Myth America Jun 25 2023 In this instant New York Times bestseller, America's top historians set the record straight on the most pernicious myths about our nation's past. The United States is in the grip of a crisis of bad history. Distortions of the past promoted in the conservative media have led large numbers of Americans to believe in fictions over facts, making constructive dialogue impossible and imperiling our democracy. In *Myth America*, Kevin M. Kruse and Julian E. Zelizer have assembled an all-star team of fellow historians to push back against this misinformation. The contributors debunk narratives that portray the New Deal and Great Society as failures, immigrants as hostile invaders, and feminists as anti-family warriors—among numerous other partisan lies. Based on a firm foundation of historical scholarship, their findings revitalize our understanding of American history. Replacing myths with research and reality, *Myth America* is essential reading amid today's heated debates about our nation's past. The 10 Big Lies about America Dec 20 2022 Talk radio host Medved zeroes in on what he considers ten of the biggest fallacies that millions of Americans believe about our country-- in spite of facts to the contrary.

No More Lies Jul 15 2022 Republished as part of Amistad's Literary Revival Program, the groundbreaking, bestselling look at history from the perspective of African Americans: an essential classic that continues to speak to us today, written by the voice of black consciousness, Dick Gregory—the incomparable satirist, human rights and environmental activist, health

advocate, social justice champion, and NAACP Image Award–winning author. In 1972, during the Black Power Movement, iconoclast Dick Gregory challenged one of the foundations of America itself—its history, which had been written almost exclusively from the white male perspective. In *No More Lies*, this true trailblazer gave voice to African Americans, speaking their truth about the past and race relations in the United States. *No More Lies* offers this incomparable satirist’s intellectual, conspiratorial, and humorous spin on the facts. No subject is off limits from his critical eye—Gregory examines numerous aspects of culture and history, from the slave trade, police brutality, the wretchedness of working-class life and labor unions to the 1968 Civil Rights Act, the Founding Fathers, “happy slaves,” and entrepreneurs. Although this absorbing book is more than forty years old, its provocative truths continue to reverberate in our lives today. With *No More Lies*, Gregory inspire a new generation to connect what is happening today with what has happened in the past.

Republic of Lies Nov 06 2021 _____ ‘Timely and troubling’ Evening Standard ‘A necessary book’ David Aaronovitch ‘Frequently jaw-dropping’ Huffington Post From UFOs to the New World Order, the inside story of how conspiracy theories won over America. In November 2017, a serial climate change denier and anti-vaxxer was elected President of the United States. The rise of Donald Trump marked the beginning of a new American epoch: the age of the conspiracy theorist. Now, Anna Merlan goes undercover in America’s sprawling network of conspiracy theorists and uncovers their secrets. She meets the UFOlogist who claims to have travelled to Mars with a young Barack Obama. She chats with the ‘pizzagate’ truthers who think Washington D.C.’s favourite pizzeria is run by a satanic paedophile ring. And she bumps into Alex Jones, the YouTube impresario who thinks the state is using chemical warfare to turn the population gay – and who happens to be on first-name terms with the leader of the free world. Merlan reveals a world of innuendo and propaganda lying just beneath the surface of US culture. It might just help explain the political turmoil of our time. _____ ‘Through exhaustive research, personal interviews, and a critical yet at times appropriately empathetic approach, writer Anna Merlan has written a captivating book that illuminates the landscape of conspiracy theories.’ New York Magazine ‘An entertaining taxonomy of toxic ideas’ Herald ‘A rock-steady narrator with a ready command of history, nerves of steel, and incisive social insights . . . We need a thousand of her, or a million.’ The Nation **Fake News Nation** Jun 13 2022 Fake News Nation tells the story of how

false information has flooded American public life for over 230 years. The authors show how lies, misrepresentations, and rumors have drawn America into wars, covered up assassinations, influenced national elections, and impacted contentious policy issues such as the effects of smoking and climate change.

