The Birth of Loud Ian S. Port,2019-01-15 A hot rod joy ride through mid 20th century American history The New York Times Book Review this one of a kind narrative masterfully recreates the rivalry between the two men who innovated the electric guitar s amplified sound Leo Fender and Les Paul and their intense competition to convince rock stars like the Beatles Jimi Hendrix and Eric Clapton to play the instruments they built In the years after World War II music was evolving from big band jazz into rock n roll and these louder styles demanded revolutionary instruments When Leo Fender s tiny firm marketed the first solid body electric guitar the Esquire musicians immediately saw its appeal Not to be out maneuvered Gibson the largest guitar manufacturer raced to build a competitive product The company designed an axe that would make Fender s Esquire look cheap and convinced Les Paul whose endorsement Leo Fender had sought to put his name on it Thus was born the guitar world s most heated rivalry Gibson versus Fender Les versus Leo While Fender was a quiet half blind self taught radio repairman Paul was a brilliant but headstrong pop star and guitarist who spent years toying with new musical technologies Their contest turned into an arms race as the most inventive musicians of the 1950s and 1960s including bluesman Muddy Waters rocker Buddy Holly the Beatles Bob Dylan and Eric Clapton adopted one maker s guitar or another By 1969 it was clear that these new electric instruments had launched music into a radical new age empowering artists with a vibrancy and volume never before attainable In an excellent dual portrait The Wall Street Journal Ian S Port tells the full story in The Birth of Loud offering spot on human characterizations and erotic paeans to the bodies of guitars The Atlantic The story of these instruments is the story of America in the postwar era loud cocky brash aggressively new The Washington Post
