Peculiar Questions and Practical Answers Jan 16 2024 The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you've ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, Peculiar Questions and Practical Answers is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left the librarians scratching their heads... "In what occupations may one be barefooted?" "What time does a bluebird sing?" "What does it mean when you're being chased by an elephant?" "What kind of apple did Eve eat?" "How many neurotic people are there in the U.S.?" In Peculiar Questions and Practical Answers, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the library has received since it began record-keeping over seventy-five years ago. One of The New Yorker's best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book

that answers, among others, the question “Does anyone have a copyright on the Bible?”

What If? Feb 10 2021 From the creator of the wildly popular webcomic xkcd, hilarious and informative answers to important questions you probably never thought to ask Millions of people visit xkcd.com each week to read Randall Munroe's iconic webcomic. His stick-figure drawings about science, technology, language, and love have an enormous, dedicated following, as do his deeply researched answers to his fans' strangest questions. The queries he receives range from merely odd to downright diabolical: - What if I took a swim in a spent-nuclear-fuel pool? - Could you build a jetpack using downward-firing machine guns? - What if a Richter 15 earthquake hit New York City? - Are fire tornadoes possible? His responses are masterpieces of clarity and wit, gleefully and accurately explaining everything from the relativistic effects of a baseball pitched at near the speed of light to the many horrible ways you could die while building a periodic table out of all the actual elements. The book features new and never-before-answered questions, along with the most popular answers from the xkcd website. What If? is an informative feast for xkcd fans and anyone who loves to ponder the hypothetical.

All the Answers Jul 18 2021 "A charming, moving, funny, and ultimately very surprising story." --Wendy Mass, New York Times bestselling author of 11 Birthdays What if your pencil were MAGICAL? When Ava Anderson finds an old blue pencil in her family's junk drawer, it doesn't seem like anything special. But then she writes a question in the margin of her math quiz, and she hears a voice

loud and clear--one that nobody else can hear--and it tells her the answer! With the help of her best friend, Sophie, Ava sees that having a magical, all-knowing pencil can be very handy in middle school. But as Ava's reliance on the pencil grows, the truths it reveals about herself and her family lead Ava on an adventure she never expected.

The Quirks & Quarks Question Book Oct 01 2022 • Is there really such a thing as a blue moon? • What time is it at the North Pole? • Why don't woodpeckers get concussed? • Why don't snorers wake themselves with the racket they make? • Do insects sleep? These are just a few of the intriguing questions asked and answered in *The Quirks & Quarks Question Book*, the first question and answer book to come out of CBC Radio's enormously popular weekly science program. Quirks & Quarks producers have combed through ten years' worth of archives to find the most puzzling questions – or the most fascinating answers to apparently simple questions – from the program's Question of the Week segment or its once-a-season all-question show. The scientists and researchers with the answers (many of whom updated their answers for the book in light of new research findings) come from all scientific disciplines and all parts of the country. What they have in common is their ability to explain serious, complicated science in layman's terms. This isn't science made simple, but science made understandable. Introduced by the program's host for the past ten years, the genial and ever-curious Bob McDonald, *The Quirks & Quarks Question Book* has the answers to questions you may never have thought to ask (why does Uranus spin on a different axis from all the other planets in our solar system?) or have spent idle time wondering about (why is there a calm before a storm?). Whether you want to know if you can sweat while you swim or what the view would be like if you could travel at the speed of light, or perhaps you just want to peruse the latest scientific thinking on a wide range of topics, *The Quirks & Quarks Question Book* has the answer. Quirks & Quarks has been keeping Canadians up to date on the world of science for more than 25 years. Every week, the program presents the people behind the latest discoveries in the physical and natural sciences. The program also examines the political, social, environmental, and ethical implications of new developments in science and technology. Over its lifetime, Quirks & Quarks has won more than 40 national and international awards for science journalism.

