Managerial Accounting: Asia-Pacific Edition John Sands, Lanita Winata, Sophia Su, Maryanne Mowen, Don Hansen, Dan L. Heitger, 2018-10-01 Managerial Accounting is characterised by a strong pedagogical framework and a dynamic and practical approach that directly demonstrates how students can develop their careers in real life The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method and uses Staircase exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book This title uses easy to understand student friendly language uncomplicated examples a logical discussion of concepts that matches student learning processes and clear visual explanations that support student understanding

Accounting for Sustainability: Asia Pacific Perspectives Ki-Hoon Lee, Stefan Schaltegger, 2018-01-30 This book advances the understanding of corporate sustainability and challenges and roles of sustainability accounting in the Asia Pacific region The Asia Pacific region has shown fast economic growth for several decades which is expected to continue In this context Asia has become the production engine of the global economy At the same time scientific reports reveal that some planetary boundaries are crossed for example relating to biodiversity and climate change Companies in the Asia Pacific region are therefore increasingly challenged to reduce their environmental impacts to document their social contribution and to contribute to sustainable development Key approaches to identify sustainability problems and challenges to support improvement processes and to back up sustainability contributions include accounting and reporting In contrast to the high relevance of accounting and reporting for corporate sustainability for the Asia Pacific region academic research has so far been dominated by Western researchers and pre dominantly dealt with Western and Japanese cases and approaches It is thus time to take account of Asian perspectives on accounting and reporting for sustainability in the Asia Pacific region

Management Accounting in China and Southeast Asia Robert C. Rickards, Rolf Ritsert, Kanitsorn Terdpaopong, 2021-04-29

This book is an essential guide to understanding how managers in China and Southeast Asia make effective economic decisions. In today's competitive global economy, it's vital to grasp how the most dynamic part of Asia is employing accounting tools in actual practice. The carefully crafted empirical studies presented here demonstrate the application of management accounting concepts in a variety of economic scenarios. Overall, these comparative investigations describe theory and common practices in a way that yields insights for both strategic and day-to-day problem solving. Accordingly, *Management Accounting in China and Southeast Asia* will interest graduate students, professional practitioners, and researchers in accounting, management, and finance.

Managerial Strategies and Solutions for Business Success in Asia Ordóñez de Pablos, Patricia, 2016-11-22 Globalization, sustainable development, and technological applications all affect the current state of the business sector in Asia. This complex industry plays a vital part in the overall economic, social, and political aspects of this region, as well as on a larger international scale. *Managerial Strategies and Solutions for Business Success in Asia* is an authoritative reference source for the latest collection of research perspectives on the development and optimization of various business sectors across the Asian region and examines their role in the globalized economy. Highlighting pertinent topics across an interdisciplinary scale, such as e-commerce, small and medium enterprises, and tourism management, this book is ideally designed for academics, professionals, graduate students, policy makers, and practitioners interested in emerging business and management practices in Asia.

Management Accounting A. Nishimura, 2003-01-10 This book examines present management accounting issues in the light of Japanese experiences. This is particularly important in the study of management accounting since Japanese management not only learnt from the West but also grew out of it. The book describes the importance and meaning of feed-forward management accounting, compares Asian and Japanese management accounting with the Western approach, and examines the philosophy behind them. It ends by looking into the future of management accounting science.

Risk Management, Strategic Thinking and Leadership in the Financial Services Industry Hasan Dinçer, Ümit Hacıoğlu, 2016-12-19 This book presents a broad overview of risk management in the banking industry with a special focus on strategic thinking and decision making. It reveals the broader context behind decision models and approaches to risk management in the financial industry, linking the regulatory landscape for capital management and risk to strategic thinking together with behavioral and cultural assessments.

Prowle, 2020-12-28 Radical changes to public service delivery have swept across many regions of the world Management accounting methods are vital to support operational and strategic decision making in public services internationally This book provides a comprehensive and leading edge guide to the topic Written by an expert scholar with practical experience of public service delivery the book takes account of key trends such as increased demand for public services financial austerity technological change and enhanced performance management A globally relevant book informed by cutting edge academic research and benefitting from integrated case studies this is essential reading for both students and practitioners involved with the financial aspects of public services management *SERVICES MARKETING* PRABHU TL, Service marketing is a strategy for promoting and showcasing a company's intangible benefits and offerings in order to increase end customer value This can be for stand alone service offerings or for services that are offered in conjunction with tangible products Service marketing is a term that refers to the sale of non physical intangible goods It's done for company provided benefits that can't be seen touched or felt for example These are benefits that are primarily driven by people processes and that a customer cannot keep Service marketing is used to drive business in industries such as hospitality tourism financial services and professional services Importance of Service Marketing Marketers promote a variety of entities including goods services events and people Service marketing refers to the marketing of services Services are intangible in nature and do not imply ownership of anything Its creation could be linked to a physical product or not External internal and interactive marketing excellence are all required for service marketing excellence Pricing distribution and promotion of services to consumers are all covered by external marketing Internal marketing entails educating and motivating employees to provide excellent customer service The ability of the employees to serve the client is described by interactive marketing Factors in Service Marketing The key factors which define marketing for services are 1 Intangible Unlike physical products which can be touched felt and seen services are not tangible This distinguishes services from products necessitating a different marketing strategy 2 No ownership Services can't be bought or sold they can only be experienced This is a broad term that refers to the customer experience You can own a service in the form of evidence such as plans bills and invoices

but you can't own it like a product 3 Inseparability The concept of moment of truth guides service marketing which means that services are created and used at the same time They can't be stored like products in an inventory because they're made and consumed simultaneously 4 Variability Unlike standardised products services vary in nature despite the same people process type of work and so on For the same service different customers may have different experiences e.g. a telecom customer might get different experience for the same plan 5 Perishability Services unlike products cannot be stored and must be consumed immediately But there's another way of looking at it Many services or plans these days have an expiration date They are not the same as best before dates on products but they are more in terms of service validity e.g. free warranty service after 2 years of purchase 6 People involvement People who provide benefits and solutions to the needs of customers drive service marketing Although many automated service solutions are being developed these days people still play the most important role in service marketing Taking care of the 7Ps is part of service marketing planning Price location promotion product people process and physical evidence are all factors to consider
