**Writing Beyond Pen and Parchment** Dec 29 2022 What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre "Material Text Cultures," (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume's focus on the raw materials and practices that shaped artefacts both mundane or fantastical in medieval narratives offers a fresh perspective on the medieval world that takes seriously the vibrancy of matter as a vital aspect of textual culture often overlooked.

The Rise and Decline of the Medici Bank, 1397-1494 Dec 17 2021 The roots of modern capitalism go back to the Italian banking system of the late Middle Ages and the Renaissance. In the fifteenth century, the Medici Bank succeeded in overshadowing its competitors, the

Bardi and the Peruzzi, who were the giants of the fourteenth century, and grew into a vast establishment with branches in most of the large cities of Western Europe. A study of its operations is essential to an understanding of the economic conditions in Europe in the fifteenth century. From a careful study of pertinent documents, including a set of libri segreti (confidential ledgers) discovered in 1950, Professor de Roover has reconstructed the details of the bank's organization and operating methods; its loan policies, which reflected the Church's doctrine on usury; its trading and industrial investments; its roles within the Florentine guild system and tax structure; and its activities as financial agent of the Church. He covers every aspect of the bank's history, from its early years under the management of Giovanni di Bicci de' Medici to its collapse with the expulsion of the Medici from Florence. "An invaluable contribution to the economic history of the period....A splendid book."—Harry A. Miskimin, *The American Economic Review* "The most important work in English on a medieval or Renaissance bank."—*The Economist* "The best book ever written on the medieval banking system."—John T. Noonan, Jr., *Harvard Law Review* "The most authoritative treatment of its subject in any language."—Rondo Cameron, *The Accounting Review*

**Nuns Behaving Badly** Feb 11 2024 Witchcraft. Arson. Going AWOL. Some nuns in sixteenth- and seventeenth-century Italy strayed far from the paradigms of monastic life. Cloistered in convents, subjected to stifling hierarchy, repressed, and occasionally persecuted by their male superiors, these women circumvented authority in sometimes extraordinary ways. But tales of their transgressions have long been buried in the Vatican Secret Archive. That is, until now. In *Nuns Behaving Badly*, Craig A. Monson resurrects forgotten tales and restores to life the long-silent voices of these cloistered heroines. Here we meet nuns who dared speak out about physical assault and sexual impropriety (some real, some imagined). Others were only guilty of misjudgment or defacing valuable artwork that offended their sensibilities. But what unites the women and their stories is the challenges they faced: these were women trying to find their way within the Catholicism of their day and through the strict limits it imposed on them. Monson introduces us to women who were occasionally desperate to flee cloistered life, as when an entire community conspired to torch their convent and be set free. But more often, he shows us nuns just trying to live their lives. When they were crossed—by powerful priests who claimed to know what was best for them—bad behavior could escalate from mere troublemaking to open confrontation. In resurrecting these long-forgotten tales and trials, Monson also draws attention to the predicament of modern religious women, whose "misbehavior"—seeking ordination as priests or refusing to give up their endowments to pay for priestly wrongdoing in their own archdioceses—continues even today. The nuns of early modern Italy, Monson shows, set the standard for religious transgression in their own age—and beyond.

**Michelangelo** Aug 25 2022 Consummate painter, draftsman, sculptor, and architect, Michelangelo Buonarroti (1475–1564) was celebrated for his disegno, a term that embraces both drawing and conceptual design, which was considered in the Renaissance to be the foundation of all artistic disciplines. To his contemporary Giorgio Vasari, Michelangelo was "the divine draftsman and designer" whose work embodied the unity of the arts. Beautifully illustrated with more than 350 drawings, paintings, sculptures, and architectural views, this book establishes the centrality of disegno to Michelangelo's work. Carmen C. Bambach presents a comprehensive and engaging narrative of the artist's long career in Florence and Rome, beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen-year appointment as chief architect of Saint Peter's Basilica at the Vatican. The chapters relate Michelangelo's compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions—such as

the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy (Medici Chapel) in Florence, and Saint Peter's—offering fresh insights into his creative process. Also explored are Michelangelo's influential role as a master and teacher of disegno, his literary and spiritual interests, and the virtuoso drawings he made as gifts for intimate friends, such as the nobleman Tommaso de' Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach's text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

**Historical Seismology** Mar 08 2021 Modern seismology has faced new challenges in the study of earthquakes and their physical characteristics. This volume is dedicated to the use of new approaches and presents a state-of-the-art in historical seismology. Selected historical and recent earthquakes are chosen to document and constrain related seismic parameters using updated methodologies in the macroseismic analysis, field observations of damage distribution and tectonic effects, and modelling of seismic waveforms.