Interview Answers in a Flash Nov 21 2021 The interview is often the most important step in job hunting, and solid preparation often spells the difference

between a job offer and a friendly good-bye handshake. This book--each page in the form of a Q & A flashcard--offers ideal preparation for that big interview. Questions likely to be asked by an interviewer are printed on one side, with proven answers printed on the reverse. The book is designed so that pages can be pulled out, selected and shuffled according to need, and used as flashcards for practice. Interviewers are notorious for asking a wide range of questions, and this book covers virtually all of them, with 200 Q & A cards that fall into a variety of categories. For instance -- Work and Educations questions (What have you done?): Why did you leave your last job? What did you like most about your last job? What did you like least about it? Have you ever been fired? What is your management style? and many more . . . Skills and Competencies questions (What can you do?): Describe a challenging work issue you had to face. How do you handle an angry employee? and many more . . . Personality/Goals questions (Who are you?): What makes you a good team member? Where do you see yourself five years from now? and many more . . . Behavioral/Situational questions (Can you tell a story?): Tell me about a time when you had to juggle priorities to meet a deadline, and many more . . . Job Fit questions (Are you a match?): How would you describe your ideal work environment? What aspects of the job will you like least? and many more . . . Torture/Trick questions (Can you take the heat?): Why should we hire you for this position? What do you expect your starting salary to be? How do I rate as an interviewer? . . . The reverse side of each card tells why the question is asked, presents sample responses, and allows space to customize an answer. Here is an unusual and effective job-hunting tool that will be valued by job applicants, career coaches/counselors, and college placement offices.

Questions Are the Answer Jan 04 2023 2018 Nautilus Book Awards Silver Winner What if you could unlock a better answer to your most vexing problem—in your workplace, community, or home life—just by changing the question? Talk to creative problem-solvers and they will often tell you, the key to their success is asking a different question. Take Debbie Sterling, the social entrepreneur who created GoldieBlox. The idea came when a friend complained about too few women in engineering and Sterling wondered aloud: "why are all the great building toys made for boys?" Or consider Nobel laureate Richard Thaler, who asked: "would it change economic theory if we stopped pretending people were rational?" Or listen to Jeff Bezos whose relentless approach to problem solving has fueled Amazon's exponential growth: "Getting the right question is key to getting the right answer." Great questions like these have a catalytic quality—that is, they dissolve barriers to creative thinking and channel the pursuit of solutions into new, accelerated pathways. Often, the moment they are voiced, they have the paradoxical effect of being utterly surprising yet instantly obvious. For innovation and leadership guru Hal Gregersen, the power of

questions has always been clear—but it took some years for the follow-on question to hit him: If so much depends on fresh questions, shouldn't we know more about how to arrive at them? That sent him on a research quest ultimately including over two hundred interviews with creative thinkers. Questions Are the Answer delivers the insights Gregersen gained about the conditions that give rise to catalytic questions—and breakthrough insights—and how anyone can create them.

The Book of Answers Jun 21 2024 An updated, repackaged edition of the bestselling divination tool and party favorite - ask a yes or no question, open the book, find your answer - with more than a million copies in print. Should you ask your boss for a raise? Call that cutie you met at a party? Sell your Google stock? Tell your best friend her boyfriend's cheating? The answer to these questions (and hundreds of others) is in this fun and weirdly wise little book that's impossible to put down. It's simple to use: just hold it closed in your hands and concentrate on your question for a few seconds. While visualizing or speaking your question, place one palm down on the book's front and stroke the edge of the pages back to front. When you sense the time is right, open to the page your fingers landed on and there is your answer! Fun, satisfying, and a lot less time-consuming than asking everyone you know for advice. Over 1 million copies in print!

Can a Bee Sting a Bee? Feb 17 2024
In the spirit of Schott's Miscellany, The
Magic of Reality, and The Dangerous Book for Boys comes Can a Bee Sting a
Bee?—a smart, illuminating, essential, and utterly delightful handbook for
perplexed parents and their curious children. Author Gemma Elwin Harris has
lovingly compiled weighty questions from precocious grade school
children—queries that have long dumbfounded even intelligent adults—and
she's gathered together a notable crew of scientists, specialists, philosophers,
and writers to answer them. Authors Mary Roach and Phillip Pullman,
evolutionary biologist Richard Dawkins, chef Gordon Ramsay, adventurer Bear
Gryllis, and linguist Noam Chomsky are among the top experts responding to the
Big Questions from Little People, ("Do animals have feelings?", "Why can't I
tickle myself?", "Who is God?") with well-known comedians, columnists, and
raconteurs offering hilarious alternative answers. Miles above your average
general knowledge and trivia collections, this charming compendium is a book
fans of the E.H. Gombrich classic, A Little History of the World, will adore.
