Learning Science in Informal Environments National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Board on Science Education, Committee on Learning Science in Informal Environments, 2009-05-27 Informal science is a burgeoning field that operates across a broad range of venues and envisages learning outcomes for individuals, schools, families, and society. The evidence base that describes informal science, its promise, and effects is informed by a range of disciplines and perspectives, including field-based research, visitor studies, and psychological and anthropological studies of learning. *Learning Science in Informal Environments* draws together disparate literatures, synthesizes the state of knowledge, and articulates a common framework for the next generation of research on learning science in informal environments across a life span. Contributors include recognized experts in a range of disciplines; research and evaluation; exhibit designers; program developers; and educators. They also have experience in a range of settings: museums; after-school programs; science and technology centers; media enterprises; aquariums; zoos; state parks; and botanical gardens. *Learning Science in Informal Environments* is an invaluable guide for program and exhibit designers, evaluators, staff of science-rich informal learning institutions, and community-based organizations; scientists interested in educational outreach; federal science agency education staff; and K-12 science educators.

*CT Atlas of Adult Congenital Heart Disease* Wojciech Mazur, Marilyn J. Siegel, Tomasz Miszalski-Jamka, Robert Pelberg, 2013-07-01 The aims and scope of this atlas include a complete review of the embryology of the normal heart, the normal cardiac anatomy, along with a complete discussion of the terms and definitions used to identify and clarify both normal and abnormal anatomy. In addition, techniques of cardiac CT angiography as it pertains to imaging congenital abnormalities are discussed, including radiation concepts and radiation-saving techniques. The bulk of this book then goes on to completely review the field of adult congenital heart disease using text and, more importantly, a multitude of pictorial examples in color and grey scale to demonstrate the abnormalities. Drawings accompany each picture to better explain the example. Furthermore, difficult and complex anatomical examples are supplemented with digital images and movies to aid in illustrating and understanding the anatomy. Each general set of anomalies, as well as each specific abnormality or set of abnormalities, includes a concise and simple review of the embryology and epidemiology of the abnormality, as well as a concise explanation of the anatomy of the abnormality. In addition, the methods to identify and recognize the abnormality by computed tomography are discussed. Finally, the prognosis and common treatment options for the anomaly are addressed within this comprehensive book.

*Hemy (Walk of Shame #2)* Ashley, 2014-09-22 My name is Hemy Knox and I'm a heartbreaker. I've hurt the one person that means the most to me in life, the only woman I have ever loved. I let the drugs, alcohol, and wild lifestyle take over and consume me. I got her where I wanted her and ripped her heart out. Since then, I've spent countless nights having dirty, meaningless sex with a multitude of people, only leaving them wanting and begging for more with no regrets. Some may even call me the devil, soulless. They look and judge, but there is one thing they don't know: no one does. I want more than this life of stripping and sleeping around the never-ending party. I want love and everything that comes with it, that high that never ends. The problem is I only want it with her, Onyx. She refuses to be mine again. She's smart, guarding her heart while ripping mine right out of my chest. I can't say that I blame her. I always was a dumb ass when it came to the emotions of a woman, especially her. She wants to see me suffer as much as I made her watch me wither and die at her feet. She wants to crush me until I'm no longer breathing, and I will let her because it hurts far less than not having her as mine. I will stop at nothing to make her mine again. The pain only drives me harder, feeding my fury and giving me a reason to live her.
