Greg Heffley finds himself thrust into a new year and a new school where undersize weaklings share the corridors with kids who are taller, meaner and already shaving. Desperate to prove his new found maturity, which only going up a grade can bring, Greg is happy to have his not-quite-so-cool sidekick, Rowley, along for the ride. But when Rowley's star starts to rise, Greg tries to use his best friend's popularity to his own advantage. Recorded in his diary with comic pictures and his very own words, this test of Greg and Rowley's friendship unfolds with hilarious results. There are few creative acts more mysterious and magical than writing a song. But what if the goal wasn't so mysterious and was actually achievable for anyone who wants to experience more magic and creativity in their life? That's something that anyone will be inspired to do after reading Jeff Tweedy's *How to Write One Song*. Why one song? Because the difference between one song and many songs isn't a cute semantic trick—it's an important distinction that can simplify a notoriously confusing art form. The idea of becoming a capital-S songwriter can seem daunting, but approached as a focused, self-contained event, the mystery and fear subsides, and songwriting becomes an exciting pursuit. And then there is the energizing, nourishing creativity that can open up. *How to Write One Song* brings readers into the intimate process of writing one song—lyrics, music, and putting it all together—and accesses the deep sense of wonder that remains at the heart of this curious, yet incredibly fulfilling, artistic act. But it's equally about the importance of making creativity part of your life every day, and of experiencing the hope, inspiration, and joy available to anyone who's willing to get started. NEW YORK TIMES BESTSELLER Continuing the series that began with *A Blaze of Glory*, Jeff Shaara returns to chronicle another decisive chapter in America's long and bloody Civil War. In *A Chain of Thunder*, the action shifts to the fortress city of Vicksburg, Mississippi. There, in the vaunted "Gibraltar of the Confederacy," a siege for the ages will cement the reputation of one Union general—and all but seal the fate of the rebel cause. In May 1863, after months of hard and bitter combat, Union troops under the command of Major General Ulysses S. Grant at long last successfully cross the Mississippi River. They force the remnants of Confederate Lieutenant General John C. Pemberton's army to retreat to Vicksburg, burning the bridges over the Big Black River in its path. But after sustaining heavy casualties in two failed assaults against the rebels, Union soldiers are losing confidence and morale is low. Grant reluctantly decides to lay siege to the city, trapping soldiers and civilians alike inside an iron ring of Federal entrenchments. Six weeks later, the starving and destitute Southerners finally surrender, yielding command of the Mississippi River to the Union forces on July 4—Independence Day—and marking a crucial turning point in the Civil War. Drawing on comprehensive research and his own intimate knowledge of the Vicksburg Campaign, Jeff Shaara once again weaves brilliant fiction out of the ragged cloth of historical fact. From the command tents where generals plot strategy to the ruined mansions where beleaguered citizens huddle for safety, this is a panoramic portrait of men and women whose lives are forever altered by the siege. On one side stand the emerging legend Grant, his irascible second William T. Sherman, and the youthful "grunt" Private Fritz Bauer; on the other, the Confederate commanders Pemberton and Joseph Johnston, as well as nineteen-year-old Lucy Spence, a civilian doing her best to survive in the besieged city. By giving voice to their experiences at Vicksburg, *A Chain of Thunder* vividly evokes a battle whose outcome still reverberates more than 150 years after the cannons fell silent. Praise for *A Chain of Thunder* "[Jeff] Shaara continues to draw powerful novels from the bloody history of the Civil War. . . . The dialogue intrigues. Shaara aptly reveals the main actors: Grant, stoic, driven, not given to micromanagement; Sherman, anxious, high-strung, engaged even when doubting Grant's strategy. . . . Worth a Civil War buff's attention."—Kirkus Reviews "Searing . . . Shaara seamlessly interweaves multiple points of view, as the plot is driven by a stellar cast of real-life and fictional characters coping with the pivotal crisis. . . . [A] riveting fictional narrative."—Booklist "Shaara's historical accuracy is faultless, and he tells a good story. . . . The voices of these people come across to the reader as poignantly as they did 150 years ago."—Historical Novels Review "The writing is picturesque and vibrant. . . . [an] engrossing tale."—Bookreporter *A New York Times* Bestseller! As seen on *The Today Show*, Rachael Ray, and *Kelly and Michael*. Discover their story, and that of the unknown soldiers they honor, through resonant words and illustrations. Keeping vigil at the Tomb of the Unknown Soldier, in Arlington National Cemetery, are the sentinel guards, whose every step, every turn, honors and remembers America's fallen. They protect fellow soldiers who have paid the ultimate sacrifice, making sure they are never alone. To stand there—with absolute precision, in every type of weather, at every moment of the day, one in a line uninterrupted since midnight July 2, 1937—is the ultimate privilege and the most difficult post to earn in the army. Everything these men and women do is in service to the Unknowns. Their standard is perfection. Exactly how the unnamed men came to be entombed at Arlington, and exactly how their fellow soldiers have come to keep vigil over them, is a sobering and powerful tale, told by Jeff Gottesfeld and luminously illustrated by Matt Tavares—a tale that honors the soldiers who honor the fallen. This book contains transcripts from Online Alpha discussions where the epic and narrative structure of SPACE 1999 is being discussed by comparing episodes with themes, characters and elements of plot from the Homeric Odyssey and Lewis Carroll's stories about Alice. The discussion is motivated by questions raised in the scholarly literature and earlier Online Alpha debates about how to make sense of SPACE 1999 from the viewpoint of critical theory. The book has been developed on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. A free e-book version can be downloaded at www.lulu.com. Evidence suggests that the first 10 or so years of life create the foundation for subsequent participation in recreational and health-related physical activity. This book brings together researchers and practitioners with expertise in issues related to physical activity, physical education, and sport during the primary/elementary phase of schooling, to explore these important issues. Combining inter-disciplinary perspectives, the book addresses the inherent complexity of researching with young children. It looks at the evidence on development during the first 10 years and how that evidence relates to physical activity and to sport, in pre-school, school and out of school. Finally, the book offers a series of national case studies, from Asia, Europe and Africa, demonstrating the importance of age-appropriate sport and physical activity. This is important reading for any student, researcher, educator or policy maker with an interest in physical activity and health, education in the early years or at primary/elementary level, paediatric exercise science, or youth sport. A bestselling author, neuroscientist, and computer engineer unveils a theory of intelligence that will revolutionize our understanding of the brain and the future of AI. For all of neuroscience's advances, we've made little progress on its biggest question: How do simple cells in the brain create intelligence? Jeff Hawkins and his team discovered that the brain uses maplike structures to build a model of the world—not just one model, but hundreds of thousands of models of everything we know. This discovery allows Hawkins to answer important questions about how we perceive the world, why we have a sense of self, and the origin of high-level thought. A Thousand Brains heralds a revolution in the understanding of intelligence. It is a big-think book, in every sense of the word. One of the Financial Times' Best Books of 2021 One of Bill Gates' Five Favorite Books of 2021 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a “good college.” Hint: it’s not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that “who gets in” is frequently more about the college’s agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about “getting in” and what higher education has become, *Who Gets In and Why* not only provides an unusually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests. One of the most long lasting and popular humour strips in history, Mutt and Jeff had many memorable moments of serious goofiness and irreverence. The rediscovery of this true oddball classic marks NBM's return to classic comic strips reprints, a field in which it pioneered with Terry & the Pirates back in the early 80s. This evergreen series still creates a buzz. Book level 1 to 3 are suitable for Grade 1, levels 4 to 6 for Grade 2, and levels 7 to 9 for Grade 3.
