**Ideas that Changed the World** Jan 21 2023 A collection of 175 ideas which have changed the world are presented in this volume - from time to evolution, and anarchy to Zen. Using illustrations to bring the concepts to life, this thought-provoking book could be great for dinner party conversations.

**Photos that Changed the World** Mar 11 2022 "Top political and social events of the 20th century as well as highlights from the worlds of culture, science, and sports, all documented in more than 100 stunning photographs." -- BACK COVER.

**Machines That Think!** Feb 07 2022 Award-winning author Don Brown explores computers and technology in book two of the Big Ideas series *Machines That Think!* explores machines from ancient history to today that perform a multitude of tasks, from making mind-numbing calculations to working on assembly lines. Included are fascinating looks at the world's earliest calculators, the birth of computer programming, and the arrival of smartphones. Contributors discussed include Muhammad ibn Musa al-Khwarizmi, Ada Lovelace, and Bill Gates. From the abacus to artificial intelligence, machines through the ages have pushed the boundaries of human capability and creativity. Back matter includes a timeline, endnotes, a bibliography, an author's note, and an index.

**365 People Who Changed The World** Dec 08 2021 Some people have the power to change the world. It could be their talent or sheer determination, but these leaders rose above the rest and made a difference to the world. Their

contributions have impacted our lives greatly. Stories of their success are legendary. Let us get to know these world leaders and learn from their remarkable achievements. *365 People Who Changed The World* gives you a brief glimpse into the world of these leaders and helps you understand them better. Browse through the book and get motivated by the accomplishments of world leaders!

**Inventors Who Changed the World** Dec 20 2022 From the ranging curiosity of Leonardo da Vinci to the dedication and sacrifice of Marie Curie, *Inventors Who Changed the World* is a young child's first introduction to the brilliant people who taught us the meaning of perseverance and innovation. Simple text and adorable illustrations tell the contributions of nine renowned inventors from around the world: Cai Lun, Leonardo da Vinci, Marie Curie, Thomas Edison, Orville and Wilbur Wright, Grace Hopper, Johannes Gutenberg, and Louis Pasteur. Inspire your own little inventor with the words of these inventive heroes who changed the world.

**Wars that Changed the World** Oct 30 2023 The defining conflicts of world history from the ancient Greeks to the war on terror.

**Thirty Years That Changed the World** Feb 02 2024 The first Christians

turned the world upside down in the space of a generation. How can we learn from them today? In this book Michael Green opens up the gripping story of Acts, highlighting the volcanic eruption of faith described there and contrasting it with the often halfhearted Christianity of the modern Western world. Green explores the life and faith of the Christians of Acts, answering such questions as, What kind of people were they? How did they live? And how did they organize and practice as members of the new church? Besides describing life in the early church, Green discusses how we today can apply the first Christians' dynamic efforts at church planting, pastoral care, social concern, gospel proclamation, and prayer. Combining trusted scholarship with a popular, enjoyable writing style, *Thirty Years That Changed the World* is an ideal book for church, group, or personal study.

*The Boy Who Could Change the World* Apr 11 2022 In January 2013, Aaron Swartz, under arrest and threatened with thirty-five years of imprisonment for downloading material from the JSTOR database, committed suicide. He was twenty-six years old. But in that time he had changed the world we live in: reshaping the Internet, questioning our assumptions about intellectual property, and creating some of the tools we use in our daily online lives. Besides being a

technical genius and a passionate activist, he was also an insightful, compelling, and cutting critic of the politics of the Web. In this collection of his writings that spans over a decade he shows his passion for and in-depth knowledge of intellectual property, copyright, and the architecture of the Internet. *The Boy Who Could Change the World* contains the life's work of one of the most original minds of our time.

**Encounters that Changed the World** Aug 16 2022 'Encounters that Changed the World' explores friendships, love affairs, chance meetings, creative partnerships and political unions that have altered the universe as we know it.

**7 Truths That Changed the World (Reasons to Believe)** Jan 26 2021 Ideas have consequences, sometimes far-reaching and world-changing. The Christian faith contains many volatile truths that challenged--and continue to challenge--the cultural and religious status quo of the world. This biblical, historical, and philosophical exploration of some of Christianity's most transformational ideas offers a unique look at how the world changed when Christ and his followers came on the scene. These ideas include the resurrection Jesus as God incarnate creation out of nothing the compatibility of faith and reason justification by grace through faith humankind in God's image

the greater good of suffering Pastors, students, and thoughtful Christians will be strengthened to face contemporary challenges to these truths and will find the confidence to impact their world for Christ.

