Illiterate America Jonathan Kozol,2011-11-02 It is startling and it is shaming in a country that prides itself on being among the most enlightened in the world 25 million American adults cannot read the poison warnings on a can of pesticide a letter from their child's teacher or the front page of a newspaper An additional 35 million read below the level needed to function successfully in our society The United States ranks forty ninth among 158 member nations of the UN in literacy and wastes over 100 billion annually as a result The problem is not merely an embarrassment it is a social and economic disaster In *Illiterate America* Jonathan Kozol author of National Book Award winning *Death at an Early Age*

addresses this national disgrace Combining hard statistics and heartrending stories he describes the economic and the human costs of illiteracy Kozol analyses and condemns previous government action and inaction and in a passionate call for reform he proposes a specific program to conquer illiteracy One out of every three American adults cannot read this book which is why everyone else must

The Argument Culture Deborah Tannen, 2012-10-24 In her number one bestseller *You Just Don't Understand* Deborah Tannen showed why talking to someone of the other sex can be like talking to someone from another world Her bestseller *Talking from 9 to 5* did for workplace communication what *You Just Don't Understand* did for personal relationships Now Tannen is back with another groundbreaking book this time widening her lens to examine the way we communicate in public in the media in politics in our courtrooms and classrooms once again letting us see in a new way forces that have been powerfully shaping our lives *The Argument Culture* is about a pervasive warlike atmosphere that makes us approach anything we need to accomplish as a fight between two opposing sides The argument culture urges us to regard the world and the people in it in an adversarial frame of mind It rests on the assumption that opposition is the best way to get anything done The best way to explore an idea is to set up a debate the best way to cover the news is to find spokespeople who express the most extreme polarized views and present them as both sides the best way to settle disputes is litigation that pits one party against the other the best way to begin an essay is to oppose someone and the best way to show you're really thinking is to criticize and attack Sometimes these approaches work well but often they create more problems than they solve Our public encounters have become more and more like having an argument with a spouse You're not trying to understand what the other person is saying you're just trying to win the argument But just as spouses have to learn ways of settling differences without inflicting real damage on each other so we as a society have to find constructive and creative ways of resolving disputes and differences Public discussions require making an argument for a point of view not having an argument as in having a fight The war on drugs the war on cancer the battle of the sexes politicians turf battles in the argument culture war metaphors pervade our talk and shape our thinking Tannen shows how deeply entrenched this cultural tendency is the forms it takes and how it affects us every day sometimes in useful ways but often causing rather than avoiding damage In the argument culture the quality of information we receive is compromised and our spirits are corroded by living in an atmosphere of unrelenting contention Tannen explores the roots of the argument culture the role played by gender and how other cultures suggest alternative ways to negotiate disagreement and mediate conflicts and make things better in public and in private wherever people are trying to resolve differences and get things done *The Argument Culture* is a remarkable book that will change forever the way you perceive the world You will listen to our public voices in a whole new way
