

JAN. 15, 2014 (READER RESPONSE ?'s)

1. That solitude is coming to an end. People don't know how to be by themselves and just reflect on who you are. I think people are having a harder time to be alone because they are always connected to others.
2. When people take the time to connect to a higher being they are refreshing who they are as a person and "refreshing that norm". Because people are using social media as a way to not have a moment to reflect on who they are. They are using it as a type of distracter. They turn the internet into their own personal world instead of focusing on the one they currently live in.
3. I think it can be, but at the same time I don't agree. I think some people want to be known and their goal is to get a lot of followers, but at the same time I don't think everyone cares about it. No. I think before social media people still had a want to be known and liked and to have a physical reminder they can look at to say oh I have a lot of friends or oh people do like me.
4. I think so. I think everyone needs some time to just be calm and recharge. As humans we are so used to always doing something it's hard to imagine oneself not doing something. I think idle means still being mentally present, but physically relaxed.
5. "answer on moodle"

Recording of Transaction; Journal and Ledger - English Navneet Singh, Recording transactions accurately is essential for maintaining financial records and ensuring compliance with accounting standards and tax regulations Here s a general process for recording transactions

Identification of Transactions Identify all financial transactions relevant to the business including sales purchases expenses revenues investments loans and any other financial activities

Documentation Obtain supporting documents for each transaction such as invoices receipts bills contracts bank statements and vouchers These documents serve as evidence of the transaction and provide details for recording it accurately

Classification Classify each transaction based on its nature such as revenue expense asset liability equity or equity distribution Proper classification ensures that transactions are recorded in the appropriate accounts in the accounting system

Recording in Journals Record each transaction in the appropriate journal or subsidiary ledger Common journals include the sales journal purchases journal cash receipts journal cash disbursements journal and general journal

Double Entry Bookkeeping Follow the double entry bookkeeping system which requires recording each transaction with at least one debit and one credit entry ensuring that the accounting equation Assets Liabilities Equity remains balanced

Posting to General Ledger Transfer the transaction data from journals to the general ledger which contains all accounts used in the accounting system Update the respective account balances based on the debits and credits recorded in the journals

Trial Balance Prepare a trial balance periodically usually monthly or quarterly to verify that the total debits equal the total credits in the general ledger The trial balance helps in identifying any errors or discrepancies in the recording process

Adjustments Make adjusting entries at the end of the accounting period to account for accruals deferrals depreciation allowances and other adjustments required for accurate financial reporting

Financial Statements Prepare financial statements including the income statement balance sheet and cash

flow statement based on the adjusted trial balance These statements provide a summary of the company s financial performance and position during the period Closing Entries Close temporary accounts such as revenue expense and dividend accounts at the end of the accounting period by transferring their balances to the retained earnings or owner s equity account Audit and Review Conduct internal audits and reviews periodically to ensure the accuracy and reliability of financial records External audits may also be conducted by independent auditors for statutory compliance and verification Storage and Retention Maintain proper documentation and records of all transactions in compliance with legal and regulatory requirements Store financial records securely and retain them for the specified retention periods By following these steps businesses can ensure that their financial transactions are accurately recorded providing a reliable basis for decision making financial reporting and compliance with accounting standards and regulations **Write Track Nelson Thomson**

Learning,1998-01-01 *Chimes of a Lost Cathedral* Janet Fitch,2019-07-02 A young Russian woman comes into her own in the midst of revolution and civil war in this brilliant novel set in a world of furious beauty Los Angeles Review of Books After the loves and betrayals of The Revolution of Marina M young poet Marina Makarova finds herself alone amid the devastation of the Russian Civil War pregnant and adrift forced to rely on her own resourcefulness to find a place to wait out the birth of her child and eventually make her way back to her native city Petrograd After two years of revolution the city that was once St Petersburg is almost unrecognizable the haunted half emptied starving Capital of Once Had Been its streets teeming with homeless children Moved by their plight though hardly better off herself she takes on the challenge of caring for these orphans until they become the tool of tragedy from an unexpected direction Shaped by her country s ordeals and her own trials betrayal and privation and inconceivable loss Marina evolves as a poet and a woman of sensibility and substance hardly imaginable at the beginning of her transformative odyssey *Chimes of a Lost Cathedral* is the culmination of one woman s s journey through some of the most dramatic events of the last century the epic story of an artist who discovers her full power passion and creativity just as her revolution reveals its true direction for the future
