The Politics of Recognition and Social Justice Maria Pallotta-Chiarolli,Bob Pease,2013-11-07 Via a wide range of case studies this book examines new forms of resistance to social injustices in contemporary Western societies Resistance requires agency and agency is grounded in notions of the subject and subjectivity How do people make sense of their subjectivity as they are constructed and reconstructed within relations of power What kinds of subjectivities are needed to struggle against forms of dominance and claim recognition The participants in the case studies are challenging forms of dominance and subordination grounded in class race culture nationality sexuality religion age disability and other forms of social division It is a premise of this book that new and or reconstructed forms of subjectivity are required to challenge social relations of subordination and domination Thus the transformation of subjectivity as well as the restructuring of oppressive power relations is necessary to achieve social justice By examining the construction of subjectivity of particular groups through an intersectional lens the book aims to contribute to theoretical accounts of how subjects are constituted and how they can develop a critical distance from their positioning

In a Classroom of Their Own Keisha Lindsay, 2018-07-02 Many advocates of all black male schools ABMSs argue that these institutions counter black boys racist emasculation in white overly female classrooms This argument challenges racism and perpetuates antifeminism Keisha Lindsay explains the complex politics of ABMSs by situating these schools within broader efforts at neoliberal education reform and within specific conversations about both endangered black males and a boy crisis in education Lindsay also demonstrates that intersectionality long considered feminist is in fact a politically fluid framework As such it represents a potent tool for advancing many political agendas including those of ABMSs supporters who champion antiracist education for black boys while obscuring black girls own race and gender based oppression in school Finally Lindsay theorizes a particular means by which black men and other groups can form antiracist and feminist coalitions even when they make claims about their experiences that threaten bridge building The way forward Lindsay shows allows disadvantaged groups to navigate the racial and gendered politics that divide them in pursuit of productive and progressive solutions Far thinking and boldly argued In a Classroom of Their Own explores the dilemmas faced by professionals and parents in search of equitable schooling for all students black boys and otherwise

Knowing from the Indigenous North Thomas Hylland Eriksen, Sanna Valkonen, Jarno Valkonen, 2018-10-09 Focusing on the Sámi region of Northern Europe as a point of departure this book enriches and sharpens the concept of the North. It combines detailed empirical research on the Sámi people and their life worlds with theoretical contributions from leading scholars. The authors consider the European North not only as a geographical site or an object of academic research but as a particular way of knowing and being with its own needs, practices, concepts, and imaginings. The North as an epistemic position offers its own conceptions of politics, human agency, history, and social relations, which this book studies and describes. The volume challenges us to consider social scientific knowledge, its significance, and the practices of producing it in a new way.

Women Phenomenologists on Social Ontology Sebastian Luft, Ruth Hagengruber, 2018-10-24 This edited volume examines women's voices in phenomenology, many of which had a formative impact on the movement but have been kept relatively silent for many years. It features papers that truly extend the canonical scope of phenomenological research. Readers will discover the rich philosophical output of such scholars as Edith Stein, Hedwig Conrad Martius, and Gerda Walther. They will also come to see how the phenomenological movement allowed its female proponents to achieve a position in the academic world few women could enjoy at the time. The book explores the intersection of social ontology, phenomenology, and women scholars in phenomenology. The papers offer a fresh look at such topics as the nature of communities, shared values, feelings, and other mental content. In addition, coverage examines the contributions of Jewish women to the science who were present at the beginning of the phenomenological movement. This remarkable anthology also features a paper on Gerda Walther written by Linda Lopez McAlister, former editor of the feminist journal *Hypatia*, who had met Walther in 1976. This book features work from the conference *Women Phenomenologists on Social Ontology* held at the University of Paderborn. Overall, it collects profiles and analysis that unveil a hidden history of phenomenology.

Pragmatic Humanism Marcus Morgan, 2016-01-29 Is sociology best understood as simply chipping away at our ignorance about society or does it have broader roles and responsibilities? If so, to what or perhaps to whom are these responsibilities? Installing humanity as its epistemological and normative start and endpoint, this book shows how humanism recasts sociology as an activity that does not merely do things or effect things but is also self-consciously for something. Rather than resurrecting problematic classical conceptions of humanism, the book instead constructs its arguments on pragmatic grounds, showing how a pragmatic humanism presents an improved picture of both the nature and value of the discipline. This picture is based less around the claim that sociology is capable of providing authoritative revelations about society and more upon its capacity to offer representations of the social in epistemologically open, transformative, ethical, and hopeful ways. Ultimately, it argues that sociology's real value can only be disclosed by replacing its image as a discipline aimed towards disinterested social enlightenment with one of itself as a practice both dependent upon and at its best self-consciously aimed towards human ends and imperatives. It will appeal to scholars and students across the social sciences and to those working in social theory, sociology, and philosophy of the social sciences in particular.