Breaching the Bronze Wall: Franks at Mamluk and Ottoman Courts and Markets Feb 16 2022 Breaching the Bronze Wall deals with the idea that the words of honorable Muslims constitutes proof and that written documents and the words of non-Muslims are of inferior value. Thus, foreign merchants in cities such as Istanbul, Damascus or Alexandria could barely prove any claim, as neither their contracts nor their words were of any value if countered by Muslims. Francisco Apellániz explores how both groups labored to overcome the 'biases against non-Muslims' in Mamluk Egypt's and Syria's courts and markets (14th-15th c.) and how the Ottoman conquest (1517) imposed a new, orthodox view on the problem. The book slips into the Middle Eastern archive and the Ottoman Dv?n, and scrutinizes shar??a's intricacies and their handling by consuls, dragomans, qa??s and other legal actors.

*The Right to Dress* Jun 10 2021 This is the first global history of dress regulation and its place in broader debates around how human life and societies should be visualised and materialised. Sumptuary laws were a tool on the part of states to regulate not only manufacturing systems and moral economies via the medium of expenditure and consumption of clothing but also banquets, festivities and funerals. Leading scholars on Asian, Latin American, Ottoman and European history shed new light on how and why items of dress became key aspirational goods across society, how they were lobbied for and marketed, and whether or not sumptuary laws were implemented by cities, states and empires to restrict or channel trade and consumption. Their findings reveal the significance of sumptuary laws in medieval and early modern societies as a site of contestation between individuals and states and how dress as an expression of identity developed as a modern 'human right'.

Discourse on the State of the Jews Jan 10 2024 In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleoni" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice." It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Sim?a) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument

by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

*Art and Music in the Early Modern Period* Jun 03 2023 The relationship between music and painting in the Early Modern period is the focus of this collection of essays by an international group of distinguished art historians and musicologists. Each writer takes a multidisciplinary approach as he or she explores the interface between music performance and painting, or between music and art theory. The essays reflect a variety and range of approaches and offer methodologies which might usefully be employed in future research in this field. The volume is dedicated to the memory of Franca Trinchieri Camiz, an art historian who worked extensively on topics related to art and music, and who participated in some of the conference panels from which many of these essays originate. Three of Professor Camiz's own essays are included in the final section of this volume, together with a bibliography of her writings in this field. They are preceded by two thematic groups of essays covering aspects of musical imagery in portraits, issues in iconography and theory, and the relationship between music and art in religious imagery.

**Niccolò Ridolfi and the Cardinal's Court** Sep 06 2023 Niccolò Ridolfi (1501–50), was a Florentine cardinal, nephew and cousin to the Medici popes Leo X and Clement VII, and he owed his status and wealth to their patronage. He remained actively engaged in Florentine politics, above all during the years of crisis that saw the Florentine state change from republic to duchy. A widely respected patron and scholar throughout his life, his sudden death during the conclave of 1549–50 led to allegations of poison that an autopsy appears to confirm. This book examines Cardinal Ridolfi and his court in order to understand the extent to which cardinalate courts played a key part in Rome's resurgence and acted as hubs of knowledge located on the fault lines of politics and reform in church and state, hospitable spaces that can be analysed in the context of entanglements in Florentine and Roman cultural and political patronage, and intersections between the princely court and a more professional and complex knowledge and practice of household management in the consumer and service economy of early modern Rome. Based on an array of archival sources and on three treatises whose authors were closely linked to Ridolfi's court, this monograph explores these multidisciplinary intersections to allow the more traditional fields of church and political history to be approached from different angles. *Niccolò Ridolfi and the Cardinal's Court* will appeal to all those interested in the organisation of these elite establishments and their place in sixteenth-century Roman society, the life and patronage of Niccolò Ridolfi in the context of the Florentine exiles who desired a return to republicanism, and the history of the Roman Catholic Church.

