Healing the Shame that Binds You Aug 13 2023 This classic book, written 17 years ago but still selling more than 13,000 copies every year, has been completely updated and expanded by the author. "I used to drink," writes John Bradshaw, "to solve the problems caused by drinking. The more I drank to relieve my shame-based loneliness and hurt, the more I felt ashamed." Shame is the motivator behind our toxic behaviors: the compulsion, co-dependency, addiction and drive to superachieve that breaks down the family and destroys personal lives. This book has helped millions identify their personal shame, understand the underlying reasons for it, address these root causes and release themselves from the shame that binds them to their past failures.

Technology and Society Jul 12 2023 An anthology of writings by thinkers ranging from Freeman Dyson to Bruno Latour that focuses on the interconnections of technology, society, and values and how these may affect the future. Technological change does not happen in a vacuum; decisions about which technologies to develop, fund, market, and use engage ideas about values as well as calculations of costs and benefits. This anthology focuses on the interconnections of technology, society, and values. It offers writings by authorities as varied as Freeman Dyson, Laurence Lessig, Bruno Latour, and Judy Wajcman that will introduce readers to recent thinking about technology and provide them with conceptual tools, a theoretical framework, and knowledge to help understand how technology shapes society and how society shapes technology. It offers readers a new perspective on such current issues as globalization, the balance between security and privacy, environmental justice, and poverty in the developing world. The careful ordering of the selections and the editors' introductions give *Technology and Society* a coherence and flow that is unusual in anthologies. The book is suitable for use in undergraduate courses in STS and other disciplines. The selections begin with predictions of the future that range from forecasts of technological utopia to cautionary tales. These are followed by writings that explore the complexity of sociotechnical systems, presenting a picture of how technology and society work in step, shaping and being shaped by one another. Finally, the book goes back to considerations of the future, discussing twenty-first-century challenges that include nanotechnology, the role of citizens in technological decisions, and the technologies of human enhancement.

California Jun 11 2023 “A California classic . . . California, it should be remembered, was very much the wild west, having to wait until 1850 before it could force its way into statehood. so what tamed it? Mr. Starr’s answer is a combination of great men, great ideas and great projects.”—The Economist From the age of exploration to the age of Arnold, the Golden State’s premier historian distills the entire sweep of California’s history into one splendid volume. Kevin Starr covers it all: Spain’s conquest of the native peoples of California in the early sixteenth century and the chain of missions that helped that country exert control over the upper part of the territory; the discovery of gold in January 1848; the incredible wealth of the Big Four railroad tycoons; the devastating San Francisco earthquake of 1906; the emergence of Hollywood as the world’s entertainment capital and of Silicon Valley as the center of high-tech research and development; the role of labor, both organized and migrant, in key industries from agriculture to aerospace. In a rapid-fire epic of discovery, innovation, catastrophe, and triumph, Starr gathers together everything that is most important, most fascinating, and most revealing about our greatest state. Praise for California “[A] fast-paced and wide-ranging history . . . [Starr] accomplishes the feat with skill, grace and verve.”—Los Angeles Times Book Review “Kevin Starr is one of California’s greatest historians, and California is an invaluable contribution to our state’s record and lore.”—Marla Shriver, journalist and former First Lady of California “A breeze to read.”—San Francisco

Where the Stress Falls Apr 09 2023 Susan Sontag has said that her earliest idea of what a writer should be was “someone who is interested in everything.” Thirty-five years after her first collection of essays, the now classic *Against Interpretation*, our most important essayist has chosen more than forty longer and shorter pieces from the last two decades that illustrate a deeply felt, kaleidoscopic array of interests, passions, observations, and ideas. “Reading” offers ardent, freewheeling considerations of talismanic writers from her own private canon, such as Marina Tsvetaeva, Randall Jarrell, Roland Barthes, Machado de Assis, W. G. Sebald, Borges, and Elizabeth Hardwick. “Seeing” is a series of luminous and incisive encounters with film, dance, photography, painting, opera, and theatre. And in the final section, “There and Here,” Sontag explores some of her own commitments: to the work (and activism) of conscience, to the concreteness of historical understanding, and to the vocation of the writer. *Where the Stress Falls* records a great American writer’s urgent engagement with some of the most significant aesthetic and moral issues of the late twentieth century, and provides a brilliant and clear-eyed appraisal of what is at stake, in this new century, in the survival of that inheritance.

Alice Bliss Feb 19 2024 Alice Bliss is fifteen. She’s smart, funny, and clever. Not afraid to stand up for the things she believes in. She also idolises her father and, when he leaves home to fight a war she doesn’t believe in, Alice is distraught. She and her mother negotiate his absence as best they can - waiting impatiently for his letters, throwing themselves into school and work respectively, bickering intermittently and, in Alice’s case, falling for the boy next door - but then they’re told that he’s missing in action and have to face up to the fact that he may never return. Telling a story of love and loss, of grief and growing up, of family and friendship, Alice Bliss is a powerful, poignant portrayal of a young girl facing up to the unthinkable. Both intimate and universal, it is, ultimately, a story of a daughter’s love for her father.

Female Serial Killers Sep 21 2021 In this fascinating book, Peter Vronsky exposes and investigates the phenomenon of women who kill—and the political, economic, social and sexual implications buried with each victim. How many of us are even remotely prepared to imagine our mothers, daughters, sisters or grandmothers as fiendish killers? For centuries we have been conditioned to think of serial murderers and psychopathic predators as men—with women registering low on our paranoia radar. Perhaps that’s why so many trusting husbands, lovers, family friends, and children have fallen prey to “the female monster.” From history’s earliest recorded cases of homicidal females to Irma Grese, the Nazi Beast of Belsen, from Britain’s notorious child-slayer Myra Hindley to ‘Honeymoon Killer’ Martha Beck to the sensational cult of Aileen Wournos—the first female serial killer-as-celebrity—to cult killers, homicidal missionaries, and our pop-culture fascination with the sexy femme fatale, Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity. **INCLUDES PHOTOGRAPHS**

Lyrics in the Law Oct 23 2021 In addition to citing case law, Judges have traditionally used recognized legal maxims or treatise citations to support their rulings. But today's judiciary is becoming more apt to use pop culture, modern music, as well as humor in their decisions. This book gives examples of how songs and their lyrics have influenced judges, provided themes for their decisions, and helped make existing law more accessible to lay persons. Mark W. Klingensmith examines the clever ways judges have used them to enhance their judicial writings and how modern day musical lyrics that have effectively become recognized legal maxims by the courts. judicial writings.

Good and Cheap Nov 16 2023 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.