935 Lies Aug 28 2023 Facts are and must be the coin of the realm in a democracy, for government "of the people, by the people and for the people," requires and assumes to some extent an informed citizenry. Unfortunately, for citizens in the United States and throughout the world, distinguishing between fact and fiction has always been a formidable challenge, often with real life and death consequences. But now it is more difficult and confusing than ever. The Internet Age makes comment indistinguishable from fact, and erodes authority. It is liberating but annihilating at the same time. For those wielding power, whether in the private or the public sector, the increasingly sophisticated control of information is regarded as utterly essential to achieving success. Internal information is severely limited, including calendars, memoranda, phone logs and emails. History is sculpted by its absence. Often those in power strictly control the flow of information, corroding and corrupting its content, of course, using newspapers, radio, television and other mass means of communication to carefully consolidate their authority and cover their crimes in a thick veneer of fervent racialism or nationalism. And always with the specter of some kind of imminent public threat, what Hannah Arendt called "objective enemies." An epiphanic, public comment about the Bush "war on terror" years was made by an unidentified White House official revealing how information is managed and how the news media and the public itself are regarded by those in power: "[You journalists live] "in what we call the reality-based community. [But] that's not the way the world really works anymore. We're an empire now, and when we act, we create our own reality . . . we're history's actors . . . and you, all of you, will be left to just study what we do." And yet, as aggressive as the Republican Bush administration was in attempting to define reality, the subsequent, Democratic Obama administration may be more so. Into the battle for truth steps Charles Lewis, a pioneer of journalistic objectivity. His book looks at the various ways in which truth can be manipulated and distorted by governments, corporations, even lone individuals. He shows how truth is often distorted or diminished by delay: truth in time can save terrible erroneous choices. In part a history of communication in America, a *cri de coeur* for the principles and practice of objective reporting, and a journey into

several notably labyrinths of deception, 935 Lies is a valorous search for honesty in an age of casual, sometimes malevolent distortion of the facts. Telling Lies in Modern American Autobiography Aug 16 2022 All autobiographers are unreliable narrators. Yet what a writer chooses to misrepresent is as telling -- perhaps even more so -- as what really happened. Timothy Adams believes that autobiography is an attempt to reconcile one's life with one's self, and he argues in this book that autobiography should not be taken as historically accurate but as metaphorically authentic. Adams focuses on five modern American writers whose autobiographies are particularly complex because of apparent lies that permeate them. In examining their stories, Adams shows that lying in autobiography, especially literary autobiography, is not simply inevitable. Rather it is often a deliberate, highly strategic decision on the author's part. Throughout his analysis, Adams's standard is not literal accuracy but personal authenticity. He attempts to resolve some of the paradoxes of recent autobiographical theory by looking at the classic question of design and truth in autobiography from the underside -- with a focus on lying rather than truth. Originally published in 1990. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

No More Lies Apr 23 2023

American Conspiracies Nov 18 2022 The outspoken former Navy SEAL and Minnesota governor takes a look at the gap between what the American government knows and what it reveals to its people, shedding light on such events as the recent economic collapse, the 9/11 attacks, the elections of George W. Bush and the assassinations of Abraham Lincoln, John F. Kenney and Martin Luther King, Jr.

48 Liberal Lies about American History Nov 30 2023

Lies the Government Told You Jul 27 2023 **YOU'VE BEEN LIED TO BY THE GOVERNMENT** We shrug off this fact as an unfortunate reality.

America is the land of the free, after all. Does it really matter whether our politicians bend the truth here and there? When the truth is traded for lies, our freedoms are diminished and don't return. In Lies the Government Told You, Judge Andrew P. Napolitano reveals how America's freedom, as guaranteed by the U.S. Constitution, has been forfeited by a government more protective of its own power than its obligations to preserve our individual liberties.

