Novel 11, Book 18 Feb 19 2023 A brilliant novel by the Norwegian master Dag Solstad Bjorn Hansen, a respectable town treasurer, has just turned fifty and is horrified by the thought that chance has ruled his life. Eighteen years ago he left his wife and their two-year-old son for his mistress, who persuaded him to start afresh in a small, provincial town and to devote himself to an amateur theater. In time that relationship also faded, and after four years of living alone Bjorn contemplates an extraordinary course of action that will change his life forever. He finds a fellow conspirator in Dr. Schiøtz, who has a secret of his own and offers to help Bjorn carry his preposterous plan through to its logical conclusion. But the sudden reappearance of his son both fills Bjorn with new hope and complicates matters. The desire to gamble with his comfortable existence proves irresistible, however, taking him to Vilnius in Lithuania, where very soon he cannot tell whether he's tangled up in a game or reality. Dag Solstad won the Norwegian Critics Prize for Literature for Novel 11, Book 18, a concentrated uncompromising existentialist novel that puts on full display the author's remarkable gifts and wit.

The Life of Music Sep 28 2023 Nicholas Kenyon explores the enduring appeal of the classical canon at a moment when we can access all music—across time and cultures Immersed in music for much of his life as writer, broadcaster and concert presenter, former director of the BBC Proms, Nicholas Kenyon has long championed an astonishingly wide range of composers and performers. Now, as we think about culture in fresh ways, Kenyon revisits the stories that make up the classical tradition and foregrounds those which are too often overlooked. This inclusive, knowledgeable, and enthusiastic guide highlights the achievements of the women and men, amateurs and professionals, who bring music to life. Taking us from pianist Myra Hess's performance in London during the Blitz, to John Adams's composition of a piece for mourners after New York's 9/11 attacks, to Italian opera singers singing from their balconies amidst the 2020 pandemic, Kenyon shows that no matter how great the crisis, music has the power to bring us together. His personal, celebratory account transforms our understanding of how classical music is made—and shows us why it is more relevant than ever.

Rare masterpieces of Russian piano music Jul 03 2021 A great musical tradition flourished in the late 19th- and early-20th-century Russia, nurturing such renowned composers as Mussorgsky, Tchaikovsky, Rachmaninov, and Prokofiev. Unfortunately, many superb compositions by lesser Russian composers have been eclipsed by the works of these giants. In this volume, University of Kentucky musicologist Dmitry Feofanov presents eleven overlooked masterpieces — important Russian piano works of the late 18th to 20th centuries virtually unobtainable elsewhere. Here is Mikhail Glinka's Prayer, a rare program piece by the founder of Russian opera, the first composer whose music was performed in the West; German-born Johann Hässler's Sonata-Fantasia, Op. 4, which anticipates Beethoven in structure; and Sergey Liapunov's Transcendental Etude, Op. 11, No. 10, a stunning tour de force of piano technique. Also included in this impressive collection: Balakirev: Réverie Glazunov: Prelude and Fugue in D Minor, Op. 62 Griboyedov: Two Waltzes Kalinnikov: Nocturne in F-Sharp Minor Liadov: Prelude, Op. 11, No.1 Medtner: Sonata in G Minor, Op. 22 Schlözer: Etude in A-flat, Op. 1, No. 2 Taneyev: Prelude and Fugue, Op. 29 All scores are authoritative, reprinted from rare Russian texts, many of which are now out of print — with new translations of performance instructions. Short biographies of each composer and background information on each piece round out this fine, modestly priced performance and study edition — sure to appeal to pianists, students, music historians, and music lovers everywhere.

Temporary Kings Mar 23 2023 Anthony Powell's universally acclaimed epic A Dance to the Music of Time offers a matchless panorama of twentieth-century London. Now, for the first time in decades, readers in the United States can read the books of Dance as they were originally published—as twelve individual novels—but with a twenty-first-century twist: they're available only as e-books. In this penultimate volume, Temporary Kings (1973), Nick and his contemporaries are at the height of their various careers in the arts, business, and politics. X. Trapnel is dead, but his mystery continues to draw ghoulish interest from readers and academics alike—as well as from his lover, Pamela Widmerpool. Kenneth Widmerpool, meanwhile, is an MP with mysterious connections beyond the newly dropped Iron Curtain, but he continues to be tormented by Pamela; a spectacular explosion, Nick can't help but realize, is imminent. "Anthony Powell is the best living English novelist by far. His admirers are addicts, let us face it, held in thrall by a magician."--ChicagoTribune "A book which creates a world and explores it in depth, which ponders changing relationships and values, which creates brilliantly living and diverse characters and then watches them grow and change in their milieu. . . . Powell's world is as large and as complex as Proust's."--Elizabeth Janeway, New YorkTimes "One of the most important works of fiction since the Second World War. . . . The novel looked, as it began, something like a comedy of manners; then, for a while, like a tragedy of manners; now like a vastly entertaining, deeply melancholy, yet somehow courageous statement about human experience."--Naomi Bliven, New Yorker "The most brilliant and penetrating novelist we have."--Kingsley Amis

