcomes, help people in the room alter their behavior to better reach their aspirations, identify the recurring sequences of behavior taking place in a group, understand why differing individual preferences for boundaries and rules affect their conversation, and much more. Written to help readers understand the reasons why leaders and teams get along—or don’t—when they communicate in a group, this book will serve as the leader’s “go-to” resource for insight and perspective in leading their team. From John Seabrook, one of our most incisive and amusing cultural critics, comes Nobrow, a fascinatingly original look at the radical convergence of marketing and culture. In the old days, highbrow was elite and unique and lowbrow was commercial and mass-produced. Those distinctions have been eradicated by a new cultural landscape where “good” means popular, where artists show their work at K-Mart, Titanic becomes a bestselling classical album, and Roseanne Barr guest edits The New Yorker: in short, a culture of Nobrow. Combining social commentary, memoir, and profiles of the potentates and purveyors of pop culture—entertainment mogul David Geffen, MTV President Judy McGrath, Snoop Doggy Dogg, Nobrow high-priest George Lucas, and others—Seabrook offers an enthralling look at our breakneck society where culture is ruled by the unpredictable Buzz and where even aesthetic worth is measured by units shipped. "For twenty-eight years, Pamela Paul has been keeping a diary that records the books she reads, rather than the life she leads. Or does it? Over time, it's become clear that this Book of Books, or Bob, as she calls him, tells a much bigger story. For Paul, as for many readers, books reflect her inner life--her fantasies and hopes, her dreams and ideas. And her life, in turn, influences which books she chooses, whether for solace or escape, diversion or self-reflection, information or entertainment. My Life with Bob isn't about what's in those books; it's about the relationship between books and readers"-- A Christian Perspective on the Joys of Reading Reading has become a lost art. With smartphones offering us endless information with the tap of a finger, it's hard to view reading as anything less than a tedious and outdated endeavor. This is particularly problematic for Christians, as many find it difficult to read even the Bible consistently and attentively. Reading is in desperate need of recovery. Recovering the Lost Art of Reading addresses these issues by exploring the importance of reading in general as well as studying the Bible as literature, offering practical suggestions along the way. Leland Ryken and Glenda Faye Mathes inspire a new generation to overcome the notion that reading is a duty and instead discover it as a delight. Kareena Thakkar’s world is turned upside down when she learns she’s landed an invitation to the US Open, which could lead to a spot on the first-ever Muay Thai Olympics team. To make it to the US Open, she has to come clean about being a Muay Thai fighter—a sport that her traditional Indian community deems too violent for girls—and own her destiny. Tens of thousands of K-3 teachers have relied on this book--now revised and expanded with more than 50% new material--to plan and deliver effective literacy instruction tailored to each student's needs. The authors provide a detailed framework for implementing differentiated small-group instruction over multiweek cycles. Each component of the beginning reading program is addressed--phonological awareness, word recognition, fluency, vocabulary, and comprehension. In a large-size format with lay-flat binding for easy photocopying, the book includes dozens of reproducible lesson plans, instructional activities, assessment forms, and other tools. Purchasers get access to a Web page where they can download and print the reproducible materials. New to This Edition \*Differentiation 2.0: the approach has been fine-tuned based on field testing, new research findings, and current standards and response-to-intervention frameworks. \*Many additional reproducible tools, such as coaching templates and the Informal Decoding Inventory. \*Beyond lesson plans and materials, the second edition offers more guidance for designing instruction and grouping students, making it a one-stop resource. \*Reproducible tools now available to download and print. This unique program teaches listeners how to "decode" and reply to non-verbal signals from friends and business associates when those signals are often vague and thus frequently ignored Reading is a revolutionary act, an act of engagement in a culture that wants us to disengage. In The Lost Art of Reading, David L. Ulin asks a number of timely questions - why is literature important? What does it offer, especially now? Blending commentary with memoir, Ulin addresses the importance of the