## Case 4-1

# Prudent Provisions for Pensions

Among its many financial products, the Prudent Financial Services Corporation (normally referred to as PFS) manages a well-regarded pension fund that is used by a number of companies to provide pensions for their employees. PFS's management takes pride in the rigorous professional standards used in operating the fund. Since the near-collapse of the financial

markets during the protracted Great Recession that began in late 2007, PFS has redoubled its efforts to provide prudent management of the fund.

It is now December 2013. The total pension payments that will need to be made by the fund over the next 10 years are shown in the following table.
