New Syllabus Mathematics Workbook (Express) is  
written in line with the new Singapore-Cambridge  
GCE   Level Examination and the new initiatives  
of the Ministry of Education. The workbook  
consists of exercises which prepare students for  
their examinations. The more difficult questions  
are marked with an \*. To encourage student-  
centred learning, the workbook includes non-  
routine types of worksheets that are classified  
under the section, Alternative Assessment. These  
worksheets encourage students to learn  
independently through carefully-guided steps and  
the use of IT. Students are motivated to  
investigate mathematical concepts with various

methods and think critically, so that they will understand and appreciate the concepts better. The teacher can gauge the students' learning by assessing the work with the scoring rubric found at the end of the relevant worksheets. The workbook is accompanied with a CD-ROM that contains templates to be used with some worksheets. It is hoped that with the use of various pedagogies, different types of students will be inspired to achieve success in mathematics.

New Syllabus Mathematics Textbook 3 Nov 03 2022  
New Syllabus Mathematics is a series of four books. These books follow the Mathematics Syllabus for Secondary Schools, implemented from 2007 by the Ministry of Education, Singapore. The whole series covers the complete syllabus for the Singapore-Cambridge GCE  Level Mathematics. The sixth edition of New Syllabus Mathematics retains the goals and objectives of the previous edition, but has been revised to meet the needs of the current users, to keep materials up-to-date as well as to give students a better understanding of the contents. All topics are comprehensively dealt with to provide students with a firm grounding in the subject. Explanations of concepts and principles are precise and written clearly and concisely with supportive illustrations and examples. Examples

and exercises have been carefully graded to aid students in progressing within and beyond each level. Those exercises marked with a require either more thinking or involve more calculations. Numerous revision exercises are provided at appropriate intervals to enable students to recapitulate what they have learnt. Some interesting features of this series include the following:

- ◆ an interesting introduction at the beginning of each chapter complete with photographs or graphics
- ◆ brief specific instructional objectives for each chapter
- ◆ Just For Fun arouses the students' interests in studying mathematics
- ◆ Thinking Time encourages students to think creatively and go deeper into the topics
- ◆ Exploration provides opportunities for students to learn actively and independently
- ◆ For Your Information provides extra information on mathematicians, mathematical history and events etc.
- ◆ Problem Solving Tips provides suggestions to help students in their thinking processes. We also introduce problem solving heuristics and strategies systemically throughout the series.
- ◆ Your Attention alerts students to misconceptions.

*Mathematics Workbook Jul 19 2021 This math workbook, authored by Alex Han, a student at Chadwick International, is focused on math problems for all topics designed for middle school students. It includes practice problems from simple arithmetics to word problems. The author has written this book for her volunteer work to tutor underprivileged children through her nonprofit organization Piece of Talent, as she found out there were not many English math practice books her students can use, or when there were, they were too expensive. She prepared this workbook for her peer tutors to use during the classes. Alex is a math lover and she hopes her students can share her passion for math with this book.*