*12 Books That Changed The World* Mar 03 2024 When we think of great events in the history of the world, we tend to think of war, revolution, political upheaval or natural catastrophe. But throughout history there have been moments of vital importance that have taken place not on the battlefield, or in the palaces of power, or even in the violence of nature, but between the pages of a book. In our digitised age of instant information it is easy to underestimate the power of the printed word. In his fascinating book, Melvyn Bragg presents a vivid reminder of the book as agent of social, political and personal revolution. *12 Books that Changed the World* presents a rich variety of human endeavour and a great diversity of characters. There are also surprises. Here are famous books by Darwin, Newton and Shakespeare - but we also discover the stories behind some less well-known works, such as Marie Stopes' *Married Love*, the original radical feminist Mary Wollstonecraft's *A Vindication of the Rights of Woman* - and even the rules to an obscure ball game that became the most popular sport in the world . . .

**Events That Changed The World** Feb 27 2021 In this volume the author offers a thought-provoking examination of the many pivotal events in the course of world history.

*Days That Changed the World* Jun 06 2024 The currents of History run deep and often unseen beneath the everyday ripple of events. But now and again the current rises to the surface, and the events of a single day shed an exceptional light on the meaning of the past. Such events are the subject of *Days that Changed the World*. Some of the 50 days described here mark the end of an era; others the start of something new. Many are the dates of bloody battles or murders; others of momentous decisions or breathtaking discoveries. All are remembered as powerful symbols of their time. Our story begins almost 2500 years ago on 28 September 480 before the Christian Era, when the Athenian navy destroyed the Persian invasion fleet in the Bay of Salamis. Had the Persians won we might never have heard the names of Plato, Aristotle or Alexander, nor recognize the word democracy. Charting 50 such defining moments, concluding with 11 September 2001 and the destruction of New York's Twin Towers, *Days that Changed the World* is a unique and fascinating way to portray the story of world history. These 50 history-making days include:

The Battle of the Salamis; The Assassination of Julius Caesar; The Crucifixion of Jesus Christ; The Dedication of Constantinople; The Death of Muhammad; The Coronation of Charlemagne; The Death of Genghis Khan; The Fall of Constantinople; The Defeat of the Spanish Armada; The Defenestration of Prague; The Fall of the Bastille; The Battle of Waterloo; Parliament Passing the Emancipation Act; The Battle of Sedan; The Boxer Rebellion; The First Day of the Somme; The Japanese Attack on Pearl Harbor; The Bombing of Hiroshima; Martin Luther King's "I have a Dream"; The Breaching of the Berlin Wall; Nelson Mandela's Release from Prison; Nine Eleven.

**A Shot in the Arm!** Aug 04 2021 Award-winning author Don Brown explores the history of vaccines from smallpox to COVID-19 in this installment of the Big Ideas That Changed the World series A Shot in the Arm! explores the history of vaccinations and the struggle to protect people from infectious diseases, from smallpox—perhaps humankind's greatest affliction to date—to the COVID-19 pandemic. Highlighting deadly diseases such as measles, polio, rabies, cholera, and influenza, Brown tackles the science behind how our immune systems work, the discovery of bacteria, the anti-vaccination movement, and major achievements from Lady Mary Wortley Montagu, who popularized

inoculation in England, and from scientists like Louis Pasteur, Antonie van Leeuwenhoek, and Edward Jenner, the "father of immunology." Timely and fascinating, *A Shot in the Arm!* is a reminder of vaccines' contributions to public health so far, as well as the millions of lives they can still save. *Big Ideas That Changed the World* is a graphic novel series that celebrates the hard-won succession of ideas that ultimately changed the world. Humor, drama, and art unite to tell the story of events, discoveries, and ingenuity over time that led humans to come up with a big idea and then make it come true.

**53 1/2 Things That Changed the World and Some That Didn't!** Apr 04 2024

A collection of funny and informative stories describe how technological progress has been advanced throughout human history by some of the greatest inventing catastrophies ever, from primitive discoveries such as fire and the wheel, to modern creations such as the jet engine and the internet.