“Judge Napolitano’s tremendous knowledge of American law, history, and politics, as well as his passion for freedom, shines through in *Lies the Government Told You*, as he details how throughout American history, politicians and government officials have betrayed the ideals of personal liberty and limited government.” —Congressman Ron Paul, M.D. (R-TX), from the Foreword

Lies (and the Lying Liars Who Tell Them) Dec 08 2021 Al Franken, one of America's savviest satirists has been studying the rhetoric of the Right. He has listened to their cries of 'slander', 'bias' and even 'treason'. He has examined the Bush administration's policies of squandering our surplus, ravaging the environment, and alienating the rest of the world. He's even watched Fox News. A lot. And in this fair and balanced report, Al bravely exposes them all for what they are: liars. Lying, lying, liars.

Lies My Teacher Told Me about Christopher Columbus Jan 09 2022 Some myths don't die, and lies are still being told about Christopher Columbus: that he 'discovered' the Americas, that the land was sparsely populated by native people, that those people were primitive and that they submitted to Columbus's 'God-like' authority. Loewen disproves the myths about Columbus still enshrined in American textbooks with quotations from primary source material that sets the record straight. The poster and accompanying 48-page paperback book sum up the mistellings - and reveal the real story - in a graphically appealing and accessible format.

Teaching What Really Happened Jan 01 2024 “Should be in the hands of every history teacher in the country.”— Howard Zinn James Loewen has revised *Teaching What Really Happened*, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good

performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

The Myths that Divide Us Mar 11 2022

Fake News Nation Feb 07 2022 How rumors, lies, and misrepresentations shaped American history After the election of Donald Trump as president, people in the United States and across large swaths of Europe, Latin America, and Asia engaged in the most intensive discussion in modern times about falsehoods pronounced by public officials. Fake facts in their various forms have long been present in American life, particularly in its politics, public discourse, and business activities – going back to the time when the country was formed. This book explores the long tradition of fake facts, in their various guises, in American history. It is one of the first historical studies to place the long history of lies and misrepresentation squarely in the middle of American political, business, and science policy rhetoric. In *Fake News Nation*, James Cortada and William Aspray present a series of case studies that describe how lies and fake facts were used over the past two centuries in important instances in American history. Cortada and Aspray give readers a perspective on fake facts as they appear today and as they are likely to appear in the future.

50 Myths and Lies That Threaten America's Public Schools May 01 2021

This book is guaranteed to spark lively debates and critical thinking in any classroom! Two of the most respected voices in education identify 50 myths and lies that threaten America's public schools. Berliner and Glass argue that many citizens' conception of K12 public education in the United States is more myth than reality. Warped opinions about our nation's public schools include: they are inferior to private schools; they are among the worst in the world in math and science; teachers should be fired if their students don't score at the national average, and on and on. With more than a little humor, Berliner and Glass separate fact from fiction in this comprehensive look at modern education reform. They explain how the mythical failure of public education has been created and perpetuated in large part by political and economic interests who stand to gain from its destruction. They expose a rapidly expanding variety of organizations and media that intentionally misrepresent facts. Where appropriate, they name the promoters of the hoax

and point out how their interests are served by encouraging false beliefs. Their method of debunking these falsehoods is to argue against their logic, criticize the data supporting them, and present more credible contradictory data. This dynamic book features short essays on important topics to provide every teacher, administrator, school board member, and concerned parent with reliable knowledge from authoritative sources.

Lies My Teacher Told Me Mar 30 2021 *Lies My Teacher Told Me* is one of the most important and successful American history books of our time. Now Rebecca Stefoff turns Loewen's beloved work into *Lies My Teacher Told Me for Young Readers*. Beginning with pre-Columbian American history and then covering characters and events as diverse as Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen's lively, provocative telling of American history is a 'counter-textbook that retells the story of the American past' (*The Nation*). Readers will welcome and value its honesty, its humour, and its integrity.

