**The Way to Rainy Mountain** N. Scott Momaday, 1976-09-01 First published in paperback by UNM Press in 1976 The Way to Rainy Mountain has sold over 200 000 copies The paperback edition of The Way to Rainy Mountain was first published twenty five years ago One should not be surprised I suppose that it has remained vital and immediate for that is

the nature of story And this is particularly true of the oral tradition which exists in a dimension of timelessness I was first told these stories by my father when I was a child I do not know how long they had existed before I heard them They seem to proceed from a place of origin as old as the earth The stories in The Way to Rainy Mountain are told in three voices The first voice is the voice of my father the ancestral voice and the voice of the Kiowa oral tradition The second is the voice of historical commentary And the third is that of personal reminiscence my own voice There is a turning and returning of myth history and memoir throughout a narrative wheel that is as sacred as language itself from the new Preface

**Mangroves and Aquaculture** Stuart E. Hamilton, 2019-08-09 This book uses five decades of map data air photos and medium to high resolution satellite imagery to track the expansions of aquaculture and the loss of both estuarine and mangrove land covers in Ecuador The results are staggering In some regions Ecuador has lost almost 50% of its estuarine space and approximately 80% of its mangrove forest The current estuarine land cover bears no resemblance to the historic estuarine land cover The analysis is complete from 1968 to 2014 The analysis covers all the major estuaries of mainland Ecuador The research expands beyond purely land cover into the land use of the estuaries and the implications of the land cover transitions The author lived in Ecuador's estuarine environments for almost two years studying this area During this time he conducted mapping workshops with local residents conducted 100 interviews with local actors conducted six group discussions with fisherfolk syndicates conducted eight presentations worked on a shrimp farm He was employed by the Ministry of the Environment on a Prometeo fellowship for one year researching estuarine health and worked on mangrove replanting projects in the estuaries In addition to the remote sensing data the author provides a contextual framework to the analysis It is not just hard numbers that are presented but a remote sensing analysis tied to local actors that tell a coherent almost 50 year estuarine story at the national provincial and local scales The book is intended for researchers academics graduate students NGOs and government actors including those who work in development environment and policy implementation It is suitable supplemental reading for students in courses related to the coastal zone land use change and remote sensing The electronically supplementary material includes all the related data to underpin the analysis as well as all the resulting GIS files

**Advanced Engineering Mathematics** H. C. Taneja, 2010-10-07 The text has been divided in two volumes Volume I Ch 1 13 Volume II Ch 14 22 In addition to the review material and some basic topics as discussed in the opening chapter the main text in Volume I covers topics on infinite series differential and integral calculus matrices vector calculus ordinary differential equations special functions and Laplace transforms Volume II covers topics on complex analysis Fourier analysis partial differential equations and statistics The present book has numerous distinguishing features over the already existing books on the same topic The chapters have been planned to create interest among the readers to study and apply the mathematical tools The subject has been presented in a very lucid and precise manner with a wide variety of examples and exercises which would eventually help the reader for hassle free study

Arens,William Ray Adams,Rolando A. DeCastro,1981 **Fugitive Knowledge** Andreas Beer,Gesa Mackenthun,2015 Encounters between cultures are also encounters between knowledge systems This volume brings together a number of case studies that explore how some knowledge in cultural contact zones becomes transient evanescent and ephemeral The essays examine various aspects of cultural especially colonial epistemic exchanges placing special emphasis on the fate of those knowledges that are not easily appropriated by or translated from one cultural sphere into another and thus remain at the margins of cross cultural exchanges In addition the imposition of colonial power is unthinkable without the strategic deployment and use of knowledge most colonial states

including those of Germany in the Baltic and in West Africa were knowledge acquiring machines yet acquisition always includes rejection detainment and subjugation of recalcitrant epistemes Bringing together insights from various scholarly disciplines including literary studies history historical anthropology and political science the essays in this volume investigate how different or unfamiliar knowledge was and in some cases still is disarticulated by being belittled discredited and demonized But they also show the strategies of resilience deployed by subjugated and subaltern people the ways in which certain materials have escaped the coloniality of knowledge how fragments and shards of other epistemologies remain inscribed in the polyphony and fuzziness of intercultural documents and archives
