

Democracy

CASE STUDY: Latin American Democracies

MAIN IDEA

ECONOMICS In Latin America, economic problems and authoritarian rule delayed democracy.

WHY IT MATTERS NOW

By the mid-1990s, almost all Latin American nations had democratic governments.

TERMS & NAMES

- Brasilia
- land reform
- standard of living
- recession
- PRI

SETTING THE STAGE By definition, democracy is government by the people. Direct democracy, in which all citizens meet to pass laws, is not practical for nations. Therefore, democratic nations developed indirect democracies, or republics, in which citizens elect representatives to make laws for them. For example, the United States is a republic. But democracy is more than a form of government. It is also a way of life and an ideal goal. A democratic way of life includes practices such as free and open elections.

Democracy As a Goal

The chart below lists four practices in a democracy, together with conditions that help these democratic practices succeed. Many nations follow these practices to a large degree. However, establishing democracy is a process that takes years.

Even in the United States, the establishment of democracy has taken time. Although the principle of equality is part of the Constitution, many Americans have struggled for equal rights. To cite one example, women did not receive the right to vote until 1920. Democracy is always a “work in progress.”

Making Democracy Work	
Common Practices	Conditions That Foster Those Practices
• Free elections	• Having more than one political party • Universal suffrage—all adult citizens can vote
• Citizen participation	• High levels of education and literacy • Economic security • Freedoms of speech, press, and assembly
• Majority rule, minority rights	• All citizens equal before the law • Shared national identity • Protection of such individual rights as freedom of religion • Representatives elected by citizens to carry out their will
• Constitutional government	• Clear body of traditions and laws on which government is based • Widespread education about how government works • National acceptance of majority decisions • Shared belief that no one is above the law