The 10 Big Lies About America May 05 2024 "It ain't so much the things we don't know that get us into trouble," nineteenth-century humorist Josh Billings remarked. "It's the things we know that just ain't so." In this bold New York Times bestseller, acclaimed author and talk-radio host Michael Medved zeroes in on ten of the biggest fallacies that millions of Americans believe about our country—in spite of incontrovertible evidence to the contrary. The Big Lies exposed and dissected include: • America was founded on genocide against Native Americans. • The United States is uniquely guilty for the crime of slavery and built its wealth on stolen African labor. • Aggressive governmental programs offer the only remedy for economic downturns and poverty. • The Founders intended a secular, not Christian, nation. Each of the ten lies is a grotesque, propagandistic misrepresentation of the historical record. Medved's witty, well-documented rebuttal supplies the ammunition necessary to fire back the next time somebody tries to recycle destructive distortions about our nation.

Lies My Teacher Told Me Oct 30 2023 "Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and

the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the New York Times. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the San Francisco Chronicle calls "an extremely convincing plea for truth in education." In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

Here Lies America Jan 21 2023 *Here Lies America* is a fast-paced, hilarious travel narrative in which Jason Cochran visits the major American tourism attractions that exist because something really horrible happened there. He romps through disaster zones, battlefields, terrorist attack sites--as long as it has a parking lot and a gift shop, he put it on the itinerary, no gravestone unturned. Along the way, he takes a look at the motivations of the people who installed the monuments, and when he pauses to seek the meaning behind the early demise of one of his own ancestors, he uncovers a tragic race-based murder plot that had been buried for a century. This is an American journey that could only be undertaken in our turbulent times, celebrating the absurd while surveying the country's teetering patriotic mythology from a healthy position on the margins. Jason chases newspaper clippings in dusty archives to inscriptions on rusty plaques to get to the truth, and in doing so, creates a moving miniature portrait of what it really means to be an American: what's "fact," what's "history," and what really matters.

48 Liberal Lies About American History Mar 23 2023 Over the last forty years, history textbooks have become more and more politically correct and distorted about our country's past, argues professor Larry Schweikart. The result, he says, is that students graduate from high school and even college with twisted beliefs about economics, foreign policy, war, religion, race relations, and many other subjects. As he did in his popular *A Patriot's History of the United States*, Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted

books by name and debunks forty-eight common myths. A sample: • The founders wanted to create a “wall of separation” between church and state • Lincoln issued the Emancipation Proclamation only because he needed black soldiers • Truman ordered the bombing of Hiroshima to intimidate the Soviets with "atomic diplomacy" • Mikhail Gorbachev, not Ronald Reagan, was responsible for ending the Cold War America’s past, though not perfect, is far more admirable than you were probably taught.

The Age of American Unreason Oct 06 2021 A scathing indictment of American modern-day culture examines the current disdain for logic and evidence fostered by the mass media, religious fundamentalism, poor public education, a lack of fair-minded intellectuals, and a lazy, credulous public, condemning our addiction to infotainment, from TV to the Web, and assessing its repercussions for the country as a whole. Reprint. 75,000 first printing.

Donald Trump and His Assault on Truth Jan 26 2021 A NATIONAL BESTSELLER In perilous times, facts, expertise, and truth are indispensable. President Trump’s flagrant disregard for the truth and his self-aggrandizing exaggerations, specious misstatements, and bald-faced lies have been rigorously documented and debunked since the first day of his presidency by The Washington Post’s Fact Checker staff. Donald Trump and His Assault on Truth is based on the only comprehensive compilation and analysis of the more than 16,000 fallacious statements that Trump has uttered since the day of his inauguration. He has repeated many of his most outrageous claims dozens or even hundreds of times as he has sought to bend reality to his political fantasy and personal whim. Drawing on Trump’s tweets, press conferences, political rallies, and TV appearances, The Washington Post identifies his most frequently used misstatements, biggest whoppers, and most dangerous deceptions. This book unpacks his errant statements about the economy, immigration, the impeachment hearings, foreign policy, and, of critical concern now, the coronavirus crisis as it unfolded. Fascinating, startling, and even grimly funny, Donald Trump and His Assault on Truth by The Washington Post is the essential, authoritative record of Trump’s shocking disregard for facts.