simple act of reading in an increasingly digital culture. Reading a book, flipping through hard pages, or shuffling them on screen - it doesn't matter. The key is the act of reading, and it's seriousness and depth. Ulin emphasizes the importance of reflection and pause allowed by stopping to read a book, and the accompanying focus required to let the mind run free in a world that is not one's own. Are we willing to risk our collective interest in contemplation, nuanced thinking, and empathy? Far from preaching to the choir, The Lost Art of Reading is a call to arms, or rather, to pages. Lex Murphy's group of friends have all dated, hated, ignored and lusted after each other for the last few years. If only there was a way of matching people perfectly to avoid all the unrequited love, dumping and drama! Then Lex's friend George is give a mysterious Sims-like game by his software-testing dad which involves building character profiles in the categories of Life, Looks and Love. Lex and George populate the game with avatars for all their mates, making a few 'wishful thinking' adjustments to the settings - and find that the next day these tinkering have come true! But how long can this new calm, loved-up atmosphere continue...? “We walked toward the part of the library where the air smelled as if it had been interred for years..... Finally, we got to the hallway where the wooden floor was the creakiest, and we sensed a strange whiff of excitement and fear. It smelled like a creature from a bygone time. It smelled like a dragon.” Thirteen-year-old Juan’s favorite things in the world are koalas, eating roast chicken, and the summer-time. This summer, though, is off to a terrible start. First, Juan’s parents separate and his dad goes to Paris. Then, as if that wasn’t horrible enough, Juan is sent away to his strange Uncle Tito’s house for the entire break! Uncle Tito is really odd: he has zigzag eyebrows; drinks ten cups of smoky tea a day; and lives inside a huge, mysterious library. One day, while Juan is exploring the library, he notices something inexplicable and rushes to tell Uncle Tito. “The books moved!” His uncle drinks all his tea in one gulp and, sputtering, lets his nephew in on a secret: Juan is a Princeps Reader—which means books respond magically to him—and he’s the only person capable of finding the elusive, never-before-read Wild Book. Juan teams up with his new friend Catalina and his little sister, and together they delve through books that scuttle from one shelf to the next, topple over unexpectedly, or even disappear altogether to find The Wild Book and discover its secret. But will they find it before the wicked, story-stealing Pirate Book does? An obsessive word lover's account of reading the entire Oxford English Dictionary, hailed as "the Super Size Me of lexicography." "I'm reading the OED so you don't have to," says Ammon Shea on his slightly masochistic journey to scale the word lover's Mount Everest: the Oxford English Dictionary. In 26 chapters filled with sharp wit, sheer delight, and a documentarian's keen eye, Shea shares his year inside the OED, delivering a hair-pulling, eye-crossing account of reading every word. As a young English teacher keen to make a difference in the world, Michelle Kuo took a job at a tough school in the Mississippi Delta, sharing books and poetry with a young African-American teenager named Patrick and his classmates. For the first time, these kids began to engage with ideas and dreams beyond their small town, and to gain an insight into themselves that they had never had before. Two years later, Michelle left to go to law school; but Patrick began to lose his way, ending up jailed for murder. And that’s when Michelle decided that her work was not done, and began to visit Patrick once a week, and soon every day, to read with him again. Reading with Patrick is an inspirational story of friendship, a coming-of-age story for both a young teacher and a student, an expansive, deeply resonant meditation on education, race and justice, and a love letter to literature and its power to transcend social barriers. Beware! This picture book will do anything in its power to stay unread in this fun, interactive, and irresistibly silly read-aloud perfect for fans of The Book with No Pictures and Press Here. WARNING! Stop what you’re doing! Don’t you know that this book does not want to be read? If you try, all sorts of unfortunate things will happen. It will turn into a steering wheel! Letters will go missing! The book will act up and squirm around and grow wings and try to fly away! It will even insert a bunny that has absolutely nothing to do with anything. A persistent reader might see all kinds of strange and magical things, silly and secret things...But this book just does not want to be read, and it’s better to leave it alone. ...Or is it?