**Rachel Carson and Her Book That Changed the World** Jul 15 2022 A biography of the pioneering scientist and environmentalist, Rachel Carson, author of *Silent Spring*. "Once you are aware of the wonder and beauty of earth, you will want to learn about it," wrote Rachel Carson. Determined and curious even as a child, Rachel Carson's fascination with the natural world led

her to study biology, and pursue a career in science at a time when very few women worked in the field. This lyrical, illustrated biography follows Carson's journey—from a girl exploring the woods, to a woman working to help support her family during the Great Depression, to a journalist and pioneering researcher, investigating and exposing the harmful effects of pesticide overuse. Best known for writing *Silent Spring*, Rachel Carson was a major figure in the early environmental movement, and her work brought a greater understanding of the impact humans have on our planet. *Rachel Carson and Her Book That Changed the World* offers a glimpse at the early life that shaped her interest in nature, and the way one person's determination can inspire others to fight for real change. An author's note delves into how *Silent Spring* helped shape the modern environmental movement and inspired a generation of readers to get involved in conservation. Detailed source notes and a list of recommended reading are included. A National Science Teachers Association Outstanding Science Trade Book A Bank Street Best Children's Book of the Year *Ideas That Changed the World* Nov 06 2021 *Ideas that Changed the World* combines the quality and breadth of a modern design museum with the high standards of a DK reference title. We don't just show you what's ground-

breaking about a space suit, we explain its place in history and space exploration, and the other inventions it has influenced. Readers will be struck with wonder by each item and sense the excitement that so many discoveries inspire.

The Boy Who Changed the World May 01 2021 Did you know that what you do today can change the world forever? The Boy Who Changed the World opens with a young Norman Borlaug playing in his family's cornfields with his sisters. One day, Norman would grow up and use his knowledge of agriculture to save the lives of two billion people. Two billion! Norman changed the world! Or was it Henry Wallace who changed the world? Or maybe it was George Washington Carver? This engaging story reveals the incredible truth that everything we do matters! Based on The Butterfly Effect, Andy's timeless tale shows children that even the smallest of our actions can affect all of humanity. The book is beautifully illustrated and shares the stories of Nobel Laureate Norman Borlaug, Vice President Henry Wallace, Inventor George Washington Carver, and Farmer Moses Carver. Through the stories of each, a different butterfly will appear. The book will end with a flourish of butterflies and a charge to the child that they, too, can be the boy or girl who changes the world.

**Great Events that Changed the World** May 13 2022 From crusades to world wars, from ancient monuments to bloody revolutions, here is a fascinating tour of the historical events that have helped shape the world today. How did the ancient Egyptians build the Great Pyramid? How did Alexander the Great conquer so much of the world? How did the Vikings accidentally discover North America? Who led the "reign of terror" in the French revolution? Who stormed the Winter Palace in St. Petersburg? Who was Lawrence of Arabia? When was communism born? When did Montezuma rule? When was the Normandy invasion? With perspective, scope, and clarity to great events in history, this book answers these questions and many, many more. **Great Events that Changed the World** shows children the history of our amazing world in easy-to-follow panoramic tableaux and maps. Filled with superbly detailed artwork and exciting text, this is a valuable and enjoyable source book for the entire family.

*1001 Inventions That Changed the World* Jul 27 2023 We take thousands of inventions for granted, using them daily and enjoying their benefits. But how much do we really know about their origins and development? This absorbing new book tells the stories behind the inventions that have changed the world.

**Machine that Changed the World** May 25 2023 Draws conclusions for the

future of the industry in the USA.

50 Battles That Changed the World Oct 06 2021 An informative look at the military conflicts that most altered the course of history and civilization, from ancient times to the modern world. Rather than celebrating warfare, *50 Battles That Changed the World* looks at the clashes the author believes have had the most profound impact on world history. Ranked in order of their relevance to the modern world, these struggles range from the ancient past to the present day and span the globe many times over. Some of the battles in this book are familiar to us all—Bunker Hill, which prevented the American Revolution from being stillborn, and Marathon, which kept the world's first democracy alive. Others may be less familiar—the naval battle at Diu (on the Indian Coast), which led to the ascendancy of Western Civilization and the discovery of America, and Yarmuk, which made possible the spread of Islam from Morocco to the Philippines. With remarkable accounts of both famous and lesser-known clashes, *50 Battles That Changed the World* provides impressive insight into the battles that shaped civilization as we know it.

