Management Accounting Anthony A. Atkinson, 2007 AUDIENCE For upper level undergraduate and MBA Management Accounting courses APPROACH Atkinson is a managerially oriented book that focuses on both quantitative and qualitative aspects of classical and contemporary managerial accounting. COMPETITORS Garrison MH **Statistics and Probability for Engineering Applications** William DeCoursey, 2003-05-14 Statistics and Probability for Engineering Applications provides a complete discussion of all the major topics typically covered in a college engineering statistics course. This textbook minimizes the derivations and mathematical theory focusing instead on the information and techniques most needed and used in engineering applications. It is filled with practical techniques directly applicable on the job. Written by an experienced industry engineer and statistics professor this book makes learning statistical methods easier for today's student. This book can be read sequentially like a normal textbook but it is designed to be used as a handbook pointing the reader to the topics and sections pertinent to a particular type of statistical problem. Each new concept is clearly and briefly described whenever possible by relating it to previous topics. Then the student is given carefully chosen examples to deepen understanding of the basic ideas and how they are applied in engineering. The examples and case studies are taken from real world engineering problems and use real data. A number of practice problems are provided for each section with answers in the back for selected problems. This book will appeal to engineers in the entire engineering spectrum electronics electrical mechanical chemical and civil engineering engineering students and students taking computer science computer engineering graduate courses scientists needing to use applied statistical methods and engineering technicians and technologists. Filled with practical techniques directly applicable on the job. Contains hundreds of solved problems and case studies using real data sets. Avoids unnecessary theory. Logistics Management and Strategy Alan Harrison, Heather Skipworth, Remko I. van Hoek, James Aitken, 2019 **SEWMEX** Gus Gordon, David E. Stout, Sarah Hartzog, Matt Lusty, Jay Nelson, 2017 This case

focuses on short term profit planning for SEWMEX a newly formed Mexican subsidiary of a U S company The case is based on a real company in the sewing industry and as such forces students to think critically about the application of CVP concepts to a real life situation Sensitivity analysis is required to determine the impact of changes in production efficiencies on CVP relationships and profitability for the SEWMEX plant Some applications of Excel are required to complete the case Students are required to construct a written summary report regarding major issues raised in the case Optional requirements focus on various issues regarding foreign exchange rates Because of the richness of the case it is targeted for use at the graduate level e g MBA managerial accounting or at an upper level undergraduate course for accounting majors e g cost accounting
