This text should have a shelf-life of 20-years, if past experience is any indicator. Contemporary Issues in Accounting 2nd Edition is suited to a wide range of courses, particularly relevant to advanced financial accounting subjects at both an undergraduate and postgraduate level. It considers a broad range of financial accounting issues facing contemporary businesses from a range of perspectives, including appropriate theories and research findings. The 2nd edition examines the regulatory setting within which accounting operates from the context of the process of standard setting and the Conceptual Framework. Within this framework one of the most controversial areas of accounting - measurement - is examined in detail. Alternative measurement choices are considered, with intangibles and

their understanding, and put into practice what they have learnt. This text covers the material required in an introductory managerial accounting course and compliments my text on introductory financial accounting. Both are texts and courses required for all business degree undergraduates. My objective is to make this material available to students at a very low cost. I have used variable costing and other techniques included in this text in business litigation engagements involving GM, Ford, Chrysler, Toyota, Nissan and other automobile manufacturers, testifying in Nevada, California, Texas, and Arizona. Pauline Weetman's innovative new text expertly guides students over the stepping stones of management accounting and provides a solid foundation across first and second levels as a basis for further specialist study. The text is clear and well structured and brings an imaginative approach to student learning with its emphasis throughout on allowing students to practice the application of theory. Key features include: comprehensive coverage of management accounting topics; provides a number of unique case studies complete with innovative ideas for interactive teaching sessions, as well as engaging real-life commentaries; excellent business focus shows students how management accounting techniques can be applied in real business situations; relevant research is explained in outline to link teaching to current developments; extensive coverage of service and not for profit sectors as well as manufacturing. Practical and imaginative pedagogy includes group discussions and activities; a management accounting consultant, which helps bring topics alive; as well as a wealth of examples, questions and problems throughout.; This work is fully supported by a comprehensive suite of student and lecturer resources, including cases with teaching notes, questions and multiple choice questions, PowerPoint slides, lecture notes, graded questions, and solutions to questions in the book. Innovative full colour design brings key issues and essential topics to life. It fully reflects CIMA terminology. "Management Accounting" aims to provide continuity of study over first and second levels in specialist accounting programmes while preserving the generality of coverage that is suitable for business studies degrees. The text is also suitable for professional courses where management accounting is introduced for the first time. Pauline Weetman BA, BSc (Econ), PhD, CA, FRSE, is Professor of Accounting at the University of Strathclyde, and has extensive experience of teaching at undergraduate and postgraduate level, with previous chairs held at Stirling and Heriot-Watt Universities. She received the Distinguished Academic Award of the British Accounting Association in 2005. She has convened the examining board of the Institute of Chartered Accountants of Scotland and was formerly Director of Research at ICAS. Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students

understand the current standards, they will be able to analyze and interpret changes in the future.
