**Nuclear Science Abstracts** Mar 29 2023 NSA is a comprehensive collection of international nuclear science and technology literature for the period 1948 through 1976, pre-dating the prestigious INIS database, which began in 1970. NSA existed as a printed product (Volumes 1-33) initially, created by DOE's predecessor, the U.S. Atomic Energy Commission (AEC). NSA includes citations to scientific and technical reports from the AEC, the U.S. Energy Research and Development Administration and its contractors, plus other agencies and international organizations, universities, and industrial and research organizations. References to books, conference proceedings, papers, patents, dissertations, engineering drawings, and journal articles from worldwide sources are also included. Abstracts and full text are provided if available.

Tartine Bread Aug 10 2021 The Tartine Way — Not all bread is created equal The Bread Book "...the most beautiful bread book yet published..." -- The New York Times, December 7, 2010 Tartine — A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco's Tartine Bakery. At 5 P.M., Chad Robertson's rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco's legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is. Bread making the Tartine Way: Now it's your turn to make this bread with your own hands. Clear instructions and hundreds of step-by-step photos put you by Chad's side as he shows you how to make

exceptional and elemental bread using just flour, water, and salt. If you liked Tartine All Day by Elisabeth Prueitt and Flour Water Salt Yeast by Ken Forkish, you'll love Tartine Bread!

**Seize the High Ground** Mar 17 2022 "[Seize the high ground is a] narrative history of the Army's aerospace experience from the 1950s to the present. The focus is on ballistic missile defense, from the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

**Condition Assessment of Aged Structures** May 31 2023 Any structural system in service is subject to age-related deterioration, leading to potential concerns regarding maintenance, health & safety, environmental and economic implications. Condition assessment of aged structures is an invaluable, single source of information on structural assessment techniques for marine and land-based structures such as ships, offshore installations, industrial plant and buildings. Topics covered include: - Current practices and standards for structural condition assessment - Fundamental mechanisms and advanced mathematical methods for predicting structural deterioration - Residual strength assessment of deteriorated structures - Inspection and maintenance of aged structures - Reliability and risk assessment of aged structures Professionals from a broad range of disciplines will be able to gain a better understanding of current practices and standards for

structural condition assessment or health monitoring, and what future trends might be. Single source of information on structural assessment techniques for marine and land-based structures Examines the residual strength and reliability of aged structures Assesses current practices covering inspection, health monitoring and maintenance

Too Big to Jail Feb 13 2022 American courts routinely hand down harsh sentences to individual convicts, but a very different standard of justice applies to corporations. Too Big to Jail takes readers into a complex, compromised world of backroom deals, for an unprecedented look at what happens when criminal charges are brought against a major company in the United States. Federal prosecutors benefit from expansive statutes that allow an entire firm to be held liable for a crime by a single employee. But when prosecutors target the Goliaths of the corporate world, they find themselves at a huge disadvantage. The government that bailed out corporations considered too economically important to fail also negotiates settlements permitting giant firms to avoid the consequences of criminal convictions. Presenting detailed data from more than a decade of federal cases, Brandon Garrett reveals a pattern of negotiation and settlement in which prosecutors demand admissions of wrongdoing, impose penalties, and require structural reforms. However, those reforms are usually vaguely defined. Many companies pay no criminal fine, and even the biggest blockbuster payments are often greatly reduced. While companies must cooperate in the investigations, high-level employees tend to get off scot-free. The practical reality is that when prosecutors face Hydra-headed corporate defendants prepared to spend hundreds of millions on lawyers, such agreements may be the only way to get any result at all. Too Big to Jail describes concrete ways to improve corporate law enforcement by insisting on more stringent prosecution agreements, ongoing judicial review, and greater transparency.
