The Production of Space Henri Lefebvre, 1992-04-08 Henri Lefebvre has considerable claims to be the greatest living philosopher His work spans some sixty years and includes original work on a diverse range of subjects from dialectical materialism to architecture urbanism and the experience of everyday life The Production of Space is his major philosophical work and its translation has been long awaited by scholars in many different fields The book is a search for a reconciliation between mental space the space of the philosophers and real space the physical and social spheres in which we all live In the course of his exploration Henri Lefebvre moves from metaphysical and ideological considerations of the meaning of space to its experience in the everyday life of home and city He seeks in other words to bridge the gap between the realms of theory and practice between the mental and the social and between philosophy and reality In doing so he ranges through art literature architecture and economics and further provides a powerful antidote to the sterile and obfuscatory methods and theories characteristic of much recent continental philosophy This is a work of great vision and incisiveness It is also characterized by its author's wit and by anecdote as well as by a deftness of style which Donald Nicholson Smith's sensitive translation precisely captures

Seventeen Contradictions and the End of Capitalism David Harvey, 2014 David Harvey examines the foundational contradictions of capital and reveals the fatal contradictions that are now inexorably leading to its end

Cuisine and Culture Linda Civitello, 2011-03-29 Cuisine and Culture presents a multicultural and multiethnic approach that draws connections between major historical events and how and why these events affected and defined the culinary traditions of different societies Witty and engaging Civitello shows how history has shaped our diet and how food has affected history Prehistoric societies are explored all the way to present day issues such as genetically modified foods and the rise of celebrity chefs Civitello's humorous tone and deep knowledge are the perfect antidote to the usual scholarly and academic treatment of this universally important subject

Dirty Kisses Kenya Wright, 2018-06-25 I knew

one thing He was the boss He walked like one like he owned the ground his feet stepped on Like he owned the air that we all breathed in Like he could eat up the universe if he wanted to Someone killed Rumi the Russian Mafia s top washer in New York Kazimir the head of the Bratva has come to NY to find the murderer They call him The Russian Lion known for having over two hundred kills By the age of twenty the FBI placed him ten steps away from Usama Bin Laden on the Most Wanted List To kill his washer begins a dark and deadly war Unfortunately Emily falls on Kazimir s radar Her brother is suspected of being involved in the murder To save her brother she is forced to launder Kazimir s money but she s a perfect fit for the job Known as a con to others called a hustler by many she s the best washer in Harlem keeping low key gangsters on their toes At first Kazimir and Emily have a tricky arrangement based on fear and danger Her working for him is like balancing on a tight rope He s a monster wrapped in a gorgeous package Still there s an air of sensuality around him that makes her forget sometimes how terrifying he can be Sexual tension heats up between the two but one violent night changes everything pitting everyone against each other Russians Jamaicans anyone in Harlem with a gun Kazimir and Emily must somehow learn to trust each other before they end up being one of the dozens of dead bodies left on the streets of New York But there are hidden secrets and twists intertwined with Rumi s murders When the truth comes to light Kazimir s money won t be the only thing that s dirty And unfortunately their rising attraction may not survive

From the Erotica Bestselling Author of No Ordinary Love Filthy Lies and Power Steamy sex and mind blowing suspense collide in this BWWM Romance of a Russian mafia boss and the one street smart woman he can t control *Visual Global Politics* Roland Bleiker, 2018-02-13 We live in a visual age Images and visual artefacts shape international events and our understanding of them Photographs film and television influence how we view and approach phenomena as diverse as war diplomacy financial crises and election campaigns Other visual fields from art and cartoons to maps monuments and videogames frame how politics is perceived and enacted Drones satellites and surveillance cameras watch us around the clock and deliver images that are then put to political use Add to this that new technologies now allow for a rapid distribution of still and moving images around the world Digital media platforms such as Twitter YouTube Facebook and Instagram play an important role across the political spectrum from terrorist recruitment drives to social justice campaigns This book offers the first comprehensive engagement with visual global politics Written by leading experts in numerous scholarly disciplines and presented in accessible and engaging language *Visual Global Politics* is a one stop source for students scholars and practitioners interested in understanding the crucial and persistent role of images in today s world

