Borges and Kafka, Bolaño and Bloom Juan E. De Castro, 2022-02-15 At a time in which many in the United States see Spanish America as a distinct and for some threatening culture clearly differentiated from that of Europe and the US it may be of use to look at the works of some of the most representative and celebrated writers from the region to see how they imagined their relationship to Western culture and literature In fact while authors across stylistic and political divides like Gabriela Mistral Jorge Luis Borges or Gabriel García Márquez see their work as being framed within the confines of a globalized Western literary tradition their relationship rather than epigonal is often subversive Borges and Kafka Bolaño and Bloom is a parsing not simply of these authors reactions to a canon but of the notion of canon writ large and the inequities and erasures therein It concludes with a look at the testimonial and autobiographical writings of Rigoberta Menchú and Lurgio Gavilán who arguably represent the trajectory of Indigenous testimonial and autobiographical writing during the last forty years noting how their texts represent alternative ways of relating to national and on occasion Western cultures This study is a new attempt to map writers diverse ways of thinking about locality and universality from within and without what is known as the canon

The Cord Keepers Frank L. Salomon, 2004-10-29 None of the world's lost writings have proven more perplexing than the mysterious script in which the Inka Empire kept its records Ancient Andean peoples encoded knowledge in knotted cords of cotton or wool called khipus In *The Cord Keepers* the distinguished anthropologist Frank Salomon breaks new ground with a close ethnography of one Andean village where villagers surprisingly have conserved a set of these enigmatic cords to the present day The quipocamayos as the villagers call them form a sacred patrimony Keying his reading to the internal life of the ancient kin groups that own the khipus Salomon suggests that the multicolored cords with their knots and lavishly woven ornaments did not mimic speech as most systems of writing do but instead were anchored in nonverbal codes *The Cord Keepers* makes a compelling argument for a close intrinsic link between rituals and visual sign systems It indicates that while Andean graphic representation may differ radically from familiar ideas of writing it may not lie beyond the reach of scholarly interpretation In 1994 Salomon witnessed the use of khipus as civic regalia on the heights of Tupicocha in Peru's central Huarochir region By observing the rich ritual surrounding them studying the village's written records from past centuries and analyzing the khipus themselves Salomon opens a fresh chapter in the quest for khipu decipherment He draws on a decade's field research early colonial records and radiocarbon and fiber analysis Challenging the prevailing idea that the use of khipus ended under early Spanish colonial rule Salomon reveals that these beautiful objects served apparently as late as the early twentieth century to document households contribution to their kin groups and these kin groups contribution to their village *The Cord Keepers* is a major contribution to Andean history and more broadly to understandings of writing and literacy

Food, Power, and Resistance in the Andes Alison Krögel, 2010-12-16 Food Power and Resistance in the Andes is a dynamic interdisciplinary study of how food's symbolic and pragmatic meanings influence access to power and the possibility of resistance in the Andes. In the Andes, cooking often provides Quechua women with a discursive space for achieving economic self-reliance, creative expression, and for maintaining socio-cultural identities and practices. This book explores the ways in which artistic representations of food and cooks often convey subversive meanings that resist attempts to locate indigenous Andeans and Quechua women in particular at the margins of power. In addition to providing an introduction to the meanings and symbolisms associated with various Andean foods, this book also includes the literary analysis of Andean poetry and prose, as well as several Quechua oral narratives collected and translated by the author during fieldwork carried out over a period of several years in the southern Peruvian Andes. By following the thematic thread of artistic representations of food, this book allows readers to explore a variety of Andean art forms created in both colonial and contemporary contexts. In genres such as the novel, Quechua oral narrative, historical chronicle, testimonies, photography, painting, and film, artists represent Quechua cooks who utilize their access to food preparation and distribution as a tactic for evading the attempts of a patriarchal hegemony to silence their voices, desires, values, and cultural expressions. Whether presented orally, visually, or in a print medium, each of these narratives represents food and cooking as a site where conflict ensues, symbolic meanings are negotiated, and identities are re-constructed. Food Power and Resistance will be of interest to Andean Studies and Food Studies scholars and to students of Anthropology and Latin American Studies.

