Global Religions Mark Juergensmeyer, 2003-03-20 Can Islam be located on a map Is Europe the center of the Christian world Is India a Hindu nation While decades ago these questions were often answered in the affirmative the truth has never been that simple Not only are adherents of particular faiths spread across the globe but there are many variations of a particular faith practiced side by side This has only become more true in recent years as the pace of globalization has quickened The essays collected here provide brief and accessible introductions to the major world religions in their global contexts The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer and is followed by individual essays on Christianity Islam Judaism Hinduism Buddhism and local religious societies The book concludes with three essays reflecting on the global religious scene Taken together these essays provide a concise authoritative and highly readable introduction to the state of worldwide religion in the 21st century

The Illustrated

World's Religions Huston Smith,1995 A presentation of the world's predominant religions includes the essential elements and teachings of each and a description of their similarities and differences [God Is Not One](#) Stephen Prothero,2010-04-20 In *God is Not One: The Eight Rival Religions That Run the World* New York Times bestselling author of *Religious Literacy* and religion scholar Stephen Prothero argues that persistent attempts to portray all religions as different paths to the same God overlook the distinct problem that each tradition seeks to solve. Delving into the different problems and solutions that Islam, Christianity, Buddhism, Judaism, Confucianism, Yoruba Religion, Daoism, and Atheism strive to combat, *God is Not One* is an indispensable guide to the questions human beings have asked for millennia and to the disparate paths we are taking to answer them today. Readers of Huston Smith and Karen Armstrong will find much to ponder in *God is Not One* **World Religions** John Bowker,2003 *The Evolution of Major Faiths* *World Religions* looks at the beliefs and practices of many different religions from the ancient Egyptians to Zoroastrianism, the oldest living religion, and the great faiths practiced today. Each of the major faiths—Christianity, Judaism, Hinduism, Buddhism, Jainism, Sikhism, and Islam—is examined in detail through its sacred texts, epic imagery, key beliefs, and religious artifacts. The distinctive identities of different faiths are explored in *World Religions* by studying the main principles and thinking of each religion. The book's superb reproduction allows the symbolism and meaning in religious imagery and iconography to be revealed in great detail. Accessible and far-reaching, *World Religions* will engage the whole family as much as the serious student. Book jacket [The World's Religions](#) Huston Smith,2017-03-29 This book has seven basic chapters: Hinduism, Buddhism, Confucianism, Taoism, Islam, Judaism, and Christianity. These he calls the Major Historical Religions. They all have sacred texts. This book was intended to be a brief survey without an in-depth analysis. A new section was added to *The World's Religions*. It is entitled *The Primal Religions*. It describes a broad sweep of religions such as those practiced by the Australian Aborigines, by the Native American Indians of North and South America, and the religions of the interior of Africa. Huston Smith's masterpiece explores the essential elements and teachings of the world's predominant faiths, including Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and the native traditions of Australia, Africa, Oceania, and the Americas. Emphasizing the inner rather than the institutional dimension of these religions, Smith devotes special attention to Zen and Tibetan Buddhism, Sufism, and the teachings of Jesus. He convincingly conveys the unique appeal and gifts of each of the traditions and reveals their hold on the human heart and imagination. *Sex and Religion* Christel Manning, Phil Zuckerman,2005 Offers a collection of diverse and authoritative viewpoints on the relationship between spirituality and sexuality in the world's major religions. Each chapter explores the teachings and practices of a particular religion regarding sex and sexuality, explains controversial issues, and describes the diverse responses to those issues that exist within that tradition. This collection is perfect for courses in religion and sexuality, religion and gender, world religions, or the social aspects of religion. Page 4 of cover **The Encyclopedia of World Religions** Robert S. Ellwood,2008 Contains nearly 600 brief entries on the world's religious traditions.
