Howard,1961 Materials Science and Engineering William D. Callister,David G. Rethwisch,2011 Building on the success of  
previous editions this book continues to provide engineers with a strong understanding of the three primary types of  
materials and composites as well as the relationships that exist between the structural elements of materials and their  
properties The relationships among processing structure properties and performance components for steels glass ceramics  
polymer fibers and silicon semiconductors are explored throughout the chapters The discussion of the construction of  
crystallographic directions in hexagonal unit cells is expanded At the end of each chapter engineers will also find revised  
summaries and new equation summaries to reexamine key concepts Nickel, Cobalt, and Their Alloys Joseph R.  
Davis,2000-01-01 This book is a comprehensive guide to the compositions properties processing performance and  
applications of nickel cobalt and their alloys It includes all of the essential information contained in the ASM Handbook series  
as well as new or updated coverage in many areas in the nickel cobalt and related industries
