Nomad Feb 20 2024 A reclusive designer living in a custom tiny house in the middle of the Montana wilderness. A couple who traded their expensive Bay Area apartment for a slip at a nearby marina, where they live on a docked sailboat. A family of five who decided to simplify their lives by moving into a school bus, selling most of their possessions in the process. Nomad features their stories, and many more. From vanlifers to boondockers, liveaboards to tiny-house dwellers, these freedom seekers have forged a new way of life for themselves—one that values experiences over things, is environmentally conscious, and is often more budget-friendly than their “rooted” lives ever were. The ubiquity of the internet has ushered in a new era of connectivity that makes working from an Airstream beside a roaring river or running a photography business from a mountaintop a reality. It’s now possible to do whatever you want from wherever you want and still have a foothold in the world. This book shows you how, with tours of 26 unconventional homes and the

people who live in them, plus all the information you need to make your own off-the-grid dream a reality. There are chapters on bathroom and storage—two of the most challenging aspects of this lifestyle—plus a comprehensive guide to finding the right home, assessing the cost of renovation, handy products for small spaces, and indispensable resources (including sources for replacement RV parts, portable power solutions, tiny wood stoves, and much more).

A History of American Magazines, Volume III: 1865-1885 Jul 13 2023 The first volume of this work, covering the period from 1741-1850, was issued in 1931 by another publisher, and is reissued now without change, under our imprint. The second volume covers the period from 1850 to 1865; the third volume, the period from 1865 to 1885. For each chronological period, Mr. Mott has provided a running history which notes the occurrence of the chief general magazines and the developments in the field of class periodicals, as well as publishing conditions during that period, the development of circulations, advertising, payments to contributors, reader attitudes, changing formats, styles and processes of illustration, and the like. Then in a supplement to that running history, he offers historical sketches of the chief magazines which flourished in the period. These sketches extend far beyond the chronological limitations of the period. The second and third volumes present, altogether, separate sketches of

seventy-six magazines, including The North American Review, The Youth's Companion, The Liberator, The Independent, Harper's Monthly, Leslie's Weekly, Harper's Weekly, The Atlantic Monthly, St. Nicholas, and Puck. The whole is an unusual mirror of American civilization.
