Threat of Dissent Julia Rose Kraut,2020-07-21
In this first comprehensive overview of the intersection of immigration law and the First Amendment a lawyer and historian traces ideological exclusion and deportation in the United States from the Alien Friends Act of 1798 to the evolving policies of the Trump administration Beginning with the Alien Friends Act of 1798 the United States passed laws in the name of national security to bar or expel foreigners based on their beliefs and associations although these laws sometimes conflict with First Amendment protections of freedom of speech and association or contradict America s self image as a nation of immigrants The government has continually used ideological exclusions and deportations of noncitizens to suppress dissent and radicalism throughout the twentieth and twenty first centuries from the War on Anarchy to the Cold War to the War on Terror In Threat of Dissent the first social political and legal history of ideological exclusion and deportation in the United States Julia Rose Kraut delves into the intricacies of major court decisions and legislation without losing sight of the people involved We follow the cases of immigrants and foreign born visitors including activists scholars and artists such as Emma Goldman Ernest Mandel Carlos Fuentes Charlie Chaplin and John Lennon Kraut also highlights lawyers including Clarence Darrow and Carol Weiss King as well as organizations like the ACLU and PEN America who challenged the constitutionality of ideological exclusions and deportations under the First Amendment The Supreme Court however frequently interpreted restrictions under immigration law and upheld the government s authority By reminding us of the legal vulnerability foreigners face on the basis of their beliefs expressions and associations Kraut calls our attention to the ways that ideological exclusion and deportation reflect fears of subversion and serve as tools of political repression in the United States

Teaching Writers to Reflect Anne Elrod Whitney, Colleen M. McCracken, Deana Washell,2019 Even if your writing workshop hums with the sound of productive work most days with time carved out for sharing and reflecting how do you know whether your students are really learning from their writing experiences or if they re just going through the motions of writing What if you could teach your students to reflect in a powerful deliberate way throughout the writing process Teaching Writers to Reflect shares a three step process remember describe act to help students develop as writers who know for themselves what they are doing and why The authors argue that teaching the skill of reflection helps students Build identities as writers within a community of writers Learn what to do when there s a problem in their writing Make writing skills transferable to more than one writing situation With specific teaching strategies examples of student work and stories

from their own classrooms Whitney McCracken and Washell help you align the work of reflection with your writing workshop structure After learning to reflect on what they do as writers students not only can say things about the texts they have written but also can talk about their own abilities challenges and the processes by which they solve writing problems
