Rise and Shine - An Integrated Semester Course for Classes 1 to 5 has been designed and formulated in accordance with the guidelines of the latest National Curriculum Framework (NCF). It is a set of ten books, two for each class and one per semester. Each book includes subjects such as English, Mathematics, EVS/Science, Social Studies and General Knowledge. The key feature of the course is to make learning a joyful experience. Each book closely interweaves concepts to lay a strong foundation at the primary level. The course focuses on interactive approach to make the children active participants in the process of learning. Some of the key features of the series are :

- Based on the curriculum guidelines given by the latest National Curriculum Framework.
- Graded and matched to the number of class hours planned by the schools.
- Key concepts in each subject linked with interesting explanations; visual aids such as illustrations, photographs, diagrams, maps and tables; activities, games and real-life examples.
- Carefully graded and comprehensive exercises for true evaluation.
- Online support for © Animated lessons and interactive exercises for better understanding of the concepts learnt in the textbook.
- © Assignments and E-book (For Teacher's only) □ Teachers Resource Book to facilitate teaching.

Just as a guide leads an inquisitive traveller to his goal and while escorting him, narrated the salient features of the object, so does a good guide-book offers the students all the essential information for easy comprehension of the subject to prepare for the Final-Based Examination of Semester-II. 'Self-Help to I.C.S.E. Semester 2 Topic wise Revision Book of Mathematics Class 10th' has been specially written meticulously to contain a comprehensive knowledge of Mathematics in detail. Its main objective is to prepare the young scholars aspiring for brilliant success in the I.C.S.E. Examination. The material in the text includes chapters incorporating all the divisions of this branch of science. It has been laboriously enriched with the informative summary of each chapter at the outset important points, Expected questions and answers and previous years' questions besides noteworthy suggestions for important questions. The contents of this book have been extensively interspersed with diagrams for accurate practical insight. If studies attentively, 'Self-Help to I.C.S.E. Semester 2 Topic wise Revision Book of Mathematics Class 10th' will greatly help the students in acquiring the fullest knowledge of the subject. It not only inspires you to become budding scientists, scholars and doctors but also helps to sharpen you focus, concentration, creativity and inquisitiveness. The authors feel indebted in their task to the original masters of the subject and their predecessors in the field who as authors have given their most valuable contribution in helping students acquire a robust grip on this branch of science. All new suggestions for further embellishment of this Self-Help will be considered not only useful but will also be highly appreciated and incorporated in subsequent editions. " Probability and Statistics " is written strictly according to the revised syllabus 2020-21 (R20) of B. Tech 2 year (Second semester) C.S.E. and Allied Branches of CSE students of Jawaharlal Nehru Technological University, Kakinada. It covers Descriptive Statistics and Methods for Data Science, Correlation and Curve Fitting, Probability and Distributions, Sampling Theory, Tests of Hypothesis and tend to enclose Previous Question Paper issues at suitable places and conjointly Previous GATE Questions at the end of every chapter for the benefit of the students.

1. An integrated semester series for Classes 1 to 5, comprising two semester books for each class.
2. The books are mapped to the National Curriculum Framework.
3. The series focus on developing the 21st century skills of critical thinking, creativity, communication and collaboration through reading texts that are value-centric, as well as activities, exercises and projects that develop life skills along with application and analytical thinking.
4. The subjects included in Classes 1 & 2 (Semester 1 and 2) are English, Mathematics, Environmental Studies (EVS) and General Knowledge
5. The subjects included in Classes 3 to 5 (Semester 1 and 2) are English, Mathematics, Science, Social Studies and General Knowledge

Our new semester series, Rosemary-An Activity-based Integrated Course for Classes 1 to 5, has meticulously followed the National Education Policy (NEP), 2020, and the National Curriculum Framework (NCF), 2023. Pramanas, Panchakosha Vikas, and Panchpadi, the three main constituents, have been used significantly through the explanations, examples, and exercises used in this series. It means the focus has shifted to the process of learning. This series envisages conceptual understanding as a continuous process. The books for Classes 1 and 2 include English, Mathematics, Environmental Studies, and General Knowledge. For Classes 3 to 5, the subjects expand to include English, Mathematics, Science, Social Studies, and General Knowledge. In developing this educational series, considerable attention has been focused on creating an engaging and enjoyable learning environment. This approach aims to establish a solid educational foundation for young learners, contributing to their all-around growth and development at every educational level. The series is characterised by several notable features:

- Integrates key educational concepts with visually appealing activities, interactive games, and practical real-world examples
- Methodically structured and comprehensive exercises, ensuring thorough assessment and understanding
- Robust online support, including animated tutorials, interactive modules, subject-specific videos, and digital books (exclusively for teacher use), tailored to meet the needs of each topic

ENGLISH: Combines with historical and contemporary elements, it focuses on interest-based selections to engage learners and improve memory retention. It emphasises the four key language skills (Listening, Speaking, Reading, Writing) with clear grammar explanations.

MATHEMATICS: With engaging and thorough presentation of concepts, it is suitable for all learning levels, using a graded and age-appropriate approach.

ENVIRONMENTAL STUDIES: It focuses on analysis and inquiry, encouraging learning through discussion, observation, and conversation.

SCIENCE: It offers meaningful learning by connecting scientific concepts to students' everyday experiences and the natural world.

SOCIAL STUDIES: In this subject, innovative teaching methods are used to enhance life skills, civic understanding, and prepare students for life's challenges.

GENERAL KNOWLEDGE: It is designed to incite curiosity and a passion for learning about the world. Online support in the form of animated Lesson, interactive exercises, topic-wise videos and E-books (for Teachers only) as per the requirement of the subject. Teachers' Resource Book (TRB) includes Lesson Plan

and Learning Objectives along with the answers of the questions to facilitate teaching. Feedback from students, teachers, and parents is welcomed for consideration in future updates and editions. -The Publisher It is claimed in this book that expectations should not necessarily be treated as unobservable variables and that there is much to be learned from survey data. A unique data set is examined, the output of surveys conducted twice a year since 1952, among informed Italian businessmen and economic experts. The predictive accuracy, rationality and determinants of inflation expectations are investigated, following an extensive analysis of measurement issues. The estimate of inflation expectations are evaluated for both wholesale and consumer price changes, comparing them with those held by respondents to other surveys for different countries and with the forecasts generated by alternative predictors of the inflation process. The expectations considered in the study are shown to be remarkably accurate, anticipating all major price changes, even if during the years of high and rising inflation which have followed the first oil crisis they appear to underestimate on a number of occasions the inflation rates actually experienced, as the alternative predictors also do. An accurate testing of the rational expectations hypothesis is conducted, rejecting it over the entire sample period but not for the period of mild, but variable inflation which preceded the first oil crises. It is shown that a mixed adaptive-regressive model, with both error-learning and return-to-normality components adapts very well to the data considered in this study and that inflation expectations are also influenced by an uncertainty component which affects the adaptive coefficient. Furthermore, regression towards normality is slowed down when industrial capacity is utilized above normal, and vice-versa. Many other issues such as the dispersion of individual answers, the problems of aggregation and measurement error are also considered and an extensive bibliography of other works where use is made of direct information on expectations, is included. Our new semester series, Rosemary-An Activity-based Integrated Course for Classes 1 to 5, has meticulously followed the National Education Policy (NEP), 2020, and the National Curriculum Framework (NCF), 2023. Pramanas, Panchakosha Vikas, and Panchpadi, the three main constituents, have been used significantly through the explanations, examples, and exercises used in this series. It means the focus has shifted to the process of learning. This series envisages conceptual understanding as a continuous process. The books for Classes 1 and 2 include English, Mathematics, Environmental Studies, and General Knowledge. For Classes 3 to 5, the subjects expand to include English, Mathematics, Science, Social Studies, and General Knowledge. In developing this educational series, considerable attention has been focused on creating an engaging and enjoyable learning environment. This approach aims to establish a solid educational foundation for young learners, contributing to their all-around growth and development at every educational level. The series is characterised by several notable features:

- Methodically structured and comprehensive exercises, ensuring thorough assessment and understanding
- Robust online support, including animated tutorials, interactive modules, subject-specific videos, and digital books (exclusively for teacher use), tailored to meet the needs of each topic

ENGLISH: Combines with historical and contemporary elements, it focuses on interest-based selections to engage learners and improve memory retention. It emphasises the four key language skills (Listening, Speaking, Reading, Writing) with clear grammar explanations. **MATHEMATICS:** With engaging and thorough presentation of concepts, it is suitable for all learning levels, using a graded and age-appropriate approach. **ENVIRONMENTAL STUDIES:** It focuses on analysis and inquiry, encouraging learning through discussion, observation, and conversation. **SCIENCE:** It offers meaningful learning by connecting scientific concepts to students' everyday experiences and the natural world. **SOCIAL STUDIES:** In this subject, innovative teaching methods are used to enhance life skills, civic understanding, and prepare students for life's challenges. **GENERAL KNOWLEDGE:** It is designed to incite curiosity and a passion for learning about the world. Online support in the form of animated Lesson, interactive exercises, topic-wise videos and E-books (for Teachers only) as per the requirement of the subject. Teachers' Resource Book (TRB) includes Lesson Plan and Learning Objectives along with the answers of the questions to facilitate teaching. Feedback from students, teachers, and parents is welcomed for consideration in future updates and editions. -The Publisher Conceptualized specifically for the University of Delhi as per the recommendations of National Education Policy 2020 (NEP 2020), Mathematical Physics - I covers important topics such as "Concept of Functions", "Graphs of Functions Using Calculus Concepts", "Homogeneous Equations with Constant Coefficients", "Applications Physics Problems Second Order Differential Equations", "Vector Algebra, Differentiation, and Integration", "Binomial, Poisson, and Normal Distribution" for sound conceptual understanding for students. Bloomsbury—An Activity-based Integrated Course for LKG, UKG and Classes 1 to 5 has been designed and formulated in accordance with the guidelines of National Education Policy (NEP) 2020. The series comprises a set of fourteen books, two for each class and one per semester. Semester books for LKG and UKG include English, Mathematics and Environmental Science. Semester books for Classes 1 and 2 include English, Mathematics, Environmental Science and General Knowledge. Semester books for Classes 3 to 5 include English, Mathematics, Science, Social Studies and General Knowledge. The series is strictly aligned with the basic tenets of NEP 2020. Thus, a lot of emphasis has been laid on promoting activity-based and experiential approach to learning. The series also seeks to develop the core twenty-first-century skills in learners, which lie at the heart of NEP 2020. Besides, great care has been taken to make learning a joyful experience for the learners. All this will together lay a strong foundation at the primary level and lead to the holistic development of the learners at each level. Some of the key features of the series are:

- Key concepts supported with visual activities, games and real-life examples
- Carefully-graded and comprehensive exercises to facilitate true evaluation
- Online support in the form of animated lessons, interactive exercises, topic-wise videos and E-books (For Teachers only) as per the requirement of the subject
- Teachers Resource Book to facilitate teaching

ENGLISH The content for English is a perfect blend of the best of both worlds—past and present. The selections are based on the learners' interests, and, therefore, will not only easily arrest their attention but also facilitate longer retention. The graded exercises lay appropriate emphasis on learning the four basic language skills of Listening, Speaking, Reading and Writing. Grammar Section in each book offers simple and clear conceptual understanding. **MATHEMATICS** The Mathematical concepts have been dealt with in an interesting and comprehensive manner. This way even an average child will have no difficulty in grasping the fundamentals. The series follows a graded and spiral approach, keeping in mind the age and level of understanding of the learner. **ENVIRONMENTAL STUDIES** NEP 2020 lays emphasis on promoting the spirit of analysis and questioning because it has been increasingly felt that children learn more through talking, observing and discussing with others. This approach has been adopted in EVS content. **SCIENCE** The content in this section emphasises meaningful learning of science for the overall development of learners. It focuses on helping children understand their natural environment and correlate science with their everyday experiences in an interesting and comprehensive manner. **SOCIAL STUDIES** A totally new and innovative approach to teaching social studies has been adopted in this section. The lessons enhance the learners' life skills and equip them with a high civic sense and arm them with an ability to face the challenges in life with confidence, and as responsible citizens. **GENERAL KNOWLEDGE** The main objective of the General Knowledge section is to create a sense of wonder in the learners and arouse in them a desire to learn and find out more about the world around them. We look forward for feedback and constructive criticism from the students, teachers and parents, which will be given due consideration in the future reprints and editions of the books. The Publisher

