Friedman, and reinforced by the pressure of facts." —Linda Moulton Howe, Emmy award-winning TV producer, reporter, and editor, Earthfiles.com Today, 60 years after the UFO abduction of Betty and Barney Hill, more and more people are convinced that UFOs are real and their existence is being covered up by the government. If you have doubts or questions about the Hill case or alien experiences in general, Captured! will give you the answers you're searching for. The 1961 abduction of the Hills stirred worldwide interest and enthralled the public and media for decades. The case is mentioned in almost all UFO abduction books. It also became a target for debunkers, who still attack it today. But the complete story of what really happened that day, its effect on the participants, and the findings of investigators has never been told—until now. In Captured! you'll get an insider's look at the alien abduction, previously unpublished information about the lives of the Hills before and after Barney's death in 1969, their status as celebrities, Betty's experiences as a UFO investigator, and other activities before her death in 2004. She also looks at the Hills' riveting hypnosis sessions about their time onboard the spacecraft. The results of a new chemical analysis of the dress Betty was abducted in is shared, which found unusual and rare elements on it Newly discovered letters at the American Philosophical Society by debunker Philip Klass, regarding an orchestrated plot to paint Betty as delusional reveal what early detractors tried to do. In addition, coauthor, physicist, and ufologist Stanton T. Friedman reviews and refutes the arguments of those who have attacked the Hill case, including the star map Betty Hill saw inside the craft and later recreated.

Why Do Only White People Get Abducted by Aliens? Jul 13 2022 According to Ilana Garon, popular books and movies are inundated with the myth of the "hero teacher"—the one who charges headfirst into dysfunctional inner city schools like a firefighter into an inferno, bringing the student victims to safety through a combination of charisma and innate righteousness. The students are then "saved" by the teacher's idealism, empathy, and willingness to put faith in kids who have been given up on by society as a whole. "Why Do Only White People Get Abducted by Aliens?" is not that type of book. In this book, Garon reveals the sometimes humorous, oftentimes frustrating, and occasionally horrifying truths that accompany the experience of teaching at a public high school in the Bronx today. The overcrowded classrooms, lack of textbooks, and abundance of mice, cockroaches, and drugs weren't the only challenges Garon faced during

her first four years as a teacher. Every day, she'd interact with students such as Kayron, Carlos, Felicia, Jonah, Elizabeth, and Tonya—students dealing with real-life addictions, miscarriages, stints in "juvie," abusive relationships, turf wars, and gang violence. These students also brought with them big dreams and uncommon insight—and challenged everything Garon thought she knew about education. In response, Garon—a naive, suburban girl with a curly ponytail, freckles, and Harry Potter glasses—opened her eyes, rolled up her sleeves, and learned to distinguish between mitigated failure and qualified success. In this book, Garon explains how she learned that being a new teacher was about trial by fire, making mistakes, learning from the very students she was teaching, and occasionally admitting that she may not have answers to their thought-provoking (and amusing) questions.

Into The Fringe Aug 02 2021 A True Story of Alien Abduction - One of the most important, sincere and honest abduction stories out there. Finally back in print. Following the 2013 reissue of TAKEN, a book that has been out of print for several years and fetched excessive amounts amongst collectors and those wishing to get their hands on such a legendary piece of non-fiction, INTO THE FRINGE is where it all began for Dr Karla Turner and her family. As with the reissue of TAKEN, INTO THE FRINGE is an officially authorized republication with the sole input of Karla Turner's widower Elton. Endorsed and approved by Elton Turner with the highest respect for the importance of the story; we excitedly bring INTO THE FRINGE to the 21st century. Into the Fringe documents the account of alien abduction and how Karla Turner, along with her family, uncovered the memories and physical evidence of their encounters with beings from outside of our own planet. "This brave and defiant refusal, in the name of humanity, to countenance suffering from an alien tyrant masquerading as a benefactor, is Karla Turner's final legacy." - John Chambers, UFO Magazine UFOs, ETs, and Alien Abductions Oct 16 2022 Psychologist and researcher Don Donderi examines the evidence and research from the past several decades on the changing nature of UFOs. He looks at why the scientific establishment takes a dim view of UFOs and abduction evidence and examines how the US government has collected and suppressed UFO evidence. UFOs, ETs, and Alien Abductions is a wide-ranging examination of all things off-planet that falls into 3 sections. 1. UFOs: evidence and belief between 1947 through 1965 and Cold War mysteries 2. The changing nature of UFO phenomenon from 1965 to the present, which makes the case for the existence of humanoid crew members seen in and around landed UFOs. This section also examines six well-documented abduction cases, and includes the author detailing his own research involvement with the evidence. He refutes the belief that all abductees are mentally disturbed and that a psychological disturbance explains the experience. 3. The third section is devoted to a very meaty and controversial analysis of science, politics, and UFOs.

