Have Her Over for Dinner Jul 27 2023 Let's face it, today we are inundated with articles about cooking, food, and wine in almost every part of our lives. From The Wall Street Journal to Playboy Magazine, you'd be hard pressed not to find a commentary related to the subject of food. At a time when I'm trying to figure out my best financial opportunities or determine which girl of the SEC is the best looking, why am I being told how to cook something? The simple answer is women. Don't get me wrong, a quick glance at any men's magazine will always yield the same redundant taglines; "Lose your Gut," "1001 Financial Solutions," or "Score your Dream Job" on the cover. However, by now the majority of writers have exhausted the subjects of health, wealth, and power as a means to attract women, and they realize that cooking is just another avenue that they can use to appeal to the wants and needs of their readers. Don't trust me? Take a stroll through the magazine aisle at your local grocery store, and you might find that even Field and Stream has gone

haute-cuisine on your latest hunt. Confused by the last sentence? Good, this book is for you.

Fluent Forever Apr 23 2023 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition

techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