The Year that Changed the World Nov 30 2023 'Mr Gorbachev, tear down this wall!' This declamation by president Ronald Reagan when visiting Berlin in

1987 is widely cited as the clarion call that brought the Cold War to an end. The West had won, so this version of events goes, because the West had stood firm. American and Western European resoluteness had brought an evil empire to its knees. Michael Meyer, in this extraordinarily compelling account of the revolutions that roiled Eastern Europe in 1989, begs to differ. Drawing together breathtakingly vivid, on-the-ground accounts of the rise of Solidarity in Poland, the stealth opening of the Hungarian border, the Velvet Revolution in Prague, and the collapse of the infamous wall in Berlin, Meyer shows that western intransigence was only one of the many factors that provoked such world-shaking change. More important, Meyer contends, were the stands taken by individuals in the thick of the struggle, leaders such as poet and playwright Vaclav Havel in Prague; Lech Walesa; the quiet and determined reform prime minister in Budapest, Miklos Nemeth; and the man who realized his empire was already lost and decided, with courage and intelligence, to let it go in peace, Soviet president Mikhail Gorbachev. Michael Meyer captures these heady days in all their rich drama and unpredictability. In doing so he provides not just a thrilling chronicle of perhaps the most important year of the 20th century but also a crucial refutation of American mythology and a

misunderstanding of history that was deliberately employed to lead the United States into some of the intractable conflicts it faces today.

**Art That Changed the World** Nov 18 2022 Experience the uplifting power of art on this breathtaking visual tour of 2,500 paintings and sculptures created by more than 700 artists from Michelangelo to Damien Hirst. This beautiful book brings you the very best of world art from cave paintings to Neoexpressionism. Enjoy iconic must-see works, such as Leonardo da Vinci's Last Supper and Monet's Waterlilies and discover less familiar artists and genres from all parts of the globe. Art That Changed the World covers the full sweep of world art, including the Ming era in China, and Japanese, Hindu, and Indigenous Australian art. It analyses recurring themes such as love and religion, explaining key genres from Romanesque to Conceptual art. Art That Changed the World explores each artist's key works and vision, showing details of their technique, such as Leonardo's use of light and shade. It tells the story of avant-garde works like Manet's *Le Dejeuner sur l'herbe* (Lunch on the Grass), which scandalized society, and traces how one genre informed another - showing how the Impressionists were inspired by Gustave Courbet, for example, and how Van Gogh was influenced by Japanese prints. Lavishly illustrated

throughout, look no further for your essential guide to the pantheon of world art.

**Books that Changed History** Jan 09 2022 Featuring a foreword by James Naughtie. Turn the pages of the most famous books of all time and marvel at the stories behind them. Over 75 of the world's most celebrated, controversial, rare, and seminal books are examined and explained in this stunning treasury. Books That Changed History is a unique encyclopedia spanning the history of the written word, from 3000 BCE to the modern day. Chronological chapters show the evolution of human knowledge and the changing ways in which books are made. Discover incredible coverage of history's most influential books including the Mahabharata, Shakespeare's First Folio, The Diary of Anne Frank, and Penguin's first ever paperbacks. From Darwin's groundbreaking *On the Origin of Species* to Louis Braille's conception of the Braille system that we still use today, these are world famous books that have had the biggest impact on history, whether for good or bad. Every book is presented with breathtaking photography and fascinating biographies of those who created them. Books That Changed History gathers dictionaries, diaries, plays, poems, treaties, and religious texts into one stunning celebration of the undisputed power of books.

*Change the World* Mar 23 2023 In this empowering book, Robert E. Quinn,

author of the highly successful and influential *Deep Change*, gives readers the courage to use personal transformation to positively impact their home life, work life, and communities -- to be what he refers to as "inner-directed and outer-focused." We are all potential change agents, but most of us are trapped by belief that we as individuals cannot make a difference. Informed by the teachings of Jesus, Gandhi, and Martin Luther King, Jr. -- three of the most successful change agents ever -- Quinn outlines eight steps each of us can take to move ourselves and others to the highest levels of excellence. Following his advice, each of us can access and apply the power that lies within us in ways that will change our world for the better.

**UN Ideas That Changed the World** Sep 16 2022 Ideas and concepts have been a driving force in human progress, and they may be the most important legacy of the United Nations. UN ideas have set past, present, and future international agendas in many global economic and social arenas and have also led to initiatives and actions that have improved the quality of human life. This capstone volume draws upon findings of the other 14 books in the acclaimed United Nations Intellectual History Project Series. The authors not only assess the development and implementation of UN ideas regarding

sustainable economic development and human security, but also apply lessons learned to suggest ways in which the United Nations can play a fuller role in confronting the challenges of human survival with dignity in the 21st century.

