Fighting for Change in Your School: How to Avoid Fads and Focus on Substance Jul 08 2023

In this indispensable book for K-12 leaders, Harvey Alvy offers a thoughtful roadmap and guidance to help educators select, implement, and assess school- or districtwide initiatives that actually work. The book is filled with a wealth of resources—action checklists, principles to guide educators, and in-depth questions and protocols—for engaging in collaborative professional development activities that strengthen teaching and learning practices and improve student achievement. Alvy discusses in detail the six "red flags" that educators confront daily and a set of countervailing strategies (six practical guidelines) to pursue meaningful reforms, initiatives, and innovations: Red Flags * The Narrative Trap * Overpromising and Overloading * Minimizing the Enormous Difficulty of Implementation * Eyes off the Prize * Historical Amnesia * The Business "Solution" Guidelines * Building a Collaborative Learning Community * Effectively Using Human, Fiscal, and Material Resources * Respecting the Change Process * Sustaining a Coherent School Mission and Vision * Embracing Timeless and Eclectic Teaching Practices * Championing and Empowering the Underserved Selecting and implementing reforms, initiatives, and practices wisely is key if we truly want the best for our students--and skipping the necessary planning and forethought can be catastrophic. *Fighting for Change in Your School: How to Avoid Fads and Focus on Substance* is the book every educator needs to ensure the former and prevent the latter. The time to address these challenges is now.

Wiley FRM Exam Review Study Guide 2016 Part I Volume 1 Aug 29 2022

The SAGE Encyclopedia of Educational Research, Measurement, and Evaluation Apr 05 2023

In an era of curricular changes and experiments and high-stakes testing, educational measurement and evaluation is more important than ever. In addition to expected entries covering the basics of traditional theories and methods, other entries discuss important sociopolitical issues and trends influencing the future of that research and practice. Textbooks, handbooks, monographs and other publications focus on various aspects of educational research, measurement and evaluation, but to date, there exists no major reference guide for students new to the field. This comprehensive work fills that gap, covering traditional areas while pointing the way to future developments. Features: Nearly 700 signed entries are contained in an authoritative work spanning four volumes and available in choice of electronic and/or print formats. Although organized A-to-Z, front matter includes a Reader's Guide grouping entries thematically to help students interested in a specific aspect of education research, measurement, and evaluation to more easily locate directly related entries. (For instance, sample themes include Data, Evaluation, Measurement Concepts & Issues, Research, Sociopolitical Issues, Standards.) Back matter includes a Chronology of the development of the field; a Resource Guide to classic books, journals, and associations; and a detailed Index. Entries conclude with References/Further Readings and Cross References to related entries. The Index, Reader's Guide themes, and Cross References will combine to provide robust search-and-browse in the e-version.

Advancing Human Assessment Dec 21 2021 This book is open access under a CC BY-NC 2.5 license. This book describes the extensive contributions made toward the advancement of human assessment by scientists from one of the world's leading research institutions, Educational Testing Service. The book's four major sections detail research and development in measurement and statistics, education policy analysis and evaluation, scientific psychology, and validity. Many of the developments presented have become de-facto standards in educational and psychological measurement, including in item response theory (IRT), linking and equating, differential item functioning (DIF), and educational surveys like the National Assessment of Educational Progress (NAEP), the Programme of international Student Assessment (PISA), the Progress of International Reading Literacy Study (PIRLS) and the Trends in Mathematics and Science Study (TIMSS). In addition to its comprehensive coverage of contributions to the theory and methodology of educational and psychological measurement and statistics, the book gives significant attention to ETS work in cognitive, personality, developmental, and social psychology, and to education policy analysis and program evaluation. The chapter authors are long-standing experts who provide broad coverage and thoughtful insights that build upon decades of experience in research and best practices for measurement, evaluation, scientific psychology, and education policy analysis. Opening with a chapter on the genesis of ETS and closing with a synthesis of the enormously diverse set of contributions made over its 70-year history, the book is a useful resource for all interested in the improvement of human assessment.

Neuropsychological Interviewing of Adults Sep 29 2022 Filling a major gap in neuropsychological references and training materials, this is the first guide to conducting effective clinical interviews as a core component of neuropsychological practice. Prominent experts provide state-of-the-art information about clinical interviewing in the context of 16 different adult populations and settings. Chapters outline critical areas of inquiry and key considerations for differential diagnosis, as well as what initial and follow-up questions to ask, rapport-building strategies, and common interviewing pitfalls. Tips for record reviews and behavioral observations are also offered. Chapters follow a consistent format and include extensive tables for easy reference.

Banking's Final Exam Mar 16 2024 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009, stress testing of large financial institutions has become the cornerstone of banking supervision worldwide. The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable. In *Banking's Final Exam*, one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses, leading to a false sense of reassurance about the safety and soundness of the banking system. Some weaknesses can be corrected within the existing bank-capital regime, but others will require bold reforms—including higher minimum capital requirements for the largest and most systemically-important banks. The banking industry is likely to resist these reforms, but this book explains why their objections do not hold water.

Credit Rating Governance May 14 2021 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market. In the recent financial crisis, their power and reliability were often questioned, yet a simple rating downgrade could threaten to bankrupt a whole country. This book examines the governance of credit rating agencies, as expressed by their ability to fairly, ethically and consistently assign higher rates to issuers having lesser default risks. However, factors such as the drive for increased revenue and market share, the inadequate business model, the inadequate methodology of assessing risk, opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies. This book explores these issues, and proposes some potential solutions and improvements. This will be of interest to researchers and advanced students of corporate finance, finance, financial economics, risk management, investment management, and banking.