Top Secret Alien Abduction Files Jun 23 2023 For decades, people have reported close encounters with extraterrestrial entities. Witnesses describe being kidnapped by large-headed, black-eyed creatures from other worlds. Those same creatures have become popularly known as "the Grays." There is, however, another aspect to the alien abduction controversy. Abductees very often report being followed and spied upon by military and government personnel. It is typical for abductees to see black helicopters hovering directly over their homes in an intimidating manner. Phone calls are monitored. Emails are hacked into. Strange men dressed in black suits are seen photographing the homes of the abductees. All of this brings us to the matter of what have become known in the domain of alien abduction research as "Military Abductions," or "MILABS." According to numerous abductees, after being kidnapped by aliens they are kidnapped again . . . by the government. These follow-up events are the work of a powerful group hidden deep within the military and the intelligence community. It is the secret agenda of this highly classified organization to figure out what the so-called Grays are really up to. And, the best way for the government to get the answers is to interrogate those who have come face-to-face with the UFO phenomenon: the abductees. Why is the government secretly compiling files on alien abductees? Is the alien abduction issue so sinister that it has become a matter of national security proportions?

Secret Life Nov 16 2022 In *Secret Life*, Professor David M. Jacobs of Temple University takes us into the private world of those abducted by aliens, letting them describe in their own words what it is like to be abducted. Based on interviews with sixty individuals and more than 300 independently corroborated accounts, *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled. Dr. Jacobs takes the reader on a minute-by-minute journey through a typical abduction experience and describes in detail the bizarre physical, mental and reproductive procedures that abductees claim have been administered by small alien beings. Jacobs draws from these interviews a profoundly unsettling reason behind the abductions: aliens are conducting a complex reproductive experiment involving the conception, gestation, or incubation of human and alien hybrid beings.

Alien Abductions Sep 26 2023 People around the world share the same stories. They can recall memories of spaceships and strange beings. Are aliens visiting Earth? Find out about famous alien abduction stories and how science is trying to solve this mystery.

The Threat Jan 07 2022 After fifty years of widespread speculation about UFOs and abductions by aliens, a distinguished historian and UFO researcher presents the first evidence-based explanation of alien intentions. Based on over thirty years of personal research, Professor Jacobs exposes the aliens' profoundly alarming agenda: to create a breed of alien-human 'hybrids' who will eventually colonise - and control - Earth. He explains why aliens are here, what they want and why their agenda has been kept secret. In doing so he presents a disturbing picture of a profoundly changed future in which humans will be relegated to inferior status. This incredible story is all the more remarkable because every account of an alien abduction is thoroughly documented and is corroborated by independent testimony. This book answers in astonishing depth some of the most important questions about the UFO phenomenon that researchers have been asking since the beginning of the controversy.

Out of the Darkness Nov 04 2021 What is an Alien Abduction?In the dictionary an alien abduction is said to be "subjectively real memories of being taken secretly against one's will by apparently nonhuman entities and subjected to complex physical and psychological procedures".Are Alien Abductions Real?Who knows. What I do know is that while mainstream scientists reject claims that the phenomenon literally occurs as reported, there is no doubt that people who report alien abductions believe their experiences are real. And for me, that's all that necessary.The precise number of abductees is uncertain. One of the earliest studies of abductions found 1,700 claimants, while contested surveys argued that 5% to 6% of the general population might have been abducted.What is Post Abduction Syndrome?Post Abduction Syndrome (PAS) refers to a series of symptoms and forms of behavior which develop in relation to alien abduction experience. Often it relates not just to a single abduction event, but to several repeated and on-going events.What to Expect from this BookThis book is written for anyone interested in the process of recovering hidden or blocked memories of an alien abduction event. I will also discuss the process of dealing with and overcoming the trauma of these events. While the coping and healing sections of the book can be used by anyone who is experiencing the symptoms of PAS, regression therapy should only be attempted by a therapist who is certified for and experienced in these techniques. The book contains five sections. Parts one, two and three cover the tools used to recover lost, hidden or blocked memories. These are in the way of an educational tool and should never be attempted by anyone who is not specifically trained for them. Parts four and five deal with how to cope with the fallout of these memories and can be used by anyone who is affected by PAS. The first part is 'Accessing Conscious Memories'. In this section we discuss the first part of any PAS therapy...the initial interview. We discuss using Cognitive Interviewing techniques or CI. CI is used in many applications including law enforcement to assist witnesses and victims in clarifying their memories of an event. In the case of an alien abduction experience this is the first step; to clarify what the abductee already consciously remembers about his or her experience. The CI should only be attempted by an experienced investigator or therapist.Part two, 'Accessing the Subconscious Mind', is a basic introduction into the science of Hypnosis and a discussion on the ways in which it can be a helpful tool in abduction cases.In part three, 'Recovering Memories' we will get into the nuts and bolts of regression therapy.In part four, 'Healing the Trauma' will look at the modalities that can be used to treat PAS. These include hypnosis and guided visualization. And finally in part five, 'Out of the Darkness', we will go more in-depth into the behaviors an individual can learn to cope with the emotional disturbances associated with an alien abduction experience.