The Map That Changed the World Mar 30 2021 In 1793, a canal digger named William Smith made a startling discovery. He found that by tracing the placement of fossils, which he uncovered in his excavations, one could follow layers of rocks as they dipped and rose and fell—clear across England and, indeed, clear across the world—making it possible, for the first time ever, to draw a chart of the hidden underside of the earth. Smith spent twenty-two years piecing together the fragments of this unseen universe to create an epochal and remarkably beautiful hand-painted map. But instead of receiving accolades and honors, he ended up in debtors' prison, the victim of plagiarism, and virtually homeless for ten years more. The Map That Changed the World is a very human tale of endurance and achievement, of one man's dedication in the face of ruin. With a keen eye and thoughtful detail, Simon Winchester unfolds the poignant sacrifice behind this world-changing discovery.

*Leaders Who Changed History* Sep 04 2021 Explore the lives of more than 85 of the world's most transformational and influential leaders in politics, business,

religion, humanitarianism, and the military with this innovative and boldly graphic book. Comprehensive in its scope and depth, and fully illustrated, *Leaders Who Changed History* profiles leaders from inspirational to insidious, those who changed the world for the better and those whose corruption left enduring scars. These figures hail from all walks of life - including political, military, religious, and business. Combining accessible text with specially commissioned illustrated portraits in a range of bold styles, photographs, infographics, and timelines, entries explore the lives and legacies of each individual in a fresh, visual way. Covering political masterminds and military geniuses such as Alexander the Great and Genghis Khan, great kings and queens like Elizabeth I and Catherine the Great, icons of religion and rebellion from Mohammad to the Dalai Lama to Mahatma Ghandi, and captains of industry, *Leaders Who Changed History* explores and explains the world-changing actions of history's heroes and villains.

**1001 Inventions that Changed the World** Sep 28 2023 Presents a review of technological innovations and inventions, from the ancient world to the present day.

**24 Hours That Changed the World for Youth** Oct 18 2022 In his best-selling

book, *24 Hours that Changed the World*, pastor and popular author Adam Hamilton helped readers relive the one day in history that changed everything. Hamilton invites readers and viewers to experience and understand the significance of Jesus' final hours. Based on this popular series by Adam Hamilton, *24 Hours That Changed the World For Youth* offers an age-appropriate perspective on the final day in Jesus' life on earth.

**1001 Battles That Changed the Course of History** Aug 28 2023 This historical account of humanity's 5000 year history of recorded conflict looks at ancient wars, modern conflict, and everything in-between.

**The Invention that Changed the World** Feb 19 2023 In 1940 a team of British Scientists arrived in Washington, bearing Britain's most closely guarded technological secrets, including the cavity magnetron, a revolutionary new source of microwave energy. Its arrival triggered the most dramatic mobilisation of science in history, as America's scientists enlisted to convert the invention into a potent military weapon. Microwave radars eventually helped destroy Japanese warships, Nazi buzz bombs and enabled Allied bombers to see through cloud cover. After the war the work of radar veterans continues to affect our lives by controlling air traffic, helping to forecast the weather and providing

physicians with powerful diagnostic tools. Brimming with telling anecdotes and surprising revelations, this book brings to life the exciting, largely untold story of the scientist who not only created a winning weapon but also changed our world for ever.

**Events That Changed the World C** Apr 23 2023 In this volume the author offers a thought-provoking examination of the many pivotal events in the course of world history.

**100 Letters That Changed the World** Jun 25 2023 A fascinating collection of some of the most significant, interesting, and groundbreaking letters ever written. The written word has the power to inspire, astonish, and entertain, as this collection of 100 letters that changed history will show. Ordered chronologically, the letters range from ink-inscribed tablets that vividly describe life in the Roman Empire to remarkable last wills and testaments, passionate outpourings of love and despair, and succinct notes with deadly consequences. Entries include: A job application from Leonardo da Vinci, with barely a mention of his artistic talents. Henry VIII's love letters to Anne Boleyn, which eventually led to the dissolution of the monasteries. The scrawled note that brought about Oscar Wilde's downfall. Emile Zola's "J'accuse!" open letter, in support of an

alleged spy and against anti-Semitism. Beatrix Potter's correspondence with a friend's son that introduced the character of Peter Rabbit. A last letter from the Titanic. Nelson Mandela's ultimatum to the South African president. A stunning new edition with an elegant new cover, this fascinating book is perfect both for reading cover-to-cover and dipping into to discover the delights within.