Why the Left Hates America Oct 18 2022 "The American flag stands for hatred, warmongering, and imperialism." "Our free-market system is responsible for killing and oppressing millions of people." "This country breeds racists and sexists." Is America really that bad? It is if you accept the lies and propaganda from the anti-American Left in our own country. This

dismal, distorted view of the greatest, freest nation in history comes from a Left who would rather idolize Ho Chi Minh and Fidel Castro than honor George Washington and Thomas Jefferson, who burn down businesses and destroy property to protest free markets, and who fight alongside radical terrorists rather than against them. They trample the Constitution while hiding behind the First Amendment, and their idea of displaying the American flag is setting it on fire and parading it through the streets. Yes, this is a Left comprised of people who truly hate their country, and they will stop at nothing to tear her down—smashing our liberty in the process. Why the Left Hates America punches a hole right through the thin veneer of political correctness that has long protected these anti-Americans—exposing their rotting, vacuous core. Author and commentator Daniel J. Flynn digs deep into the American Left and reveals why they blame every bad deed in the world on the United States, while ignoring her myriad contributions. This book cogently points out that, of course, all Americans have the right to speak their minds. But, all too often, the actions by the anti-American Left become destructive and anarchistic. You need not look any further than the explosive 1999 World Trade Organization "protests" in Seattle, campus book burnings, or even John Walker Lindh to see that factions on the Left are the worst perpetrators of anti-Americanism. And what may be most shocking is that many of these anti-Americans are at the same time teachers, professors, journalists, news reporters, and even judges and politicians. Probing and controversial—without devolving into jingoism—this book proves once and for all that what you see in the news and learn in school is often tainted by the anti-American Left, and it shows you what you can do to keep them at bay. [Twelve Lies That Hold America Captive](#) Sep 04 2021 The president is not the Messiah, the Constitution is not the Bible, and the United States is not a city on a hill or the hope for the world. Jonathan Walton exposes the cultural myths and misconceptions about America's identity, showing how our notions of life, liberty, and the pursuit of happiness are at odds with the call to take up our cross and follow Jesus. Discover how the kingdom of God offers true freedom and justice for all.

Lies My Teacher Told Me Jun 01 2021 Why do so many Americans have little grasp of the ideas that shaped their nation? In this groundbreaking book, Loewen not only exposes the villain--textbooks that are embarrassing combinations of blind patriotism and outright lies--but reinstates suppressed information in a fascinating chronology. 26 photos.

Why Leaders Lie Feb 19 2023 Presents an analysis of the lying behavior of

political leaders, discussing the reasons why it occurs, the different types of lies, and the costs and benefits to the public and other countries that result from it, with examples from the recent past.

White Lies Aug 04 2021 *White Lies* considers African-American bodies as the site of cultural debates over a contested "white religion" in the United States. Rooting his analysis in the work of W.E.B. DuBois and James Baldwin, Christopher Driscoll traces the shifting definitions of "white religion" from the nineteenth century up to the death of Michael Brown and other racial controversies of the present day. He engages both modern philosophers and popular imagery to isolate the instabilities central to a "white religion," including the inadequacy of this framing concept as a way of describing and processing death. The book will be of interest to students and scholars interested in African-American Religion, philosophy and race, and Whiteness Studies.

Red Earth, White Lies Jul 03 2021 Vine Deloria, Jr., leading Native American scholar and author of the best-selling *God is Red*, addresses the conflict between mainstream scientific theory about our world and the ancestral worldview of Native Americans. Claiming that science has created a largely fictional scenario for American Indians in prehistoric North America, Deloria offers an alternative view of the continent's history as seen through the eyes and memories of Native Americans. Further, he warns future generations of scientists not to repeat the ethnocentric omissions and fallacies of the past by dismissing Native oral tradition as mere legends.