Walking Among Us May 23 2023 "Walking Among Us explains why extraterrestrial UFOs are here, who is aboard them, and what they are doing. If enough of us read and pay attention to the evidence in this book, we might be able to avoid the disaster that its evidence portends."--Don C. Donderi, PhD, associate

professor (retired) of psychology, McGill University, Montreal, author of UFOs, ETs, and Alien Abductions In his earlier book, *The Threat*, Jacobs uncovered disconcerting reports about aliens' plans for the future of Earth. He reported that a "change" is coming; a future when very humanlike hybrids would intermingle with humans in everyday life. "Soon we will all be together," the aliens said. "Soon everyone will be happy and everyone will know his place." *Walking Among Us* examines a disturbing phenomenon that Jacobs began noticing in 2003. The alien integration action plan has kicked into high gear. The incidents of alien abductions have accelerated as have occurrences of alien involvement in everyday human life. A silent and insidious invasion has begun. Alien hybrids have moved into your neighborhood and into your workplace. They have been trained by human abductees to "pass," to blend in to society, to appear as normal as your next door neighbor. This book illustrates in detail the process of alien integration into society and the strategy and support structure that has been developed to make this happen seamlessly. While he is not certain why they are doing it, the final chapter of the book will provide some chilling possible answers as to why they are here and what they want to accomplish. Jacobs is a careful researcher who has investigated more than 1150 abduction events experienced by more than 150 abductees. This book focuses on the experiences of thirteen abductees.

Hair of the Alien Oct 04 2021 SHOCKING. CONTROVERSIAL. UNPRECEDENTED. A CASE LIKE UNLIKE ANY OTHER IN THE ANNALS OF UFO INVESTIGATION, DNA RESEARCH, OR ALIEN ABDUCTION. Sydney, Australia. July 23, 1992. Twenty-eight-year-old Peter Khoury was awoken by what appeared to be two females—both striking and unearthly—kneeling on his bed. What transpired between them was a physical assault as bizarre and disorienting as it was unnatural. Then, as quickly as they had arrived, they vanished. Khoury had become one of a legion of alien abductees with inexplicable experiences, but this particular incident stood apart from all the others. This time, there was evidence—two strands of white-blond hair from one of the females. Khoury's case would result in the very first forensic DNA analysis of "alien abduction" evidence and revealed an extraordinary biological anomaly—one genetically close to human yet almost impossibly far from the human mainstream. A gripping account of one of the great mysteries of our time, *Hair of the Alien*, brings us closer than ever before to understanding our past, our origins, and our place in the universe.

Even more startling, both have independently described finding themselves on identical huge craft, within the same timeframe. *The Alien Abduction Files* finally reveals: The little-known details of alien experimental procedures The theoretical science that can explain alien technology The messages conveyed by the ETs to abduction experiencers The vulnerabilities and benefits of living life as an abduction experiencer The evidence that these phenomena are real.

Read accounts of abductions and learn about some of the extraordinary physical evidence that is now being collected in the field of ufology.

Captured by Aliens? Oct 28 2023 New Hampshire couple Betty and Barney Hill provided Americans with what is essentially the original alien abduction story. Since their story became public in the early 1960s, many thousands of Americans have likewise come forward with similar stories of traumatic experiences. Sometimes the abductee has little conscious recollection of these events, but through nightmares, dreams, flashbacks and hypnosis they eventually learn more. Sometimes the participants are bewildered. To get a better understanding of the opposing viewpoints of skeptic and believer, the Betty and Barney Hill case is used to examine the wider context of such encounters, their historical origins, media influences and the latest extraterrestrial, psychological, paranormal, conspiracy and sociological theories that surround them. **Alien Abductions** Sep 02 2021 Since the late 1980s more and more people in the Americas and in Europe have come to believe they have been forcibly abducted by alien beings, taken on board their spacecraft, and subjected to a range of distressing indignities.

A Cosmic Encounter Mar 01 2024 A Fascinating Firsthand Nuts & Bolts Analysis of the Grays When an alien craft stalled Stewart Bench's truck on a backcountry road, he tried his best to just forget about it. But then they came back and made it personal. In *A Cosmic Encounter*, for the first time, Stewart tells the incredible true story of being encountered and then abducted by aliens. As an engineer, Stewart uses his technical experience to describe the specifications of the alien craft, their technology, their communications, and their mission. You will discover the details of the alien device implanted in his nose, the telepathic communication displayed by the aliens, and a wealth of information about the layout and operation of their vehicle and equipment. This is a highly detailed, close-up look at how aliens infiltrate our airspace and conduct experiments on humans—without any official acknowledgement—as well as the personal toll these encounters have on the abductees.