**Michelangelo, Selected Scholarship in English: The Sistine Chapel** Jul 04 2023 Accessible to readers-useful to specialists Much as been written on Michelangelo. By 1970, the number of scholarly books and articles exceeded 4,000, approximately a tenth in English. In the past 25 years, the literature has grown exponentially, with a notable increase in English-language publications. The five-volume series reproduces some 100 articles in English, selected from a broad range of books and journals. The collection is both accessible to the general reader and useful to the specialist, offering a representative sample of old and new commentary on the artist and his work. The career of a genius Articles are arranged chronologically with separate volumes covering the artist's early life and works, the Sistine Chapel ceiling, commission associated with San Lorenzo, the tomb of Julius II and other Roman projects, and a final volume devoted to drawings, poetry, and miscellaneous studies. Spanning his entire 89-year life, the articles explore Michelangelo's prodigious creativity as an artist, thinker, and poet. The sheer quantity of what has been written on Michelangelo can be intimidating; most student have little sense of how to approach or effectively utilize the vast literature. By presenting a varied introduction to a great artist, this collection is a handy reference tool for a wide array of topics, problems, and literature.

Jacopo Strada and Cultural Patronage at The Imperial Court (2 Vols.) Jun 15 2024 In *Jacopo Strada and Cultural Patronage at the Imperial Court: Antiquity as Innovation*, Dirk Jansen provides a survey of the life and career of the antiquary, architect, and courtier Jacopo Strada (Mantua 1515–Vienna 1588). His manifold activities — also as a publisher and as an agent and artistic and scholarly advisor of powerful patrons such as Hans Jakob Fugger, the Duke of Bavaria and the Emperors Ferdinand I and Maximilian II — are examined in detail, and studied within the context of the cosmopolitan learned and courtly environments in which he moved. These volumes offer a substantial reassessment of Strada's importance as an agent of change, transmitting the ideas and artistic language of the Italian Renaissance to the North.

Philosophy in the Sixteenth and Seventeenth Centuries Feb 04 2021 This volume offers an important re-evaluation of early modern philosophy. It takes issue with the received notion of a 'revolution' in philosophical thought in the 17th-century, making the case for treating the 16th and 17th centuries together. Taking up Charles Schmitt's formulation of the many 'Aristotelianisms' of the period, the papers bring out the variety and richness of the approaches to Aristotle, rather than treating his as a homogeneous system of thought. Based on much new research, they provide case studies of how philosophers used, developed, and reacted to the framework of Aristotelian logic, categories and distinctions, and demonstrate that Aristotelianism possessed both the flexibility and the dynamism to exert a continuing impact - even among such noted 'anti-Aristotelians' as Descartes and Hobbes. This constant engagement can indeed be termed 'conversations with Aristotle'.

The Upside of Stress Sep 25 2022 Drawing from groundbreaking research, psychologist and award-winning teacher Kelly McGonigal, PhD, offers a surprising new view of stress—one that reveals the upside of stress, and shows us exactly how to capitalize on its benefits. You hear it all the time: stress causes heart disease; stress causes insomnia; stress is bad for you! But what if changing how you think about stress could make you happier, healthier, and better able to reach your goals? Combining exciting new research on resilience and mindset, Kelly McGonigal, PhD, proves that undergoing stress is not bad for you; it is undergoing stress while believing that stress is bad for you that makes it harmful. In fact, stress has many benefits, from giving us greater focus and energy, to strengthening our personal relationships. McGonigal shows readers how to cultivate a mindset that embraces stress, and activate the brain's natural ability to learn from challenging experiences. Both practical and life-changing, *The Upside of Stress* is not a guide to getting rid of stress, but a toolkit for getting better at it—by understanding, accepting, and leveraging it to your advantage.

Aspects of the Performative in Medieval Culture Nov 15 2021 The volume assesses performative structures within a variety of medieval forms of textuality, from vernacular literature to records of parliamentary proceedings, from prayer books to musical composition. Three issues are central to the volume: the role of ritual speech acts; the way in which authorship can be seen as created within medieval texts rather than as a given category; finally, phenomena of voice, created and situated between citation and repetition, especially in forms which appropriate and transform literary tradition. The volume encompasses articles by historians and musicologists as well as literary scholars. It spans European literature from the West (French, German, Italian) to the East (Church Slavonic), vernacular and Latin; it contrasts modes of liturgical meditation in the Western and Eastern Church with secular plays and songs, and it brings together studies on the character of 'voice' in major medieval authors such as Dante with examples of Dante-reception in the early twentieth century.
