Judy Bieber explores the relationship between state centralization and municipal politics in Minas Gerais, Brazil, during the Imperial Period, 1822-89. She charts the nineteenth-century origins of coronelismo, a form of machine politics that linked rural power and patronage at the municipal level to state and federal politics. ø By highlighting the structural role of the municipality within the political system, Bieber provides a key to explaining Brazil's so-called exceptionalism—its ability to maintain territorial and political cohesion within the framework of a constitutional monarchy instead of fragmenting violently, as did many Spanish republics. ø Despite the maintenance of national unity, political violence characterized much of Brazil's political

history, especially in the municipalities of its frontier regions. Historians have often attributed the chaotic nature of these politics to geographical isolation and decentralization of power. Bieber challenges these assumptions, arguing instead that state centralization was the primary factor contributing to political violence in Brazil's frontier regions. ø The Brazilian national government centralized appointments of municipal authorities, thereby linking partisan affiliation on the periphery with provincial and national political parties. Local appointees corrupted and abused the mechanisms of social control in order to attain electoral victories for political patrons who had rewarded them with official jobs. This system produced escalating violence and promoted judicial impunity at the municipal level while simultaneously creating political stability at the provincial and federal levels. ø National discourse attributed political violence to a natural tendency possessed by rural elites in the uncivilized backlands. Municipal actors, however, belied prevailing stereotypes of ideological passivity and intellectual backwardness. In the press and in private correspondence they actively sought to define the terms of their political participation, developing their own conceptions of liberalism and ethical norms of political patronage. All his life, Tim Meeker has looked up to his brother. Sam is smart and brave, and is now a part of the American Revolution. Not everyone in town wants to be a part of the rebellion. Most are supporters of the British, including Tim and Sam's father. With the war soon raging, Tim knows he will have to make a choice between the Revolutionaries and the Redcoats, and between his brother and his father.

The inspiration for the film starring Tilda Swinton and John C. Reilly, this resonant story of a mother's unsettling quest to understand her teenage son's deadly violence, her own ambivalence toward motherhood, and the explosive link between them remains terrifyingly prescient. Eva never really wanted to be a mother. And certainly not the mother of a boy who murdered seven of his fellow high school students, a cafeteria worker, and a much-adored teacher in a school shooting two days before his sixteenth birthday. Neither nature nor nurture exclusively shapes a child's character. But Eva was always uneasy with the sacrifices and social demotion of motherhood. Did her internalized dislike for her own son shape him into the killer he's become? How much is her fault? Now, two years later, it is time for her to come to terms with Kevin's horrific rampage, all in a series of startlingly direct correspondences with her estranged husband, Franklin. A piercing, unforgettable, and penetrating exploration of violence and responsibility, a book that the Boston Globe describes as "impossible to put down," is a stunning examination of how tragedy affects a town, a marriage, and a family.
