**Nail's Crossing** Oct 23 2022

This debut mystery from a fresh voice in Southwestern fiction stakes out the common ground between Tony Hillerman, Elmore Leonard, and Cormac McCarthy. In a remote corner of the Chickasaw Nation, tribal Lighthorse policeman Bill Maytubby and county deputy Hannah Bond discover the buzzard-ravaged body of Majesty Tate, a young drifter with a blank past. They comb Oklahoma's rock prairie, river bottoms, and hard-bitten small towns for traces of her last days. Tate was seen dancing with Austin Love, a violent local meth dealer fresh out of prison. An Oklahoma City motel clerk connects her with an aspiring politician. An oil-patch roustabout and a shady itinerant preacher provide dubious leads. Ne'er-do-wells start dying off. A fluke lead propels Maytubby deep into Louisiana's bayou country, where a Cajun shrimper puts him on the scent of a bizarre conspiracy. He and Bond reunite in the Chickasaw Nation for the eventual face-off at Nail's Crossing. "As fine a mystery series debut as I've read in a long time."-Craig Johnson, New York Times

bestselling author of the Longmire series

"Thrilling...Lackey's exciting story unwinds like a rattlesnake."-Bill Loehfelm, author of The Devil's Muse "A captivating look at a little-known corner of rural Oklahoma...rife with drug problems, yet peopled by tenacious, idiosyncratic characters you can't help rooting for."-Kirkus Reviews **American Motorcyclist** Nov 11 2021 American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. **Race Tech's Motorcycle Suspension Bible** Apr 16 2022 The suspension expert's illustrated, comprehensive troubleshooting guide for dirt, street, and supermoto—with a solution to virtually any problem. Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes

the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance.

**The Burnings** Jun 11 2024 With discovery comes certain death... When Australian Jillian Parker's scorched remains are discovered in her burnt-out car Ruud Pujasumarta and his team are brought in to investigate what appears at first to be a routine homicide. But when Canadian citizen Anita Dalloway's charred body is found a few days later Ruud finds a banner unfurled by the corpse's feet. A verse from the Quran is scribbled across it, calling for unbelievers to be burned. The killer is targeting Christians. And the team's suspicions are confirmed when a third body, that of English backpacker Emily Grealish, turns up with the same M.O. But who is responsible? Is it the senior Australian diplomat from the embassy who was obsessed by the first victim? The Imam who preaches Sharia law? The Indonesian three-star military general taking backhanders and living a life of luxury in Jakarta? Or the local drug dealer with a score to settle? But Ruud is suspicious that the killer may be someone much closer to home, someone

Ruud has trusted for many years. What unravels is a terrifying chain of events for Ruud. And what he discovers puts his and those around him lives in danger.

*Endurance* Mar 04 2021

Nathan Kanney lost his spleen in Poland. Kanney, the main subject of Theresa Ortolani's *Endurance*, crashed his dirt bike during the 2004 International Six Days Enduro race in Poland, but he kept going until he was pulled from the race and taken to the hospital. Doctors removed his ruptured spleen and told him he would have died if he had stayed in the race any longer. That's the MO of the off-road motorcycle world: unless you're on the verge of death, you stay on the throttle. In an age where many high-adrenaline sports have become watered-down exercises in marketing, dirt bike racing remains intensely raw; a dangerous enterprise populated with a colorful, profane cast of daredevils. Ortolani applies an artist's eye to this unforgiving sport and the riders who pursue it, resulting in an unprecedented, behind-the-scenes window into this punishing competition. *Endurance* offers embedded access and a scope that

spansthree years of off-road racing. Ortolani began shootingKanney at a race in 2006 in which Kanney made GrandNational Cross Country history, and Ortolani becamehooked on a sport that is at turns beautiful and inescapablybrutal. Ortolani traveled thousands of miles, across theU.S. and Europe, in the process capturing Kanney's ascentfrom underdog privateer to KTM Factory Team rider-anachievement that required beating world champions ridingbikes three times the cost of his. Endurance includes photographs of Kanney's world-championcompetitors and teammates including David Knight, JuhaSalminen, Mika Ahola, Anders Eriksson, Bartosz Oblucki,and Ryan Mills, with cameo appearances by Travis Pastranaand Carey Hart. Among the many interview subjects areNathan Kanney, Carrie Coombs Russell, Jason Weigandt,Jerry Bernardo, Jonty Edmunds, Jesse Ziegler, Steve Hatch,and Anders Eriksson.

Atlas of Zeolite Framework Types Sep 09 2021 Zeolite scientists, whether they are working in synthesis, catalysis, characterization or application development, use the Atlas of Zeolite Framework Types as a reference. It describes the

main features of all of the confirmed zeolite framework structures, and gives references to the relevant primary structural literature. Since the last edition 34 more framework types have been approved and are described in this new edition. A further new feature will be that characteristic building units will be listed for each of the framework types. Zeolites and their analogs are used as desiccants, as water softeners, as shape-selective acid catalysts, as molecular sieves, as concentrators of radioactive isotopes, as blood clotting agents, and even as additives to animal feeds. Recently, their suitability as hosts for nanometer spacing of atomic clusters has also been demonstrated. These diverse applications are a reflection of the fascinating structures of these microporous materials. Each time a new zeolite framework structure is reported, it is examined by the Structure Commission of the International Zeolite Association (IZA-SC), and if it is found to be unique and to conform to the IZA-SC's definition of a zeolite, it is assigned a 3-letter framework type code. This code is part of the official IUPAC nomenclature for microporous materials. The Atlas of Zeolite Framework Types is essentially a compilation of data for each of these confirmed framework types. These data include a stereo drawing showing the framework connectivity, features that characterize the idealized framework structure, a list of materials with this

framework type, information on the type material that was used to establish the framework type, and stereo drawings of the pore openings of the type material. \* Clear stereo drawings of each of the framework types \* Description of the features of the framework type, allowing readers to quickly see if the framework type is suitable to their needs \* References to isotopic materials, readers can quickly identify related materials and consult the appropriate reference