When Presidents Lie Sep 28 2023 Assesses the impact of governmental and presidential lies on American culture, revealing how such lies become ever more complex and how such deception creates problems far more serious than those lied about in the beginning.

Law and Lies May 13 2022 This is the first book to thematically investigate lying in the American legal system.

Nine Lies about America Mar 03 2024

50 Myths and Lies That Threaten America's Public Schools Feb 27 2021 Two of the most respected voices in education and a team of young education scholars identify 50 myths and lies that threaten America's public schools. With hard-hitting information and a touch of comic relief, Berliner, Glass, and their Associates separate fact from fiction in this comprehensive look at modern education reform. They explain how the mythical failure of public education has been created and perpetuated in large part by political and economic interests that stand to gain from its destruction. They also expose a

rapidly expanding variety of organizations and media that intentionally misrepresent facts. Many of these organizations also suggest that their goal is unbiased service in the public interest when, in fact, they represent narrow political and financial interests. Where appropriate, the authors name the promoters of these deceptions and point out how they are served by encouraging false beliefs. This provocative book features short essays on important topics to provide every elected representative, school administrator, school board member, teacher, parent, and concerned citizen with much food for thought, as well as reliable knowledge from authoritative sources.

“Berliner and Glass are long-time critics of wrong-headed education reforms. *50 Myths and Lies* continues their record of evidence-based truth-telling. Joined by 19 young scholars in identifying 50 of the worst ideas for changing our nation's schools, they are able to sort through the cacophony of today's all too often ill-informed debate. Anyone involved in making decisions about today's schools should read this book.” —Linda Darling-Hammond, Charles E. Ducommun Professor of Education, Stanford University “This book is true grit. It's the gritty reality of hard data. It's the irritating grit that makes you shift in your seat. And it's the grit that sometimes makes you want to weep. Well argued, well written—whether you agree or disagree with this book, if you care about the future of public education, you mustn't ignore it.” —Andy Hargreaves, professor, Thomas More Brennan Chair in Education, Lynch School of Education, Boston College “*50 Myths and Lies* is a powerful defense of public education and a discerning refutation of the reckless misimpressions propagated by a juggernaut of private-sector forces and right-wing intellectuals who would gladly rip apart the legacy of democratic schooling in America. It is a timely and hard-hitting book of scholarly but passionate polemic. The teachers of our children will be grateful.”

—Jonathan Kozol, educator, author of *Fire in the Ashes* “What do you get when two world-class scholars and a team of talented analysts take a hard look at 50 widely held yet unsound beliefs about U.S. public schools? Well, in this instance you get a flat-out masterpiece that, by persuasively blending argument and evidence, blasts those beliefs into oblivion. Required reading? You bet!” —W. James Popham, professor emeritus, UCLA David C. Berliner is an educational psychologist and bestselling author. He was professor and dean of the Mary Lou Fulton Institute and Graduate School of Education at Arizona State University. Gene V Glass is a senior researcher at the National Education Policy Center and a research professor in the School of Education at the University of Colorado Boulder. Their Associates are the hand-picked

leading PhDs and PhDs in training from their respective institutions.