Slow Violence and the Environmentalism of the Poor Rob Nixon, 2011-06-01 Groundbreaking in its call to reconsider our approach to the slow rhythm of time in the very concrete realms of environmental health and social justice *World Literature Today* The violence wrought by climate change toxic drift deforestation oil spills and the environmental aftermath of war takes place gradually and often invisibly Using the innovative concept of slow violence to describe these threats Rob Nixon focuses on the inattention we have paid to the

attritional lethality of many environmental crises in contrast with the sensational spectacle driven messaging that impels public activism today Slow violence because it is so readily ignored by a hard charging capitalism exacerbates the vulnerability of ecosystems and of people who are poor disempowered and often involuntarily displaced while fueling social conflicts that arise from desperation as life sustaining conditions erode In a book of extraordinary scope Nixon examines a cluster of writer activists affiliated with the environmentalism of the poor in the global South By approaching environmental justice literature from this transnational perspective he exposes the limitations of the national and local frames that dominate environmental writing And by skillfully illuminating the strategies these writer activists deploy to give dramatic visibility to environmental emergencies Nixon invites his readers to engage with some of the most pressing challenges of our time

Seduced by Moonlight Kenya Wright,2021 **Dirty Love** Kenya Wright,2018-09-24 **Indigenous Knowledge and the Integration of Knowledge Systems** Catherine Alum Odora Hoppers,2002 This book explores the role of the social and natural sciences in supporting the development of indigenous knowledge systems It looks at how indigenous knowledge systems can impact on the transformation of knowledge generating institutions such as scientific and higher education institutions on the one hand and the policy domain on the other *Idea Man* Paul Allen,2012 What s it like to start a revolution How do you build the biggest tech company in the world And why do you walk away from it all Paul Allen co founded Microsoft Together he and Bill Gates turned an idea writing software into a company and then an entire industry This is the story of how it came about two young mavericks who turned technology on its head the bitter battles as each tried to stamp his vision on the future and the ruthless brilliance and fierce commitment Fire Baptized Kenya Wright,2012 Since the 1970s humans have forced supernaturals to live in caged cities Silver brands embedded in their foreheads identify them by species a full moon for Vampires a crescent moon for Shifters a pair of wings for Fairies and the list goes on for each supernatural species has been tagged and categorized by humans Lanore Vesta is marked with a silver X the brand of Mixbreeds second class citizens shunned by society She stays to herself revealing her ability to create fire only during emergencies All she wants to do is graduate college and stop having to steal to survive But when she stumbles upon a murder in progress she catches the attention of a supernatural killer Now all she wants is to stop finding dead bodies in her apartment Enlisting help from her Were cheetah ex boyfriend Meshack and a new mysterious friend named Zulu she is steered through the habitat s raunchy nightlife But their presence sometimes proves to be more burden than help as they fight for her attention While the corpses pile up and the scent of blood fills the air Lanore is left wondering will she find the psycho or die trying **Greening the Academy** Samuel Fassbinder,Anthony Nocella,Richard Kahn,2012-12-30 This is the academic Age of the Neoliberal Arts Campuses as places characterized by democratic debate and controversy wide ranges of opinion typical of vibrant public spheres and service to the larger society are everywhere being creatively destroyed in order to accord with market and military models befitting the academic industrial complex While it has become increasingly clear

that facilitating the sustainability movement is the great 21st century educational challenge at hand this book asserts that it is both a dangerous and criminal development today that sustainability in higher education has come to be defined by the complex friendly green campus initiatives of science technology engineering and management programs By contrast Greening the Academy Ecopedagogy Through the Liberal Arts takes the standpoints of those working for environmental and ecological justice in order to critique the unsustainable disciplinary limitations within the humanities and social sciences as well as provide tactical reconstructive openings toward an empowered liberal arts for sustainability Greening the Academy thus hopes to speak back with a collective demand that sustainability education be defined as a critical and moral vocation comprised of the diverse types of humanistic study that will benefit the well being of our emerging planetary community and its numerous common locales

