Essays on Benjamin West, John Singleton Copley, Charls Willson Peale, and Gilbert Stuart. A memoir of life in the family of Utah fundamentalist leader, polygamist, and naturopathic physician Rulon C. Allred. On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. "I should start back before I get lost," she whispered to a bunny on the path. Then she laughed, "I will go back but just, just a little later!" It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later. Anthony Jay shows you how the new science of management is a continuation of the old art of government. By looking at your own corporate organization in a political/historical context, you can fully understand its power

structure - what Machiavelli wrote about statecraft in the sixteenth century holds true for business and management in the late twentieth century. Applying Machiavellian precepts to such modern corporations as General Motors, Apple Computer, and Microsoft, Jay discovers self-contained states with courtiers and diplomats, orthodoxy and heresy lurking under their smooth corporate veneers. Though humorous, Jay's message is clear. To understand the workings of corporation or states, you must understand the nature and behavior of their leaders. And that hasn't changed since the Middle Ages.

Churches, Just Like People, Need to Be Set Free From Spiritual Bondage Corporate sin robs the spiritual vitality and fruitfulness of churches, keeping them from being free in Christ. In **Setting Your Church Free** trusted authors Neil T. Anderson and Charles Mylander offer practical and life-giving tools for dealing biblically with corporate sin in the church. Offering a balanced approach, this unique book takes into account the reality of the spiritual world as well as the need for correcting leadership and administration problems. You will discover how to · Unite around a common purpose · Deal with the power of memories that affect the present and future of the church · Defeat Satan's attacks, and · Move forward with a strong, effective action plan. Churches that put these steps into practice will be set free from bondage to walk in the freedom Christ offers. A provocative call for environmentally sound gardening from PBS's Victory Garden host Roger Swain--who shows why gardeners are in the best position to become environmentalists through their garden techniques. **Groundwork** displays the author's talents as a storyteller as well as writer, biologist, and gardener. The Internet is the most remarkable thing human beings have built since the Pyramids. John Naughton's book intersperses wonderful personal stories with an authoritative account of where the Net actually came from, who invented it and why and where it might be taking us. Most of us have no idea how the Internet works, or who

created it. Even fewer have any idea what it means for society and the future. In a cynical age, John Naughton has not lost his capacity for wonder. He examines the nature of his own enthusiasm for technology and traces its roots in his lonely childhood and in his relationship with his father. *A Brief History of the Future* is an intensely personal celebration of vision and altruism, ingenuity and determination and, above all, of the power of ideas, passionately felt, to change the world.