Great Inventions that Changed the World Jun 01 2021 GREAT INVENTIONS THAT CHANGED THE WORLD Discover the inventions that have made our world what it is today A great invention opens the door to a new era in human history. The stone axe, for example, invented some 2 million years ago in East Africa, enabled us to enter the human path of endless improvements through inventions. The taming of fire enabled us to cook food as well as leave the warmth of Africa and move to the frigid lands of the North. From the stone axe to the computer and the Internet, this book provides a fascinating tour of the most important inventions and inventors throughout history. You'll discover the landmark achievements and the men and women that made the world what it is today. Great Inventions That Changed the World is written by Professor James Wei, a renowned educator and engineer who holds several patents for his own inventions. Following an introductory chapter examining the role of inventors

and inventions in fueling innovation and global advancement, the book is organized to show how inventions are spurred by human needs and desires, including: Work Food, clothing, and housing Health and reproduction Security Transportation Information The good life As you progress through the book, you'll not only learn about inventions and inventors, but also the impact they have had on our lives and the society and environment in which we live today. Inventions solve problems, but as this book so expertly demonstrates, they can also directly or indirectly create new problems as well, from pollution to global warming to bioterrorism. By enabling us to understand the impact of inventions throughout history, this book can help guide the next generation of citizens, decision makers, and inventors.

Books that Changed the World Jan 01 2024 Books That Changed the World tells the fascinating stories behind 50 books that, in ways great and small, have changed the course of human history. Andrew Taylor sets each text in its historical context and explores its wider influence and legacy. Whether he's discussing the incandescent effect of The Qu'ran, the enduring influence of Adam Smith's Wealth of Nations, of the way in which Uncle Tom's Cabin by Harriet Beecher Stowe galvanized the anti-slavery movement, Taylor has

written a stirring and informative testament to human ingenuity and endeavour. Ranging from The Iliad to Harry Potter and the Philosopher's Stone, the Kama Sutra to Lady Chatterley's Lover, this is the ultimate, thought-provoking read for book-lovers everywhere.

**100 Books that Changed the World** May 05 2024 A thought-provoking chronological journey through the world's most influential books. Many books have become classics, must-reads or overnight publishing sensations, but how many can genuinely claim to have changed the way we see and think? In 100 Books that Changed the World, authors Scott Christianson and Colin Salter bring together an exceptional collection of truly groundbreaking books – from scriptures that founded religions, to scientific treatises that challenged beliefs, to novels that kick-started literary genres. This elegantly designed book, first published in 2018 but updated with an exciting new cover, offers a chronological timeline of three millennia of human thought distilled in print, from the earliest illuminated manuscripts to the age of ebooks and audiobooks. Entries include: • The Iliad and The Odyssey, Homer (750 BC) • Shakespeare's First Folio (1623) • A Vindication of the Rights of Woman, Mary Wollstonecraft (1792) • Narrative of the Life of Frederick Douglass (1845) • The Diary of a

Young Girl, Anne Frank (1947) • Things Fall Apart, Chinua Achebe (1958) • A Brief History of Time, Stephen Hawking (1988) For literary lovers and rebellious readers, this book offers a fascinating overview of world history through the books that influenced and changed it.

*The Corporation That Changed the World* Jun 13 2022 The English East India Company was the mother of the modern multinational. Its trading empire encircled the globe, importing Asian luxuries such as spices, textiles, and teas. But it also conquered much of India with its private army and broke open China's markets with opium. The Company's practices shocked its contemporaries and still reverberate today. *The Corporation That Changed the World* is the first book to reveal the Company's enduring legacy as a corporation. This expanded edition explores how the four forces of scale, technology, finance, and regulation drove its spectacular rise and fall. For decades, the Company was simply too big to fail, and stock market bubbles, famines, drug-running, and even duels between rival executives are to be found in this new account. For Robins, the Company's story provides vital lessons on both the role of corporations in world history and the steps required to make global business accountable today.

Five Ideas That Change the World Jul 03 2021 It is so often said that an understanding of the present relies upon an understanding of the past; in the present age the truth of this is perhaps less patent than formerly. Never before has the world been so divided by conflicting ideologies, never has so much depended upon the finding, not, perhaps, of a reconciliation of the ideologies, but of a means of coexistence. The very continuation of the human race would seem to hang upon a solution of this problem. Through all these lectures runs a single thread, the inevitability of the freedom of man, even if that freedom is liberty for self-destruction. All history has shown that domination of man by man must in the end bring revolt, passive or active, when the right of the individual or the group triumphs over suppression . . . The past may no longer be a certain guide to the future; let us hope that in this one respect history will be the signpost, and that intolerance and exploitation and inhumanity of man to man may some day vanish from the earth. --Kwame Nkrumah, from the Foreword