Water and Power in Highland Peru Paul H. Gelles, 2000 Cabanaconde a town of 5 000 people is located in the arid Andean highlands It is dominated by the foreboding Hualca Hualca mountain peak that is the source of this town s much needed water How the villagers obtain this water Paul Gelles writes is not a simple process the politics of irrigation in this area reflect a struggle for control of vital resources deeply rooted in the clash between local ritualized models of water distribution and the secular model put forth by the Peruvian state Water and Power in Highland Peru provides an insightful case study on the intense conflicts over water rights and a framework for studying ethnic conflict and the effects of development not only in Peru but in other areas as well Most of the inhabitants of Cabanaconde do not identify themselves with the dominant Spanish speaking culture found in Peru And the Peruvian state grounded in a racist post Colonial ethos challenges the village s long standing non Western framework for organizing water management Gelles demonstrates that Andean culture is dynamic and adaptive and it is a powerful source of ethnic identity even for those who leave the village to live elsewhere Indigenous rituals developed in this part of the world he states have become powerful tools of resistance against interference by local elites and the present day Peruvian state Most importantly the micropolitics of Cabanaconde provide a window into a struggle that is taking place around the world

Decolonizing Indigeneity Thomas Ward, 2016-12-20 While there are differences between cultures in different places and times colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy of being represented as nations Colonial representations of indigenous people continue on into the independence era and can still be detected in our time The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples Each chapter has its own decolonial thesis which it then resolves Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans Chapter 2 argues that literature in Latin America begins before 1492 and shows the long arc of Mayan expression taking the Popol Wuj as a case study Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle Agustín de Zárate s *Historia del descubrimiento y conquista del Perú* Chapter 4 shows how by inverting the Renaissance dualist configuration of civilization and barbarian the Nahua Aztecs who were formerly considered barbarian can be civilized within Spanish norms This is done by modeling the categories of civilization discussed at length by the Friar Bartolomé de las Casas as a template that can serve to evaluate Nahua civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl a possibility that would have been available to Spaniards during that time Chapter 5 maintains that the colonialities of the pre Independence era survive but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them By comparing the discussions of the hacienda system by the Peruvian essayist Manuel González Prada and by the Mayan Quiché eye witness to history Rigoberta Menchú this book shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites

Lines in the Water Benjamin S. Orlove, 2002-06-13 *Lines in the Water* is both an unusually thoughtful book and a major contribution to the discussion on sustainable development. James Ferguson, author of *Expectations of Modernity*, Ben Orlove knows the cultural communities and landscapes of Lake Titicaca like the back of his hand but relates them to an entire body of literature about lake-dwelling cultures. His thematic approach to mountains, water names, and other elements of the Titicaca environs makes for rich reading and provocative debate. This book takes the field of political ethnoecology to heights never before imagined by other practitioners. Gary Nabhan, author of *Cultures of Habitat and Coming Home to Eat*, in this illuminating account of life around Lake Titicaca, Ben Orlove draws on his curiosity and experience to offer the reader a rich sense of places, voices, sights, and even pathways. Combining descriptions of everyday practices and history, political and economic forces, and personal memories, he provides an insightful ethnography, an imaginative achievement, and a fine read. Stephen Gudeman, author of *The Anthropology of Economy*, a brave, accessible, and often lyrical account of Lake Titicaca and its people's successful struggle to manage their own resources. Orlove wears his deep learning lightly; a pleasure to read. James C. Scott, Yale University.