Close Encounters Of The Fourth Kind May 03 2024 Close Encounters of the Fourth Kind: cases in which personal contact between an individual or individuals is initiated by the “occupants” of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a “scientific conference” devoted to people who have reported being kidnapped by “little green men” would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it: the conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from M.I.T. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open (if slightly skeptical) mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing—and utterly convincing—accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies: as the Harvard professor John E. Mack asked at the conference, “If what the abductees are saying isn’t happening to them, then what is?” This question—and the possible answers—are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology’s most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents, in depth, the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through sessions of hypnosis of which Bryan himself was a witness. Finally, Bryan examines the current theories—psychological, psychiatric, medical, parapsychological—that have been put forward by the unconvinced to explain the abduction phenomenon. Are the abductees suffering from some sort of false memory syndrome? . . . a multiple or dissociative personality disorder? . . . Are they fantasy-prone? *Close Encounters of the Fourth Kind* is a detailed, objective exploration—the most concrete to date—of one of the enduring and amazing mysteries of our time. It is a book that will equally fascinate believers and nonbelievers.

Connections Jan 24 2021 The authors present their evidence for alien abductions which, they claim, may have been going on in their own families for many generations.

How to Defend Yourself Against Alien Abduction Jul 01 2021 “A very powerful book . . . Druffel’s research does us all a great service.”—Dr. Edgar Mitchell, Apollo 14 astronaut and author of *The Way of the Explorer* In 1988 Ann Druffel, who has researched UFOs for forty years, discovered a little-known fact that had been drowned in abduction hysteria—documented evidence that people have successfully fended off

attack by the “greys,” the short, big-eyed aliens now familiar through so much popular media. Using her database of 250 case studies, including seventy “resisters,” Druffel has ascertained nine techniques that witnesses use to ward off alien entities and even break off abductions in progress. And perhaps even more astonishing, this evidence points to the possible true identity of the greys and their link to the abducting entities of myth and folklore. *How to Defend Yourself Against Alien Abduction* covers various resistance techniques, including: • Mental Struggle: Block their mind control • Physical Struggle: Fight back • Righteous Anger: Summon your inviolate rights • Protective Rage: Guard your loved ones • Support from Family Members: Seek strength in numbers • Intuition: Sense them coming • Metaphysical Methods: Create a personal shield • Appeal to Spiritual Personages: Get help from on high • Repellents: Use time-tested fend-off substances Complete with hair-raising true tales of courage and illustrated with eyewitness sketches, *How to Defend Yourself Against Alien Abduction* is the only book with step-by-step instructions on what to do—and not to do—if aliens come knocking on your door.

Abducted Dec 18 2022 They are tiny. They are tall. They are gray. They are green. They survey our world with enormous glowing eyes. To conduct their shocking experiments, they creep in at night to carry humans off to their spaceships. Yet there is no evidence that they exist at all. So how could anyone believe he or she was abducted by aliens? Or want to believe it? To answer these questions, psychologist Susan Clancy interviewed and evaluated “abductees”—old and young, male and female, religious and agnostic. She listened closely to their stories—how they struggled to explain something strange in their remembered experience, how abduction seemed plausible, and how, having suspected abduction, they began to recollect it, aided by suggestion and hypnosis. Clancy argues that abductees are sane and intelligent people who have unwittingly created vivid false memories from a toxic mix of nightmares, culturally available texts (abduction reports began only after stories of extraterrestrials appeared in films and on TV), and a powerful drive for meaning that science is unable to satisfy. For them, otherworldly terror can become a transforming, even inspiring experience. “Being abducted,” writes Clancy, “may be a baptism in the new religion of this millennium.” This book is not only a subtle exploration of the workings of memory, but a sensitive inquiry into the nature of belief.

What Do We Know About Alien Abduction? Mar 21 2023 The *What Do We Know About?* series explores the mysterious, the unknown, and the unexplained. Are there really aliens visiting Earth to observe and interact with humans? In 1961, Betty and Barney Hill claimed to have experienced a bizarre night that included extraterrestrials, flying saucers, and a few lost hours during which they could recall very little until they underwent hypnosis. Their mysterious story was just the first of many that have been told by people who have since come forward with their own similar experiences. Although there are thousands of people who claim to have experienced alien abduction, much of the world remains skeptical. Is alien abduction a real phenomenon that has affected people worldwide or just an imagined shared experience? Could the US government be working to cover up these stories? Here are the the facts about what we really know about Alien Abduction.