The 5 Big Lies About American Business Apr 11 2022 WHY FEEL EMBARRASSED BY BUSINESS? Every American benefits every day from the phenomenal productivity of the free market, so why do so many people feel guilty or skeptical about our business system? In this passionately argued, eye-opening book, talk-radio star and bestselling author Michael Medved provides detailed and devastating rebuttals to the most widely circulated smears against capitalism. MYTH: Big business is bad, small business is good. TRUTH: Every big business began life as a small business, and every small business today yearns for enough success to become a big business tomorrow. For some products—like cars or electrical power—little companies can't benefit their workers or customers as reliably as huge corporations. MYTH: Business executives are overpaid and corrupt. TRUTH: Top leaders will always command top dollar, and a company can't limit executive pay without limiting its access to talent. Ferocious, long-term competition in the corporate world ultimately rewards focus and hard work, not short cuts and corruption. MYTH: You can count on better treatment from the government than from business. TRUTH: If a private company deals with you poorly, you can take your business elsewhere. But with the government's power, you get only two choices: compliance or jail. Medved responds to business-bashing lies with the slashing wit, irrefutable facts, fascinating historical nuggets, illuminating anecdotes, and liberating clarity that made him one of the top-ten talk-radio hosts in the United States. This audacious and urgently needed book provides energy and inspiration for a beleaguered free-market system poised for its unstoppable comeback.

Spies, Lies, and Algorithms Sep 16 2022 Intelligence challenges in the digital age : Cloaks, daggers, and tweets -- The education crisis : How fictional spies are shaping public opinion and intelligence policy -- American intelligence history at a glance-from fake bakeries to armed drones -- Intelligence basics : Knowns and unknowns -- Why analysis is so hard : The seven deadly biases -- Counterintelligence : To catch a spy -- Covert action - "a hard business of agonizing choices" -- Congressional oversight : Eyes on spies -- Intelligence isn't just for governments anymore : Nuclear sleuthing in a Google earth world -- Decoding cyber threats.

Lies Across America Apr 04 2024 A fully updated and revised edition of the book USA Today called "jim-dandy pop history," by the bestselling, American Book Award-winning author "The most definitive and expansive work on the Lost Cause and the movement to whitewash history." —Mitch

Landrieu, former mayor of New Orleans From the author of the national bestseller *Lies My Teacher Told Me*, a completely updated—and more timely than ever—version of the myth-busting history book that focuses on the inaccuracies, myths, and lies on monuments, statues, national landmarks, and historical sites all across America. In *Lies Across America*, James W. Loewen continues his mission, begun in the award-winning *Lies My Teacher Told Me*, of overturning the myths and misinformation that too often pass for American history. This is a one-of-a-kind examination of historic sites all over the country where history is literally written on the landscape, including historical markers, monuments, historic houses, forts, and ships. New changes and updates include: • a town in Louisiana that was the site of a major but now-forgotten enslaved persons' uprising • a totally revised tour of the memory and intentional forgetting of slavery and the Civil War in Richmond, Virginia • the hideout of a gang in Delaware that made money by kidnapping free blacks and selling them into slavery Entertaining and enlightening, *Lies Across America* also has a serious role to play in contemporary debates about white supremacy and Confederate memorials. *Lies My Teacher Told Me* Feb 02 2024 Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history.

Slander May 25 2023 The hottest and most controversial book of the year! Find out who really controls the media in America. “[Ann Coulter] is never in doubt. And that, along with her bright writing, sense of irony and outrage, and her relish at finally hitting back at political opponents (especially in the media) is what makes *Slander* such refreshing and provocative reading.” —Los Angeles Times “[Ann Coulter] is a fluent polemicist with a gift for Menckenesque invective . . . and she can harness such language to subtle, syllogistic argument.” —Washington Post Book World “The most popular nonfiction book in America.”—New York Times “The real value of *Slander* . . . is not in the jokes or devastating exposés of liberal politicians and their allies, but the serious and scholarly study of just how entrenched the media prejudice is against anyone whose politics are even faintly conservative.” —New York Sun “Written with a great deal of passion . . . the real source of its strength—and its usefulness—was its painstaking marshalling of evidence . . . More important than [High Crimes and Misdemeanors] because it addresses a much broader issue, and one of lasting significance.”—National Review

48 Liberal Lies about American History Jun 06 2024 As he did in his

popular "A Patriot's History of the United States," Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks 48 common myths.