Music in the Post-9/11 World May 05 2024 Music in the Post-9/11 World addresses the varied and complex roles music has played in the wake of September 11, 2001. Interdisciplinary in approach, international in scope, and critical in orientation, the twelve essays in this groundbreaking volume examine a diverse array of musical responses to the terrorist attacks of that day, and reflect upon the altered social, economic, and political environment of "post-9/11" music production and consumption.

Individual essays are devoted to the mass-mediated works of popular musicians such as Bruce Springsteen and Darryl Worley, as well as to lesser-known musical responses by artists in countries including Afghanistan, Egypt, Mexico, Morocco, Peru, and Senegal. Contributors also discuss a range of themes including the role played by Western classical music in rites of mourning and commemoration, "invisible" musical practices such as the creation of television news music, and implicit censorship in the mainstream media. Taken as a whole, this collection presents powerful evidence of the central role music has played in expressing, shaping, and contesting worldwide public attitudes toward the defining event of the early twenty-first century.

Musicophilia Sep 04 2021 What goes on in human beings when they make or listen to music? What is it about music, what gives it such peculiar power over us, power delectable and beneficent for the most part, but also capable of uncontrollable and sometimes destructive force? Music has no concepts, it lacks images; it has no power of representation, it has no relation to the world. And yet it is evident in all of us—we tap our feet, we keep time, hum, sing, conduct music, mirror the melodic contours and feelings of what we hear in our movements and expressions. In this book, Oliver Sacks explores the power music wields over us—a power that sometimes we control and at other times don't. He explores, in his inimitable fashion, how it can provide access to otherwise unreachable emotional states, how it can revivify neurological avenues that have been frozen, evoke memories of earlier, lost events or states or bring those with neurological disorders back to a time when the world was much richer. This is a book that explores, like no other, the myriad dimensions of our experience of and with music.

Contributors add an aural dimension to what has been a visual conceptualization of this important moment in US history by articulating the role that lesser-known contemporary musicians have played---or have refused to play---in constructing a politics of protest in direct response to the trauma inflicted that day. Encouraging new conceptualizations of what constitutes "political music," The Politics of Post 9/11 Music covers topics as diverse as the rise of Internet music distribution, Christian punk rock, rap music in the Obama era, and nostalgia for 1960's political activism

Dvorak's Prophecy: And the Vexed Fate of Black Classical Music Jan 21 2023 A Kirkus Reviews Best Nonfiction Book of 2021 A provocative interpretation of why classical music in America "stayed white"—how it got to be that way and what can be done about it. In 1893 the composer Antonin Dvorák prophesied a “great and noble school” of American classical music based on the “negro melodies” he had excitedly discovered since arriving in the United States a year before. But while Black music would foster popular genres known the world over, it never gained a foothold in the concert hall. Black composers found few opportunities to have their works performed, and white composers mainly rejected Dvorák’s lead. Joseph Horowitz ranges throughout American cultural history, from Frederick Douglass and Huckleberry Finn to George Gershwin’s Porgy and Bess and the work of Ralph Ellison, searching for explanations. Challenging the standard narrative for American classical music fashioned by Aaron Copland and Leonard Bernstein, he looks back to literary figures—Emerson, Melville, and Twain—to ponder how American music can connect with a “usable past.” The result is a new paradigm that makes room for Black composers, including Harry Burleigh, Nathaniel Dett, William Levi Dawson, and Florence Price, while giving increased prominence to Charles Ives and George Gershwin. Dvorák’s Prophecy arrives in the midst of an important conversation about race in America—a conversation that is taking place in music schools and concert halls as well as capitols and boardrooms. As George Shirley writes in his foreword to the book, “We have been left unprepared for the current cultural moment. [Joseph Horowitz] explains how we got there [and] proposes a bigger world of American classical music than what we have known before. It is more diverse and more equitable. And it is more truthful.”
