Real Writing Interactive Update Edition offers practical coverage of paragraph-to-essay writing skills in a brief, interactive, and affordable format. THE WRITE START: PARAGRAPHS TO ESSAYS introduces the developing writer to the basic elements necessary for writing effective essays in the academic environment. The Fourth Edition focuses first on writing paragraphs that express thoughts about a topic, then on expanding the topic to the longer essay format. These skills will help students communicate more effectively and prepare them for the rigors of their first college-level composition course. An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing. There seems to be widespread agreement that—when it comes to the writing skills of college students—we are in the midst of a crisis. In *Why They Can't Write*, John Warner, who taught writing at the college level for two decades, argues that the problem isn't caused by a lack of rigor, or smartphones, or some generational character defect. Instead, he asserts, we're teaching writing wrong. Warner blames this on decades of educational reform rooted in standardization, assessments, and accountability. We have done no more, Warner argues, than conditioned students to perform "writing-related simulations," which pass temporary muster but do little to help students develop their writing abilities. This style of teaching has made students passive and disengaged. Worse yet, it hasn't prepared them for writing in the college classroom. Rather than making choices and thinking critically, as writers must, undergraduates simply follow the rules—such as the five-paragraph essay—designed to help them pass these high-stakes assessments. In *Why They Can't Write*, Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system. Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education, this book challenges readers to develop the skills, attitudes, knowledge, and habits of mind of strong writers. *Along These Lines* is the complete student resource for remedial English. *Along These Lines* is a great, all-around introduction to paragraph and essay writing for first year and ESL students. Its accessible, workbook style presents a clear, step-by-step introduction to the stages of the writing process. *The Fifth Canadian Edition* features new Canadian readings dealing with up-to-date topics, updated and revised exercises, and content that reflects current Canadian issues. Now packaged with MyWritingLab with eText. This basic writing rhetoric/worktext focuses on paragraph and essay writing skills while featuring ample grammar coverage. It explores the full complexity of the writing process helping students to improve their composing processes and their ability to revise their writing for the 5 Qualities of Good Writing: focus, development, unity, coherence, and correctness. *Along These Lines* better prepares students for their future writing courses! How do you prepare your students for their future writing courses? John Biays and Carol Wershoven believe you offer students constant reinforcement of the writing process. With a conversational tone and a blend of engaging activities, each writing chapter takes students through all of the steps of generating ideas, planning, drafting, and proofreading. *Along These Lines* will help prepare your students by providing the best writing process coverage found in any basic writing series! The fourth edition continues this step-by-step instruction by: - Integrating the writing process throughout EVERY writing chapter - Including peer review and collaborative exercises - Adding a new appendix on the research process "In *Along These Lines*, authors John Sheridan Biays and Carol Wershoven prepare students for the writing expectations of future courses by providing thorough, step-by-step instruction for key topics: the writing process, grammar, and research. The authors' conversational tone and variety of writing activities, such as peer review and collaborative exercises, make *Along These Lines* upbeat and interesting for students as they hone their writing skills"-- Paragraphs and Essays with Integrated Readings—the higher level of Lee Brandon's two-level series that also includes *Sentences, Paragraphs, and Beyond*—provides extensive writing instruction in a fun, engaging manner. Written in Lee Brandon's unique style and voice, the text incorporates coverage of reading, a three-stage writing process, and in-depth instruction on different essay patterns. The last chapter (Chapter 16) covers research writing; and a Handbook section provides grammar, mechanics, and punctuation review for students to brush up on their skills. New to this edition are 12 full-color photographs that provide writing prompts for student essays, a wide variety of brand-new readings, and new "Mindset" features that emphasize key concepts and point to additional exercises on the accompanying Online Study Center. Also new to this edition is Lee

Brandon's co-author, son Kelly Brandon, who also teaches developmental writing. Strong emphasis on the writing process covers three separate stages of writing. Three chapters cover the writing process in detail: the exploring, experimenting, and gathering information stage; writing the controlling idea, organizing, and developing support stage; and writing, revising, and editing. Engaging writing samples by both professionals and students are integrated throughout the text. This edition incorporates more examples of text-based writing and stresses the importance of locating and qualifying sources, as well as incorporating and documenting sources. Intriguing topics such as cheating on papers, low-wage jobs, flirting, and the dangers of steroids, engage students' interest; paired readings in several chapters encourage critical thinking about the pros and cons of an issue. New! Writing across the disciplines and in the workplace is emphasized in every chapter. Every chapter begins with a consideration of how a particular type of writing can be helpful in college courses across the curriculum, as well as in the workplace. New! Application exercises are now linked with four-color photographs to provide critical thinking opportunities as well as writing prompts. These Application exercises can be used for individual or group consideration and discussion, or assigned as essay topics. The effective pedagogy includes a number of student exercises in every chapter for immediate review of chapter concepts; writing process worksheets to help students develop their essays; many annotated readings; and suggested writing topics. New to this edition are special features that point students to the Online Study Center, which contains self-study quizzes with immediate feedback and rejoinders for every chapter and "Mindset" features that provide additional questions and suggestions before many of the readings. A handbook of grammar, mechanics, and punctuation helps students refresh their understanding of parts of speech, sentence structure, and mechanics such as spelling and punctuation. Also included in the handbook is a brief guide for ESL students, with additional information on subjects such as idioms. This text is a comprehensive guide to developing well-focused paragraphs and short essays. It is an all-in-one rhetoric/reader/handbook ideal for instructors who want to order only one book for the course. The authors carefully pace instruction and help students actively experience the relationship among reading, thinking, and writing. The book is characterized by an extremely friendly teaching voice, simple yet complete explanations, and ample opportunity for students to discuss, practice, and write. Strategies for College Writing teaches students to write effective paragraphs and college essays and how to respond in writing to academic readings. The text also provides a review of sentence, grammar, and punctuation skills. The book starts with detailed attention to the writing process at an appropriate pace for developing writers. Emphasis is placed on the importance of the controlling idea, information gathering from both personal experience and other sources, paragraph and essay structure, arranging and connecting ideas, and revision. Part Two covers rhetorical patterns of development; each chapter teaches both paragraph and essay strategies for each rhetorical mode. The sentence/grammar material is self-contained in Part Three for flexibility; both for students and instructors who may want to focus on particular topics. Sentence construction, appropriate punctuation, and avoiding common usage errors are covered extensively. Part Four, Critical Reading Strategies, focuses on the reading process and its relationship to the writing process. Effective strategies for summarizing, outlining, annotating, and reviewing are covered in this section. The book concludes with a collection of readings on American Culture.