Second Order Linear Differential Equations with Variable Coefficients, Method of Undetermined Coefficients, Variation of Parameters, Series Solutions of Differential Equations, Bessel, Legendre and Hypergeometric Functions and their Properties, Partial Differential Equations of First Order and First Degree and Degree Greater than One, and Solution of Second Order Partial Differential Equations with Variable Coefficients are well explained in Differential Equations. Mechanics part describes the topics such as Mechanics of a Rigid Body, Equilibrium of a System of Forces, Curvilinear Motion and S.H.M., and Motion Under a Central Force in lucid manner. This textbook has been designed to meet the needs of B.Sc. First Semester students of Mathematics as per Common Minimum Syllabus prescribed for all Uttar Pradesh State Universities and Colleges under the recommended National Education Policy 2020. A methodical text, which mirrors the flow of the units of the syllabus, has been created with a focus on developing mathematical skills in both Differential and Integral Calculus and enables the reader to possess an in-depth knowledge of the subjects. Apart from this, topics such as Convergence and Divergence of Series, Successive Differentiation, Partial Differentiation, Riemann Integral: Fundamental Theorems of Integral Calculus, Vector Differentiation and Integration have been well-explained. Presenting the engrossing poetry book in English meant especially for the second semester of B.A. studies at UP State (NEP). Discover the depths of human emotions, subtle cultural differences, and lyrical expressions in this carefully chosen collection, which will allow you to fully immerse yourself in the vast world of literary talent. This extensive poetry collection has been painstakingly designed to correspond with the B.A. syllabus. English literature for a second semester in accordance with the National Education Policy (NEP) that Uttar Pradesh State has put into place. It provides a smooth learning experience and deepens appreciation for the beauty of poem, making it a valuable tool for educators, students, and poetry lovers alike. The book is appropriate for Purvanchal University Jaunpur students and is produced by Thakur Publications Pvt. Ltd. Engineering Mathematics Bloomsbury Class 2 Semester 2 Teacher Resource Book (Academic Year 2023-24) Altogether 1-5 is a semester series consisting of a total of ten books (two semester books per class). Each book is divided into segments of: English, Mathematics, Social Science (for classes 1-2), Social Studies (for classes 3-5), Environmental Studies (for classes 1-2), Science (for classes 3-5), General Knowledge and Computer Science. All the subjects have been designed to develop comprehensive understanding in learners and are essential for an interactive and participative atmosphere. A progressive vision providing graded topics in all subjects has been ensured. SemesterPlus is an engaging and interactive series of 10 books covering English, Maths, Science/EVS, Social Studies and General Knowledge. The entire syllabi is judiciously and evenly distributed into semesters in each grade. The series combines theoretical learning with a practical, participative and hands-on approach. LAN004000 [BISAC]; LAN000000 [BISAC]; SOC000000 [BISAC]; SCI000000 [BISAC]; MAT000000 [BISAC] Just as a guide leads an inquisitive traveller to his goal and while escorting him, narrated the salient features of the object, so does a good guide-book offers the students all the essential information for easy comprehension of the subject to prepare for the Final-Based Examination of Semester-II. 'Self-Help to I.C.S.E. Semester 2 Topic wise Revision Book of Chemistry Class 10th' has been specially written meticulously to contain a comprehensive knowledge of Chemistry in detail. Its main objective is to prepare the young scholars aspiring for brilliant success in the I.C.S.E. Examination. The material in the text includes chapters incorporating all the divisions of this branch of science. It has been laboriously enriched with the informative summary of each chapter at the outset important points, Expected questions and answers and previous years' questions besides noteworthy suggestions for important questions.