Evolution's Rainbow Joan Roughgarden, 2013-09-14 In this innovative celebration of diversity and affirmation of individuality in animals and humans Joan Roughgarden challenges accepted wisdom about gender identity and sexual orientation A distinguished evolutionary biologist Roughgarden takes on the medical establishment the Bible social science and even Darwin himself She leads the reader through a fascinating discussion of diversity in gender and sexuality among fish reptiles amphibians birds and mammals including primates Evolution's Rainbow explains how this diversity develops from the action of genes and hormones and how people come to differ from each other in all aspects of body and behavior Roughgarden reconstructs primary science in light of feminist gay and transgender criticism and redefines our understanding of sex gender and sexuality Witty playful and daring this book will revolutionize our understanding of sexuality Roughgarden argues that principal elements of Darwinian sexual selection theory are false and suggests a new theory that emphasizes social inclusion and control of access to resources and mating opportunity She disputes a range of scientific and medical concepts including Wilson's genetic determinism of behavior evolutionary psychology the existence of a gay gene the role of parenting in determining gender identity and Dawkins's selfish gene as the driver of natural selection She dares social science to respect the agency and rationality of diverse people shows that many cultures across the world and throughout history accommodate people we label today as lesbian gay and transgendered and calls on the Christian religion to acknowledge the Bible's many passages endorsing diversity in gender and sexuality Evolution's Rainbow concludes with bold recommendations for improving education in biology psychology and medicine for democratizing genetic engineering and medical practice and for building a public monument to affirm diversity as one of our nation's defining principles

How We Can Win Kimberly Jones, 2022-01-18 Shortlisted for the SABEW Best in Business Book Awards Winner of the 2022 AAMBC Literary Award for Non Fiction Self Help Book of the Year A breakdown of the economic and social injustices facing Black people and other marginalized citizens inspired by political activist Kimberly Jones viral video How Can We Win So if I played four hundred rounds of Monopoly with you and I had to play and give you every dime that I made and then for fifty years every time that I played if you didn't like what I did you got to burn it like they

did in Tulsa and like they did in Rosewood how can you win How can you win When Kimberly Jones declared these words amid the protests spurred by the murder of George Floyd she gave a history lesson that in just over six minutes captured the economic struggles of Black people in America Within days the video had been viewed by millions of people around the world riveted by Jones s damning and stunningly succinct analysis of the enduring disparities Black Americans face In *How We Can Win* Jones delves into the impacts of systemic racism and reveals how her formative years in Chicago gave birth to a lifelong devotion to justice Here in a vital expansion of her declaration she calls for Reconstruction 2.0 a multilayered plan to reclaim economic and social restitutions those restitutions promised with emancipation but blocked again and again for more than 150 years And most of all Jones delivers strategies for how we can effect change as citizens and allies while nurturing ourselves the most valuable asset we have in the fight against a system that is still rigged Turning the Tide C. R. Veitch, Michael Norman Clout, 2002 Includes papers and abstracts dealing with eradication of invasive species in Alaska Australia Baker Island California Christmas Island Enderby and Rose Islands Galapagos Islands Hawaii Howland Island Japan Jarvis Island Laysan Island Lord Howe Island Mauritius Mexico Nauru New Zealand Northern Ireland Northern Mariana Islands Saint Paul Island Seychelles West Indies **Conservation by Proxy** Tim Caro, 2010-06-23 The vast scope of conservation problems has forced biologists and managers to rely on surrogate species to serve as shortcuts to guide their decision making These species known by a host of different terms including indicator umbrella and flagship species act as proxies to represent larger conservation issues such as the location of biodiversity hotspots or general ecosystem health Synthesizing an immense body of literature conservation biologist and field researcher Tim Caro offers systematic definitions of surrogate species concepts explores biological theories that underlie them considers how surrogate species are chosen critically examines evidence for and against their utility and makes recommendations for their continued use The book clarifies terminology and contrasts how different terms are used in the real world considers the ecological taxonomic and political underpinnings of these shortcuts identifies criteria that make for good surrogate species outlines the circumstances where the application of the surrogate species concept shows promise *Conservation by Proxy* is a benchmark reference that provides clear definitions and common understanding of the evidence and theory behind surrogate species It is the first book to review and bring together literature on more than fifteen types of surrogate species enabling us to assess their role in conservation and offering guidelines on how they can be used most effectively *Human Behavior and Environment: Children and the environment* Irwin Altman, Joachim F. Wohlwill, 1976 **Making Better Policies for Food Systems** OECD, 2021-01-11 Food systems around the world face a triple challenge providing food security and nutrition for a growing global population supporting livelihoods for those working along the food supply chain and contributing to environmental sustainability Better policies hold tremendous promise for making progress in these domains Mapping the Terrain Suzanne Lacy, 1995 In this wonderfully bold and speculative anthology of writings artists and critics offer a highly persuasive

set of argument and pleas for imaginative socially responsible and socially responsive public art Amazon
