ADVENTURE IN PERU

I've just been to see a film is called Touching the Void. It's about two climbers who decided to go climbing in the mountains in Peru. It took them two days to reach the mountain they had been decided to climb because it was in such a remote place. They left a companion and the most of their supplies at a base camp, optimistically thinking about they would be back in a couple of days. After a difficult climb, they reached at the top of the mountain. It was then that everything started to go wrong. Because of one climber had broken his leg, he had to be lowered down the mountain by means of a rope. His leg it was so much painful that he couldn't stand on it. After a very exciting bit of the film, which I won't describe, he found by himself alone at the bottom of a crevasse. He managed to climb out and eventually crawl to safety. The cold was so intense that he got frostbite in his hands, but he was carried on, dragging himself down a glacier and across rocks. When he arrived at the base camp, his friends were too amazed to see him. They couldn't believe that in despite his broken leg, he had managed to reach the camp.