Lessons from a Quechua Strongwoman Janis B. Nuckolls, 2010-09-15 Using the intriguing stories and words of a Quechua-speaking woman named Luisa Cadena from the Pastaza Province of Ecuador, Janis B. Nuckolls reveals a complex language system in which ideophony, dialogue, and perspective are all at the core of cultural and grammatical communications among Amazonian Quechua speakers. This book is a fascinating look at ideophones, words that communicate succinctly through imitative sound qualities. They are at the core of Quechua speakers' discourse, both linguistic and cultural, because they allow agency and reaction to substances and entities as well as beings. Nuckolls shows that Luisa Cadena's utterances give every individual, major or minor, a voice in her narrative. Sometimes as subtle as a barely felt movement or unintelligible sound, the language supports an amazingly wide variety of voices. Cadena's narratives and commentaries on everyday events reveal that sound imitation through ideophones, representations of dialogues between humans and nonhumans, and grammatical distinctions between a speaking self and an other are all part of a language system that allows for the possibility of shared affects, intentions, moral values, and meaningful communicative interactions between humans and nonhumans.

The Routledge Handbook of Violence in Latin American Literature Pablo Baisotti, 2022-02-28 This Handbook brings together essays from an impressive group of well-established and emerging scholars from all around the world to show the many different types of violence that have plagued Latin America since the pre-Colombian era and how each has been seen and characterized in literature and other cultural mediums ever since. This ambitious collection analyzes texts from some of the region's most tumultuous time periods, beginning with early violence that was predominately tribal and ideological in nature to colonial and decolonial violence between colonizers and the native population through to the political violence we have seen in the postmodern period, marked by dictatorship, guerrilla warfare, neoliberalism, as well as representations of violence caused by drug trafficking and migration. The volume provides readers with literary examples from across the centuries, showing not only how widespread the violence has been but crucially how it has shaped the region and evolved over time.

Living with the Dead in the Andes Izumi Shimada, James L. Fitzsimmons, 2015-05-14 The Andean idea of death differs markedly from the Western view. In the Central Andes, particularly the highlands, death is not conceptually separated from life nor is it viewed as a permanent state. People, animals, and plants simply transition from a soft, juicy, dynamic life to drier, more lasting states like dry corn husks or mummified ancestors. Death is seen as an extension of vitality. *Living with the Dead in the Andes* considers recent research by archaeologists, bioarchaeologists, ethnographers, and ethnohistorians whose work reveals the diversity and complexity of the dead-living interaction. The book's contributors reap the salient results of this new research to illuminate various conceptions and treatments of the dead: bad and good, dead, mummified, and preserved; the body represented by art or effigies; and personhood in material and symbolic terms. Death does not end or erase the emotional bonds established in life, and a comprehensive understanding of death requires consideration of the corpse, the soul, and the mourners. Lingering sentiment and memory of the departed seems as universal as death itself, yet often it is economic, social, and political agendas that influence the interactions between the dead and the living. Nine chapters, written by scholars from diverse countries and fields, offer data-rich case studies and innovative methodologies and approaches. Chapters include discussions on the archaeology of memory, archaeoethnology, analysis of the transformation of the entire corpse, and associated remains; a historical analysis of postmortem ritual activities; and ethnosemantic/iconographic analysis of the living-dead relationship. This insightful book focuses on the broader concerns of life and death.

Encyclopedia of Contemporary Latin American and Caribbean Cultures Daniel Balderston, Mike Gonzalez, Ana M. López, 2000 This new three-volume encyclopedia features over 4,000 entries on more than 40 regions in Latin America and the Caribbean from 1920 to the present day.

Yanantin and Masintin in the Andean World Hillary S. Webb, 2012-03-15 *Yanantin and Masintin in the Andean World* is an eloquently written autoethnography in which researcher Hillary S. Webb seeks to understand the indigenous Andean concept of yanantin or complementary opposites. One of the most well-known and defining characteristics of indigenous Andean thought, yanantin is an adherence to a philosophical model based on the belief that the polarities of existence—such as male/female, dark/light, inner/outer—are interdependent and essential parts of a harmonious whole. Webb embarks on a personal journey of understanding the yanantin worldview of complementary duality through participant observation and reflection on her individual experience. Her investigation is a thoughtful, careful, and rich analysis of the variety of ways in which cultures make meaning of the world around them and how deeply attached we become to our own culturally imposed meaning-making strategies.
