International Encyclopedia of Housing  
and Home Dec 24 2021 Available online via  
SciVerse ScienceDirect, or in print for a  
limited time only, The International  
Encyclopedia of Housing and Home, Seven  
Volume Set is the first international

reference work for housing scholars and professionals, that uses studies in economics and finance, psychology, social policy, sociology, anthropology, geography, architecture, law, and other disciplines to create an international portrait of housing in all its facets: from meanings of home at the microscale, to impacts on macro-economy. This comprehensive work is edited by distinguished housing expert Susan J. Smith, together with Marja Elsinga, Ong Seow Eng, Lorna Fox O'Mahony and Susan Wachter, and a multi-disciplinary editorial team of 20 world-class scholars in all. Working at the cutting edge of their subject, liaising with an expert editorial advisory board, and engaging with policy-makers and professionals, the editors have worked for almost five years to secure the quality, reach, relevance and coherence of this work. A broad and inclusive table of contents signals (or testifies to) detailed investigation of historical and theoretical material as well as in-depth analysis of current issues. This seven-volume set contains

over 500 entries, listed alphabetically, but grouped into seven thematic sections including methods and approaches; economics and finance; environments; home and homelessness; institutions; policy; and welfare and well-being. Housing professionals, both academics and practitioners, will find *The International Encyclopedia of Housing and Home* useful for teaching, discovery, and research needs. International in scope, engaging with trends in every world region The editorial board and contributors are drawn from a wide constituency, collating expertise from academics, policy makers, professionals and practitioners, and from every key center for housing research Every entry stands alone on its merits and is accessed alphabetically, yet each is fully cross-referenced, and attached to one of seven thematic categories whose 'wholes' far exceed the sum of their parts

***Kidney for Sale by Owner* Oct 02 2022** If most Americans accept the notion that the market is the most efficient means to distribute resources, why should body parts be excluded? Each year thousands of people die waiting for organ transplants. Many of these deaths could have been prevented were it not for the almost universal moral hand-wringing over the concept of selling human organs. ***Kidney for Sale by Owner***, now with a new preface, boldly deconstructs the roadblocks that are standing in the way of restoring health to thousands of people. Author and bioethicist Mark Cherry reasserts the case that health care could be improved and lives saved by introducing a regulated transplant organs market rather than by well-meant, but misguided, prohibitions.

Book Ownership in Stuart England Sep 13  
2023 This volume provides a wide-ranging  
account of the development and importance  
of private libraries and book ownership  
through the seventeenth century, based  
upon many kinds of evidence, including  
examination of thousands of books, and a  
list of over 1,300 known owners from  
diverse backgrounds. It considers  
questions of evolution, contents and  
size, and motives for book ownership,  
during a century when growing markets for  
both new and second-hand books meant that  
books would be found, in varying numbers,  
in the homes of all kinds of people from  
the humble to the wealthy. Book ownership  
by women, and by non-professional  
households, is explicitly explored. Other  
topics include the balance of motivation  
between books for use, or for display;  
the relationship between libraries and  
museums; and cultures of collecting.

While presenting a wealth of information in this field, conveniently brought together, this volume also advances methodologies for book history, and makes extensive use of material evidence such as bookbindings. It challenges received wisdom around priorities for studying private libraries, and the terminology which is appropriate to use. In addition, the list of owners, detailed in the Appendix, make this book a work of permanent reference, alongside its value in advancing book history.

Network World Mar 27 2022 For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce.
