"The History of Mathematics: An Introduction," Sixth Edition, is written for the one- or two-semester math history course taken by juniors or seniors, and covers the history behind the topics typically covered in an undergraduate math curriculum or in elementary schools or high schools. Elegantly written in David Burton's imitable prose, this classic text provides rich historical context to the mathematics that undergrad math and math education majors encounter every day. Burton illuminates the people, stories, and social context behind mathematics' greatest historical advances while maintaining appropriate focus on the mathematical concepts themselves. Its wealth of information, mathematical and historical accuracy, and renowned presentation make The History of Mathematics: An Introduction, Sixth Edition a valuable resource that teachers and students will want as part of a permanent library. Emphasizing the relevance of microbiology to a career in the health professions, Burton's Microbiology for the Health Sciences provides the vital microbiology information you need to protect yourself and your patients from infectious diseases. Human Relations: Strategies for Success covers both new and time-tested theories of human relations, and shows the relationship between human relations skills and career success in one-on-one situations, groups, and organizations. Self-esteem, self-awareness, attitude, motivation, and values are covered as the text explores the personal side of human relations and how it relates to management theory. Human Relations: Strategies for Success stresses the human relations skills and management principles essential to functioning successfully in a global business environment. Includes bibliographical references (p. 639-665) and indexes. This sixth edition of The Criminal Codes: Commentary and Materials has been substantially revised to increase overall clarity and to ensure a balanced examination of the criminal law in the "Code" States, Queensland and Western Australia. The work has been brought up-to-date in all areas and provides valuable comment on the recent wide-reaching reforms to the law of homicide in Western Australia. Significant developments in both States discussed in this edition include: the abolition of wilful murder and infanticide, and the new definition of murder (WA); the introduction of the new offence of unlawful assault causing death (WA); the abolition of provocation to murder (WA), and whether this excuse still has a part to play (Qld); the reformulation of the excuse of self defence, and the introduction of excessive self defence (WA); the creation of offences for drink spiking (Qld and WA); and current and proposed sentencing considerations (Qld and WA). Fundamental principles of the criminal law are illustrated throughout the book by selected extracts from the Codes and case law, while additional materials foster critical reflection on the law and the need for reform. The Criminal Codes: Commentary and Materials, 6th Edition is essential reading for students studying criminal law in Western Australia and Queensland. Tim Burton is one of the great modern-day visionaries of cinema, a director who has fabricated his own deliciously nightmarish universe in movies as extraordinary as Beetlejuice, Edward Scissorhands, Mars Attacks! and The Nightmare before Christmas - not to mention his twisted takes on the tales of Batman, Sleepy Hollow and Planet of the Apes. Following the release of his re-imagining of Roald Dahl's Charlie and the Chocolate Factory with long-time comrade Johnny Depp (who also provides a new foreword here), this updated and fully illustrated new edition of the definitive Burton interview book casts light on Burton's Burbank childhood, his early work at Disney, the recurrent themes and stunning designs of his movies, and the creative obsessions that fuel them. She was the one who got away... "Action-packed tension... a compelling romantic thriller" from the New York Times bestselling author (Publishers Weekly). If At First You Don't Succeed It's been seven years since the Seattle Strangler terrorized the city. His victims were all young, pretty, their lifeless bodies found wrapped in a home-sewn white dress. But there was one who miraculously escaped death, just before the Strangler disappeared. . . Kill Lara Church has only hazy memories of her long-ago attack. What she does have is a home in Austin, a job, and a chance at a normal life at last. Then Texas Ranger James Beck arrives on her doorstep with shattering news: The Strangler is back. And this time, he's in Austin. . . And Kill Again. . . He's always craved her, even as he killed the others. For so long he's been waiting to unleash the beast within. And this time, he'll prove he holds her life in his hands--right before he ends it forever... "Dark

and disturbing, a well-written tale of obsession and murder." —Kat Martin Praise for the novels of Mary Burton "Will have readers sleeping with the lights on." --Publishers Weekly on *Before She Dies* (starred review) "Terrifying. . .this chilling thriller is an engrossing story." --Library Journal on *Merciless Seize* control of your financial future with rock-solid advice from two of the world's leading investment experts Investors today are bombarded with conflicting advice about how to handle the increasingly volatile stock market. This title tells the story of Thomas Merton's search for faith and peace in a world which first fascinated and then appalled him. It is written with the profound insight of a man who has seen himself clearly. An introduction the the basics of investing presents ten rules designed to promote long-term financial success and security. A modern classic that no child should miss. Since it was first published in 1939, *Mike Mulligan and His Steam Shovel* has delighted generations of children. Mike and his trusty steam shovel, Mary Anne, dig deep canals for boats to travel through, cut mountain passes for trains, and hollow out cellars for city skyscrapers -- the very symbol of industrial America. But with progress come new machines, and soon the inseparable duo are out of work. Mike believes that Mary Anne can dig as much in a day as one hundred men can dig in a week, and the two have one last chance to prove it and save Mary Anne from the scrap heap. What happens next in the small town of Popperville is a testament to their friendship, and to old-fashioned hard work and ingenuity. "With almost a thousand imaginative exercises and problems, this book stimulates curiosity about numbers and their properties." This introductory text provides a student-friendly review of essential immunity and immunopathology topics. Key concepts are introduced in an incremental fashion to provide a thorough overview of the field. Closely tailored to the undergraduate immunology curriculum, Part 1 outlines basic immunology, while Part 2 covers more disease-related and clinical aspects. The new edition of this popular title features a fully updated overview of the roles and regulation of the cells and molecules of the immune system. Key point summaries have been expanded, and key objectives added to the start of each chapter, to help the reader focus on the essential 'take-home' messages. Readers can then test themselves using the brand new self-assessment section containing problem-solving questions and extended matching questions (EMQs). Including simple, memorable illustrations and quick reference tables, *Lecture Notes: Immunology* provides the perfect distillation of information for easy recall at revision time, and is ideal for both the novice and those with some prior knowledge of the field.
